

THE GAMCO MATHERS FUND

STATEMENT OF ADDITIONAL INFORMATION

April 30, 2018

This Statement of Additional Information (the "SAI"), which is not a prospectus, describes the GAMCO Mathers Fund, a Delaware statutory trust (the "Fund"). This SAI should be read in conjunction with the Fund's current prospectus for Class AAA shares dated April 30, 2018. This SAI is incorporated by reference in its entirety into the Fund's prospectus. Portions of the Fund's Annual Report to shareholders are incorporated by reference into this SAI. For a free copy of the prospectus or the Fund's annual report to shareholders, please contact the Fund at the address, telephone number, or Internet website printed below.

GENERAL INFORMATION

The Fund is a diversified, open-end management investment company organized under the laws of the State of Delaware on June 17, 1999. The Fund commenced operations on October 1, 1999, as the successor to Mathers Fund, Inc., a Maryland corporation incorporated on March 31, 1965, that commenced operations on August 19, 1965. Any reference herein to the Fund, including any financial information, and performance data relating to the period prior to October 1, 1999, reflects the Fund as constituted prior to the commencement of operations as a trust.

INVESTMENT STRATEGIES AND RISKS

The Fund's investment objective and the principal investment strategies to be employed to achieve that objective are generally set forth in the prospectus. This section describes in more detail certain securities in which the Fund may invest and certain investment practices and restrictions and is intended to augment the descriptions found in the prospectus. Subject to the investment policies and restrictions contained in the prospectus and herein, the Fund may invest in any of the securities described below.

Fixed Income Securities

The Fund may, subject to the limitation described under "Fundamental Policies," invest all or any portion of its assets in high quality fixed income securities, which may include the following:

- U.S. Treasury bills, notes, or bonds;
- bankers' acceptances and certificates of deposit of the fifty largest commercial banks in the United States, measured by total assets as shown by their most recent annual financial statements;
- commercial paper rated "A-1" or "A-2" by Standard & Poor's Rating Services ("S&P"), a division of The McGraw-Hill Companies, Inc., or P-1 or P-2 by Moody's Investors Service, Inc. ("Moody's"), or, if not rated, issued by companies having an outstanding debt issue rated "AA" or better by S&P or "Aa" or better by Moody's (see Appendix A); or
- repurchase agreements with respect to the foregoing (see "Repurchase Agreements" below).

U.S. Treasury Securities. The Fund may invest in U.S. Treasury securities. U.S. Treasury bills, notes, and bonds are direct obligations of the U.S. Treasury and they differ with respect to certain items such as coupons, maturities, and dates of issue. Treasury bills have a maturity of one year or less. Treasury notes have maturities of one to ten years and Treasury bonds generally have a maturity of greater than ten years. Direct obligations of the U.S. government are subject to variations in market value due to, among other factors, fluctuations in interest rates and changes to the financial condition or credit rating of the U.S. government.

Bank Obligations. Bank obligations include certificates of deposit and bankers' acceptances. Certificates of deposit are negotiable certificates issued against funds deposited in a commercial bank for a definite period of time and earning a specified return. Bankers' acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are "accepted" by a bank, meaning, in effect, that the bank unconditionally agrees to pay the face value of the instrument on maturity.

Commercial Paper. Commercial paper is an issuer's obligation with a maturity of less than nine months. Companies typically issue commercial paper to pay for current expenditures. Most issuers constantly reissue their commercial paper and use the proceeds (or bank loans) to repay maturing paper. If the issuer cannot continue to obtain liquidity in this fashion, its commercial paper may default. The short maturity of commercial paper reduces both the market and credit risks as compared to other debt securities of the same issuer.

Foreign Securities

The Fund may, subject to the limitation described under "Non-Fundamental Policies," invest directly in both sponsored and unsponsored U.S. dollar or foreign currency denominated corporate debt securities, certificates of deposit, and bankers' acceptances issued by foreign banks, and obligations of foreign governments or their subdivisions, agencies, and instrumentalities, international agencies and supranational entities, up to 25% of its total assets directly in foreign equity securities and in securities represented by European Depositary Receipts ("EDRs") or American Depositary Receipts ("ADRs"). ADRs are dollar denominated receipts generally issued by domestic banks, which represent the deposit of a security of a foreign issuer with a bank, and which are publicly traded on exchanges or over-the-counter in the United States. EDRs are receipts similar to ADRs and are issued and traded in Europe.

Investing in the securities of foreign issuers involves special risks and considerations not typically associated with investing in U.S. companies. These risks are intensified with respect to investments in emerging market countries. These include differences in accounting, auditing and financial reporting standards, generally higher commission rates on foreign transactions, the possibility of expropriation, nationalization, or confiscatory taxation, adverse changes in investment or exchange control regulations, trade restrictions, political instability (which can affect U.S. investments in foreign countries), the impact of economic sanctions, and potential restrictions on the flow of international capital. It may be more difficult to obtain and enforce judgments against foreign entities. If the United States imposes economic sanctions against a foreign government or issuers, a Fund's investments in issuers subject to such sanctions may be frozen, prohibiting the Fund from selling or otherwise transacting in these instruments, and the Fund may be prohibited from investing in such issuers. Additionally, income (including dividends and interest) and capital gains from foreign securities may be subject to foreign taxes, including foreign withholding taxes, and other foreign taxes may apply with respect to securities transactions. Transactions on foreign exchanges or over-the-counter markets may involve greater time from the trade date until settlement than for domestic securities transactions and, if the securities are held abroad, may involve the risk of possible losses through the holding of securities in custodians and depositories in foreign countries. Foreign securities often trade with less frequency and volume than domestic securities and therefore may exhibit greater price volatility. Changes in foreign exchange rates will affect the value of those securities which are denominated or quoted in currencies other than the U.S. dollar. Investing in depositary receipts may involve many of the same special risks associated with investing in securities of foreign issuers.

There is generally less publicly available information about foreign companies comparable to reports and ratings that are published about companies in the United States. Foreign companies are also generally not subject to uniform accounting and auditing and financial reporting standards, practices, and requirements comparable to those applicable to U.S. companies.

With respect to certain foreign countries, there is the possibility of adverse changes in investment or exchange control regulations, nationalization, expropriation or confiscatory taxation, limitations on the removal of funds or other assets of the Fund, political or social instability, or diplomatic developments which could affect United States investments in those countries. Moreover, individual foreign economies may differ favorably or unfavorably from the United States' economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resource self-sufficiency, and balance of payments position.

The dividends and interest payable on certain of the Fund's foreign securities may be subject to foreign withholding taxes, thus reducing the net amount of income available for distribution.

Investment in foreign securities also involves the risk of possible losses through the holding of securities in custodian banks and securities depositories in foreign countries. No assurance can be given that expropriation, nationalization, freezes, or confiscation of assets, which would impact assets of the Fund, will not occur, and shareholders bear the risk of losses arising from these or other events. There are frequently additional expenses associated with maintaining the custody of foreign investments. Expenses of maintaining custody of Fund investments are paid by the Fund. This may lead to higher expenses for funds that have foreign investments.

There are certain risks associated with investments in unsponsored ADR programs. Because the non-U.S. company does not actively participate in the creation of the ADR program, the underlying agreement for service and payment will be between the depository and the shareholder. The company issuing the stock underlying the ADRs pays nothing to establish the unsponsored facility, as fees for ADR issuance and cancellation are paid by brokers. Investors directly bear the expenses associated with certificate transfer, custody, and dividend payment.

In an unsponsored ADR program, there also may be several depositories with no defined legal obligations to the non-U.S. company. The duplicate depositories may lead to marketplace confusion because there would be no central source of information to buyers, sellers, and intermediaries. The efficiency of centralization gained in a sponsored program can greatly reduce the delays in delivery of dividends and annual reports.

Investment Company Securities

The Fund may invest in investment company securities. Investment company securities are securities of other open-end or closed-end investment companies. Except for so-called fund-of-funds, the Investment Company Act of 1940, as amended (the "1940 Act") generally prohibits a fund from acquiring more than 3% of the outstanding voting shares of an investment company and limits such investments to no more than 5% of the Fund's total assets in any one investment company and no more than 10% in any combination of investment companies. The 1940 Act further prohibits a fund from acquiring in the aggregate more than 10% of the outstanding voting shares of any registered closed-end investment company. Investing in other investment companies involves substantially the same risks as investing directly in the underlying instruments, but the total return on such investments at the investment company level may be reduced by the operating expenses and fees of such other investment companies, including advisory fees.

Exchange Traded Funds. Exchange traded funds (“ETFs”) are a type of investment company security bought and sold on a securities exchange. An ETF generally represents a portfolio of securities designed to track a particular market index. The Fund could purchase an ETF to temporarily gain exposure to a portion of the U.S. or a foreign market while awaiting purchase of underlying securities. The risks of owning an ETF generally reflect the risks of owning the underlying securities they are designed to track, although lack of liquidity in an ETF could result in it being more volatile, and ETFs have management fees which increase their costs.

Small Cap Risk

The Fund’s share price will fluctuate with changes in the market value of the Fund’s portfolio securities. Stocks are subject to market, economic, and business risks that may cause their prices to fluctuate. Investment in small capitalization stocks may be subject to more abrupt or erratic movements in price than investment in medium and large capitalization stocks. The Fund is also subject to the risk that the Adviser’s judgments about above average growth potential of a particular company is incorrect and that the perceived value of such company’s stock is not realized by the market, or that the price of the Fund’s portfolio securities will decline. The greater price volatility of small capitalization stocks may result from the fact that there may be less market liquidity, less information publicly available, or fewer investors who monitor the activities of those companies. The Fund is also subject to the risk that small capitalization stocks fall out of favor generally with investors.

Repurchase Agreements

The Fund will not invest over 10% of its assets in repurchase agreements with maturities of over seven (7) days. Underlying securities subject to a repurchase agreement are held in a segregated account in which the custodian holds assets on behalf of the Fund and others. If the counterparty fails to repurchase any such securities, the Fund could experience losses that include:

- possible decline in their value while the Fund seeks to enforce its rights;
- possible loss of all or a part of the income or proceeds of the repurchase;
- possible loss of rights in such securities; or
- additional expenses to the Fund in enforcing its rights.

Short Sales of Securities

The Fund may, subject to the federal securities laws and rules and interpretations thereunder, and the limitation described under “Non-Fundamental Policies,” effect short sales of securities, including short sales “against the box.” A short sale is a transaction in which the Fund sells a security which it does not then own in anticipation that the market price of that security will decline. A short sale against the box occurs when the Fund contemporaneously owns or has the right to obtain at no added cost, securities identical to those sold short. Short sales against the box may be subject to special tax rules, one of the effects of which may be to accelerate income to the Fund.

When the Fund makes a short sale, it will borrow the security sold short and deliver it to the broker-dealer through which it made the short sale as collateral for its obligation to deliver the security upon conclusion of the sale. In connection with such short sales, the Fund may pay a fee to borrow securities or maintain an arrangement with a broker to borrow securities, and is often obligated to pay over any accrued interest and dividends on such borrowed securities. In the fiscal year ended December 31, 2017, the Fund paid 1.27% in dividends and interest expense on such borrowed securities. In a short sale, the Fund does not immediately deliver the securities sold or receive the proceeds from the sale. The Fund closes out a short position by purchasing and delivering an equal amount of the securities sold short.

To the extent that the Fund engages in short sales, it will provide collateral to the broker-dealer and will maintain additional asset coverage in the form of segregated or “earmarked” assets on the records of the Adviser or with the Fund’s Custodian, consisting of cash, U.S. government securities, or other liquid securities that is equal to the current market value of the securities sold short until the Fund replaces the borrowed security. Depending on arrangements made with the broker-dealer from which it borrowed the security regarding payment over of any payments received by the Fund on such security, the Fund may not receive any payments (including interest) on its collateral deposited with such broker-dealer. If the price of the security sold short increases between the time of the short sale and the time the Fund replaces the borrowed security, the Fund will incur a loss; conversely, if the price declines, the Fund will realize a capital gain. Any gain will be decreased, any loss increased, by the transaction costs described above. Although the Fund’s gain is limited to the price at which it sold the security short, its potential loss is theoretically unlimited.

To the extent the Fund engages in short selling in foreign (non-U.S.) jurisdictions, the Fund will do so to the extent permitted by the laws and regulations of such jurisdiction.

The Fund may sell securities short when it believes that prices of such securities are likely to decline, thereby giving the Fund the opportunity to potentially profit from any such decline.

The short sale of securities is generally considered a speculative investment strategy. The risks associated with short sales, may include but are not limited to: (i) the decision of whether, when, and how to utilize short selling, which involves the exercise of skill and judgment, unless the Fund's portfolio manager correctly anticipates the price movements of securities, it is possible that, for at least certain short sales, the Fund would have been better off if the short sale had not been made; (ii) the inability to set a theoretical limit on potential losses for a short sale, as unlike a long purchase, the investor cannot lose more than the purchase price; (iii) certain conditions in which short sales of securities could increase the volatility of the Fund or decrease its liquidity; (iv) possible volatility or illiquidity in the markets which could result in difficulty in closing out an existing short position, causing a continuing exposure to adverse price movements until the position is covered; (v) the lender of a security borrowing and selling short may call the security back, possibly causing a premature close-out of the short position; (vi) the amount of any gain will be decreased, and the amount of any loss increased, by the amount of dividends or interest the Fund may be required to pay in connection with a short sale and (vii) the successful use of short selling may be adversely affected by imperfect correlation between movements in the price of the security sold short and the securities being hedged.

Corporate Reorganizations

In general, securities of companies that have announced reorganization transactions sell at a premium to their historic market price immediately prior to the announcement of the tender offer or reorganization proposal. However, the increased market price of such securities may reflect a discount to what the stated or appraised value of the security would be if the contemplated transaction is approved and consummated. Such investments may be advantageous when the discount significantly overstates the risk of the contingencies involved; significantly undervalues the securities, assets, or cash to be received by shareholders of the prospective acquiring portfolio company as a result of the contemplated transaction; or fails adequately to recognize the possibility that the offer or proposal may be replaced or superseded by an offer or proposal of greater value. The evaluation of such contingencies requires unusually broad knowledge and experience on the part of the Fund's investment adviser, GAMCO Asset Management Inc. (the "Adviser") which must appraise not only the value of the issuer and its component businesses as well as the assets or securities to be received as a result of the contemplated transaction, but also the financial resources and business motivation of the offeror as well as the dynamics of the business climate when the offer or proposal is in progress.

The Fund's investments in a single corporate reorganization transaction may be limited by its fundamental policies regarding diversification among issuers and industry concentration (see below, "Investment Restrictions"). Because such investments are ordinarily short term in nature, they may increase the Fund's portfolio turnover ratio thereby increasing its brokerage and other transaction expenses. The Fund's portfolio manager intends to select investments of the type described which, in the Adviser's view, have a reasonable prospect of significant capital appreciation in relation to both the risks involved and the potential of available alternate investments.

Stock Index Options

The Fund may, subject to the limitation described under "Non-Fundamental Policies", purchase put and call options on stock indices for hedging purposes in circumstances believed appropriate by the Adviser. Stock index options are issued by the Options Clearing Corporation. The Fund will only purchase stock index options which are traded on a national securities exchange such as the Chicago Board Options Exchange, Inc. Upon purchase of a stock index option, the Fund will pay a purchase price (the "premium") and brokerage commissions and fees (collectively, together with the premium, "transaction costs"). Such options confer upon the holder the right to receive upon exercise an amount of cash which is based on the difference between the exercise price of the option and the closing level of the underlying stock index on the exercise date multiplied by a specified dollar amount. The right to receive any cash amount depends on the closing level of the stock index upon which the option is based being greater than (in the case of a call) or less than (in the case of a put) the exercise price of the option.

A stock index option may be exercised only during its remaining life and may be sold prior to expiration. The value of an option will generally vary directly in the case of a call, and inversely in the case of a put, with movements in the underlying index, and the percentage fluctuations in the value of an option may be many times greater than those of the underlying index. Call index options may be purchased as a hedge against an increase in the price of securities generally in connection with either sales of portfolio securities or deferrals to a later date of purchases of securities it may desire to purchase. Put index options may be purchased as a hedge against a decline in the price of securities generally rather than selling portfolio securities.

Any protection provided by stock index options is effective only against changes in the level of a stock index and not necessarily against a change in the value of individual securities. Thus, the effectiveness of the use of stock index options as a hedge is dependent on the extent to which price movements of individual securities which are being hedged correlate with price movements in the underlying stock index. Unless a stock index option can be sold or can be exercised at a profit prior to expiration, the Fund will forfeit

the entire amount of its transaction costs, often in a relatively short period of time. Any profit that may be realized from the sale or exercise of stock index options will be reduced by related transaction costs.

Stock Index Futures Contracts and Options on Such Contracts

The Fund may, subject to the limitation described under “Non-Fundamental Policies”, purchase or sell stock index futures contracts and options on such contracts for hedging purposes in circumstances believed to be appropriate by the portfolio manager thereby altering the Fund’s equity exposure without actually buying or selling underlying equity securities. A stock index futures contract provides that a person with an open position in such a contract has the right to receive, or the obligation to pay, cash amounts on a daily basis during the period such a position is open, based on the daily changes in the difference between the price at which the contract is originally made and the current level of the underlying stock index multiplied by a specified dollar amount. An option on a stock index futures contract gives the holder (purchaser) the right, but not the obligation, in return for payment of the premium (option price), to acquire either a long or a short position (a long position if the option is a call and a short position if the option is a put) in such futures contract at a specified exercise price at any time during the option exercise period. The writer of the stock index futures option has the obligation upon exercise to assume the opposite position on the stock index futures contract.

The Fund’s transactions in stock index futures contracts will be executed on U.S. boards of trade designated by the Commodity Futures Trading Commission (“CFTC”) as contract markets (“contract markets”) through a futures commission merchant (an “FCM”) which is a member of the relevant contract market. The contract markets, through their clearinghouses, effectively guarantee that the payments due with respect to stock index futures contracts will be made so that traders need not rely solely on the solvency of individual traders or brokers for the satisfaction of the obligations under open positions. However, in the event of a bankruptcy of the Fund’s broker, the Fund may be unable to recover its assets, even assets directly traceable to the Fund from such broker.

At the time the Fund enters into a stock index futures contract, it is required to deposit as “initial margin” a specified amount of cash or cash equivalents per contract. Thereafter, subsequent payments of “variation margin” are made daily to or from the FCM based upon daily changes in the value of the contract (a process known as “marking to market”). Initial margin is in the nature of a performance deposit, which is returned to the Fund unless it defaults in making variation margin payments. Variation margin is the settlement made each day between the Fund and the FCM based upon fluctuations in the price level of such contracts, which under normal market conditions directly reflect fluctuations in the level of the stock index on which the contract is based. A person with a long position in a stock index futures contract (purchaser) has the right to receive payments to the extent that the market price level of such futures contract increases above the level at which such person acquired the long position, and will be obligated to make payments to the extent that such market price level falls below the acquisition price level. The converse is the case for a person with a short position in a stock index futures contract (seller).

Upon exercise of a stock index futures option, the simultaneous acquisition of open positions in the underlying stock index futures contract by the person exercising the option and the writer is accomplished by delivery for the account of the person exercising the option of the accumulated cash balance in the writer’s futures margin account which represents the amount by which the market price of the stock index futures contract, at exercise, exceeds (in the case of a call) or is less than (in the case of a put) the strike price of the stock index futures option. If the stock index futures option is exercised on the last trading day for such option, the writer delivers to the holder cash in an amount equal to the difference between the option strike price and the closing level of the relevant stock index on the date the option expires.

The Fund may purchase and sell stock index futures contracts and options on such contracts as a hedge against market fluctuations in its portfolio of equity investments or as a means of quickly and efficiently converting the Fund’s cash into an equity position. For example, the Fund might use stock index futures contracts to hedge against fluctuations in the general level of stock prices which might adversely affect either the value of the Fund’s portfolio securities or the price of securities which the Fund intends to purchase. The Fund’s hedging may include sales of stock index futures contracts as an offset against the effect of expected declines in stock prices and purchases of stock index futures contracts as an offset against the effect of expected increases in stock prices.

In its purchase of stock index futures contracts or options on such contracts, the Fund may not necessarily have the contemporaneous intention of converting such positions into specific equity securities by means of the purchase of such securities for the Fund’s portfolio, and in its sale of stock index futures contracts or options on such contracts, the Fund may not necessarily have the contemporaneous intention of converting such positions into non-equity holdings by means of the sale of equity securities then held in the Fund’s portfolio.

Several risk factors are associated with trading stock index futures contracts and options on such contracts. These risks include: (i) an imperfect correlation, limiting the effectiveness of any hedge the Fund may attempt in the futures markets, between the change in market value of the stocks in the Fund’s portfolio and the prices of stock index futures contracts and options on such contracts in the Fund’s portfolio due to the stocks held by the Fund not fully replicating the stocks underlying the relevant stock index; (ii) possible illiquidity in the markets for stock index futures contracts and options on such contracts which could result in the Fund’s inability to close out an existing position resulting in a continuing exposure to adverse price movements; (iii) the highly leveraged nature of stock

index futures contracts and options on such contracts, resulting in extreme volatility in the value of such contracts as a percentage of the Fund's assets committed to such positions in the form of futures margins or option premiums; (iv) the fact that the decision of whether, when, and how to hedge involves the exercise of skill and judgment, and unless the Fund's portfolio manager correctly predicts market movements it is possible that as to a particular hedge the Fund would have been better off had a decision to hedge not been made; and (v) the possibility that a stock index futures option purchased by the Fund may expire worthless, in which case the Fund would lose the premium paid for it as well as related transaction costs. In addition, certain contract markets have adopted rules requiring the cessation of trading for specified periods in the event of substantial intra-day price changes and overall daily price fluctuation limits (the maximum amount that the price of a stock index futures contract may vary up or down from the previous day's settlement price). The Federal Reserve Board has the authority to oversee the levels of required margin on stock index futures contracts and options on such contracts. The Federal Reserve Board or the CFTC, acting pursuant to delegated authority, could require that minimum margin levels be set at levels which exceed those historically applied by the contract markets.

The price level of a stock index futures contract should correlate with the current level of the related stock index, after adjustment to reflect that a person with a long open futures position will receive interest on the funds such person otherwise would have had to use to acquire the stocks which comprise such index but, at the same time, will receive no dividends on the futures position as would have been the case if such person had actually acquired such stocks. In turbulent market conditions, however, the price level of stock index futures contracts can become disassociated from the level of the related stock index, materially impairing the usefulness of the stock index futures markets for hedging stock positions.

Limitations on the Purchase and Sale of Futures Contracts and Certain Options

Subject to the guidelines of the Board, the Fund may engage in "commodity interest" transactions (generally, transactions in futures, certain options and certain currency transactions) only for bona fide hedging or other permissible transactions in accordance with the rules and regulations of the CFTC. Pursuant to Rule 4.5 under the Commodity Exchange Act ("CEA"), the Adviser has filed a notice of exemption from registration as a "commodity pool operator" with respect to the Fund. The Fund and the Adviser are therefore not subject to registration or regulation as a commodity pool operator under the CEA, and pursuant to Rule 4.5 under the CEA, certain trading restrictions are applicable to the Fund. These trading restrictions permit each Fund to engage in commodity interest transactions that include (i) "bona fide hedging" transactions, as that term is defined and interpreted by the CFTC and its staff, without regard to the percentage of the Fund's assets committed to margin and options premiums and (ii) non-bona fide hedging transactions, provided that the Fund does not enter into such non-bona fide hedging transactions if, immediately thereafter, either (a) the sum of the amount of initial margin deposits on the Fund's existing futures positions and option premiums would exceed 5% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions, or (b) the aggregate net notional value of the Fund's commodity interest transactions would exceed 100% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions. Therefore, in order to claim the Rule 4.5 exemption, the Fund is limited in its ability to invest in commodity futures and options (including securities futures, broad based stock index futures and financial futures contracts). As a result, in the future, the Fund will be more limited in its ability to use these instruments than in the past and these limitations may have a negative impact on the ability of the Adviser to manage the Fund, and on the Fund's performance.

Portfolio Turnover

For the fiscal years ended December 31, 2016 and 2017, the portfolio turnover rates for the Fund were 0% and 0% respectively.

Because the Securities and Exchange Commission's ("SEC") portfolio turnover formula excludes fixed income securities with maturities of less than one year and short sale activity from its denominator, the Fund's turnover rate may appear very high or very low, which can be misleading. This was the case in 2015 and 2016, when the Fund's U.S. Treasury bill position represented a very high proportion of the Fund's assets and such assets had maturities of less than one year while the average month end dollar value of long stock positions (the denominator) held in the Fund at month end was zero and zero, respectively. In 2015 and 2016, long positions were not held at any month end. Short positions are excluded from the calculation. This may occur again in the future as high cash positions are used by the Fund to control risk.

Portfolio turnover generally involves some expense to the Fund, including brokerage commissions or dealer mark-ups and other transaction costs on the sale of securities and reinvestment in other securities. The portfolio turnover rate is computed by dividing the lesser of the amount of the securities purchased or securities sold by the average monthly value of securities owned during the year (excluding securities whose maturities at acquisition were one year or less and excluding any short sale activity).

Government Intervention in Financial Markets

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region may adversely affect companies in a different country or region. In the past, instability in the financial markets has led governments and regulators around the world to take a number of unprecedented actions designed to support certain financial institutions and segments of the financial markets that have experienced extreme volatility, and in some cases a lack of liquidity. Governments, their regulatory agencies, or self regulatory organizations may take actions that affect the regulation of the instruments in which the Fund invests, or the issuers of such instruments, in ways that are unforeseeable. Legislation or regulation may also change the way in which the Fund itself is regulated. Such legislation or regulation could limit or preclude the Fund's ability to achieve its investment objective.

Governments or their agencies may also acquire distressed assets from financial institutions and acquire ownership interests in those institutions. The implications of government ownership and disposition of these assets are unclear, and such a program may have positive or negative effects on the liquidity, valuation and performance of the Fund's portfolio holdings. Furthermore, volatile financial markets can expose the Fund to greater market and liquidity risk and potential difficulty in valuing portfolio instruments held by the Fund.

Voters in the United Kingdom voted to leave the European Union ("Brexit"). As a result of this decision, the financial markets experienced high levels of volatility and it is likely that, in the near term, Brexit will continue to bring about higher levels of uncertainty and volatility. It is possible, that certain economic activity will be curtailed until some signs of clarity begin to emerge, including negotiations around the terms for United Kingdom's exit out of the European Union.

Change in Presidential Administration. In addition to the risks discussed above, the change in presidential administration could significantly impact the regulation of U.S. financial markets. Areas subject to potential change, amendment or repeal include the Dodd-Frank Act, including the Volcker Rule and various swaps and derivatives regulations, the authority of the Federal Reserve and Financial Stability Oversight Council, and renewed proposals to separate banks' commercial and investment banking activities. Other potential changes that could be pursued by the new presidential administration could include the United States' withdrawal from, or attempt to renegotiate, various trade agreements or the taking of other actions that would change current trade policies of the United States. It is not possible to predict which, if any, of these actions will be taken or, if taken, their effect on the economy, securities markets or the financial stability of the United States. A Fund may be affected by governmental action in ways that are not foreseeable, and there is a possibility that such actions could have a significant adverse effect on a Fund and its ability to achieve its investment objective.

Special Risks Related to Cyber Security

The Fund and its service providers are susceptible to cyber security risks that include, among other things, theft, unauthorized monitoring, release, misuse, loss, destruction or corruption of confidential and highly restricted data; denial of service attacks; unauthorized access to relevant systems, compromises to networks or devices that the Fund and its service providers use to service the Fund's operations; or operational disruption or failures in the physical infrastructure or operating systems that support the Fund and its service providers. Cyber attacks against or security breakdowns of the Fund or its service providers may adversely impact the Fund and its shareholders, potentially resulting in, among other things, financial losses; the inability of Fund shareholders to transact business and the Fund to process transactions; inability to calculate the Fund's net asset value per share ("NAV"); violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs; and/or additional compliance costs. The Fund may incur additional costs for cyber security risk management and remediation purposes. In addition, cyber security risks may also impact issuers of securities in which the Fund invests, which may cause the Fund's investment in such issuers to lose value. There can be no assurance that the Fund or its service providers will not suffer losses relating to cyber attacks or other information security breaches in the future.

INVESTMENT RESTRICTIONS

Fundamental Policies

The Fund has adopted certain fundamental investment restrictions which may not be changed without approval of a majority of the Fund's shareholders, defined as the lesser of: (i) 67% of the Fund's shares present or represented at a shareholders meeting at which the holders of more than 50% of such shares are present or represented, or (ii) more than 50% of the outstanding shares of the Fund. Under its fundamental investment restrictions, the Fund may not:

1. Purchase securities on margin (except that the Fund may make margin payments in connection with transactions in stock index futures contracts and options on such contracts and in connection with short sales of securities), participate in a joint-trading account (the bunching of securities transaction orders with orders of other accounts managed by the Adviser not being considered participation in a joint trading account for this purpose), act as an underwriter or distributor of securities other than shares of the Fund, lend money (except by purchasing publicly distributed debt securities or entering into repurchase agreements) or purchase or sell commodities or commodity futures (except that the Fund may purchase or sell stock index futures contracts and options on such contracts) or real estate (marketable securities of companies whose business involves the purchase or sale of real estate, including real estate investment trusts, not being considered real estate for this purpose);
2. Borrow money or issue senior securities, except for temporary bank borrowings (not in excess of 5% of the value of its assets) for emergency or extraordinary purposes, or pledge any of its assets (collateral arrangements with respect to margin for stock index futures contracts and options on such contracts and with respect to short sales of securities not being considered a pledge of assets for this purpose), except to secure such borrowings and only to an extent not greater than 10% of the value of the Fund's net assets. The Fund has not, however, employed the practices of borrowing money, issuing senior securities or pledging any of its assets nor does it intend to employ such practices in the absence of unforeseen circumstances;
3. Purchase debt securities other than those which are publicly held (repurchase agreements not being considered debt securities for this purpose);
4. Purchase securities of other investment companies, except on the open market where no profit or commission results other than the broker's commission, or as part of a plan of merger, consolidation, or reorganization approved by the shareholders of the Fund;
5. Make investments for the purpose of exercising control or management of any company;
6. Purchase securities of any issuer (other than the United States or an instrumentality of the United States) if, as a result of such purchase, the Fund would hold more than 10% of the voting securities of any class of such issuer or more than 5% of the Fund's assets would be invested in securities of such issuer;
7. Concentrate more than 25% of the value of its assets, exclusive of government securities, in securities issued by companies primarily engaged in the same industry; or
8. Acquire or retain any security issued by a company, an officer or director of which is an officer or trustee of the Fund or an officer, director, or other affiliated person of its investment adviser.

Non-Fundamental Policies

The Fund has adopted the following non-fundamental policies which may be changed by the Fund's Board of Trustees (the "Board") without shareholder approval. The Fund will not:

1. Purchase any securities which are restricted from sale to the public without registration under the Securities Act of 1933, as amended;
2. Purchase any interest in any oil, gas, or any other mineral exploration or development program or, except for options on stock indices as set forth in paragraph seven below, invest in put and call options;
3. Purchase any security if, as a result of such purchase, the Fund would hold more than 10% of any class of the securities of an issuer;
4. Enter into repurchase agreements, except with authorized banks or dealers meeting criteria established by the Adviser, or invest over 10% of its assets in repurchase agreements with maturities of more than seven days;
5. Invest over 10% of its net assets in securities of foreign issuers which are not publicly traded in the United States;
6. Purchase put and call options on stock indices if the total cost (determined as of the time of purchase) of all such options held by the Fund would exceed 5% of the value of the Fund's net assets considered each time such an option is acquired;

7. Enter into stock index futures contracts or options on such contracts if immediately thereafter the aggregate initial margin and premiums (less the amount by which any such options are “in-the-money” at the time of purchase) would exceed 5% of the value of the Fund’s total assets after taking into account any unrealized profits and losses on such instruments; or
8. (i) Sell any securities short if immediately thereafter the market value of all securities sold short by the Fund would exceed 90% of the value of the Fund’s net assets, or (ii) sell securities of any single issuer short if immediately thereafter the market value of the securities of that issuer that have been sold short by the Fund would exceed 5% of the Fund’s net assets or if the securities sold short would constitute more than 3% of a class of the issuer’s outstanding securities.

General

Any percentage limitations referred to in the above investment restrictions are determined at the time a purchase, initial investment, or short sale is made and any subsequent change in any applicable percentage resulting from market fluctuations does not require elimination of any security from or short position in the Fund’s portfolio.

The Fund’s fundamental investment restriction as to concentration, described in paragraph 7 under “Fundamental Policies” above, does not apply to investments in government securities, *e.g.*, U.S. Treasury securities since their issuers are not members of any industry. The Fund includes government securities in determining the value of all of its assets for purposes of calculating the percentage of the value of its assets invested in issuers primarily engaged in an industry.

The Fund may invest, without limitation under the non-fundamental policy described in paragraph 5 under “Non-Fundamental Policies” above, in foreign securities that are U.S. dollar denominated and are publicly traded in the United States and in U.S. dollar denominated American Depositary Receipts (receipts issued by an American bank or trust company evidencing ownership of underlying securities issued by a foreign issuer).

The Fund may purchase securities in underwritten prospectus offerings, including so-called “hot” initial public offerings, but will generally do so on the basis of fundamental valuation and/or special situation investment considerations, and not, typically, solely on the basis of supply and demand considerations. Generally, the Fund will seek to participate only when the portfolio manager believes the securities offered are consistent with the Fund’s non-prospectus offering security selections and investment risk profile.

PORTFOLIO HOLDINGS INFORMATION

Employees of the Adviser and its affiliates will often have access to information concerning the portfolio holdings of the Fund. The Fund and the Adviser have adopted policies and procedures that require all employees to safeguard proprietary information of the Fund, which includes information relating to the Fund’s portfolio holdings as well as portfolio trading activity of the Adviser with respect to the Fund (collectively, “Portfolio Holdings Information”). In addition, the Fund and the Adviser have adopted policies and procedures providing that Portfolio Holdings Information may not be disclosed except to the extent that it is (a) made available to the general public by posting on the Fund’s website or filed as part of a required filing on Form N-Q or N-CSR, or (b) provided to a third party for legitimate business purposes or regulatory purposes, that has agreed to keep such information confidential under terms approved by the Adviser’s legal department or outside counsel, as described below. The Adviser will examine each situation under (b) with a view to determine that release of the information is in the best interest of the Fund and its shareholders and, if a potential conflict between the Adviser’s interests and the Fund’s interests arises, to have such conflict resolved by the Chief Compliance Officer of the Fund or those Trustees who are not considered to be “interested persons” of the Fund, as defined in the 1940 Act (the “Independent Trustees”). These policies further provide that no officer of the Fund or employee of the Adviser shall communicate with the media about the Fund without obtaining the advance consent of the Chief Executive Officer, Chief Operating Officer, or General Counsel of the Adviser.

Under the foregoing policies, the Fund may disclose Portfolio Holdings Information in the circumstances outlined below. Disclosure generally may be either on a monthly or quarterly basis with no time lag in some cases and with a time lag of up to sixty days in other cases (with the exception of proxy voting services which require a regular download of data):

1. To regulatory authorities in response to requests for such information and with the approval of the Chief Compliance Officer of the Fund;
2. To mutual fund rating and statistical agencies and to persons performing similar functions where there is a legitimate business purpose for such disclosure and such entity has agreed to keep such data confidential at least until it has been made public by the Adviser;

3. To service providers of the Fund, as necessary for the performance of their services to the Fund and to the Board where such entity has agreed to keep such data confidential at least until it has been made public by the Adviser. The Fund's current service providers that may receive such information are its administrator, sub-administrator, custodian, independent registered public accounting firm, legal counsel, and financial printers;
4. To firms providing proxy voting or other proxy services provided such entity has agreed to keep such data confidential at least until it has been made public by the Adviser;
5. To certain broker-dealers, investment advisers, and other financial intermediaries for purposes of their performing due diligence on the Fund and not for dissemination of this information to their clients or use of this information to conduct trading for their clients. Disclosure of Portfolio Holdings Information in these circumstances requires the broker-dealer, investment adviser, or financial intermediary to agree to keep such information confidential at least until it has been made public by the Adviser and is further subject to prior approval of the Chief Compliance Officer of the Fund and shall be reported to the Board at the next quarterly meeting; and
6. To consultants for purposes of performing analysis of the Fund, which analysis may be used by the consultant with its clients or disseminated to the public, provided that such entity shall have agreed to keep such information confidential at least until it has been made public by the Adviser.

As of the date of this SAI, the Fund makes information about its portfolio securities available to its administrator, sub-administrator, custodian, and proxy voting services on a daily basis, with no time lag, to its typesetter on a quarterly basis with a ten day time lag, to its financial printers on a quarterly basis with a forty-five day time lag, and to its independent registered public accounting firm and legal counsel on an as needed basis with no time lag. The names of the Fund's administrator, custodian, independent registered public accounting firm and legal counsel are set forth in this SAI. The Fund's proxy voting service is Broadridge Financial Solutions, Inc., Donnelley Financial Solutions, and Appatura provide typesetting services for the Fund, and the Fund selects from a number of financial printers who have agreed to keep such information confidential at least until it has been made public by the Adviser.

Other than these arrangements with the Fund's service providers and proxy voting service, the Fund has no ongoing arrangements to make available information about the Fund's portfolio securities prior to such information being disclosed in a publicly available filing with the SEC that is required to include the information.

Disclosures made pursuant to a confidentiality agreement are subject to periodic confirmation by the Chief Compliance Officer of the Fund that the recipient has utilized such information solely in accordance with the terms of the agreement. Neither the Fund, nor the Adviser, nor any of the Adviser's affiliates will accept on behalf of itself, its affiliates, or the Fund any compensation or other consideration in connection with the disclosure of portfolio holdings of the Fund. The Board will review such arrangements annually with the Fund's Chief Compliance Officer.

TRUSTEES AND OFFICERS

Under Delaware law, the Fund's Board is responsible for establishing the Fund's policies and for overseeing the management of the Fund. The Board also elects the Fund's officers who conduct the daily business of the Fund. Information pertaining to the Trustees and Officers of the Fund is as follows:

<u>Name, Position(s), Address⁽¹⁾ and Age</u>	<u>Term of Office and Length of Time Served⁽²⁾</u>	<u>Number of Funds in Fund Complex⁽³⁾ Overseen by Trustee</u>	<u>Principal Occupation(s) During Past Five Years</u>	<u>Other Directorships During Past Five Years</u>
<u>INTERESTED TRUSTEES⁽⁴⁾:</u>				
Mario J. Gabelli Chairman Age: 75	Since 1999	32	Chairman, Chief Executive Officer, and Chief Investment Officer – Value Portfolios of GAMCO Investors, Inc. and Chief Investment Officer – Value Portfolios of Gabelli Funds, LLC and GAMCO Asset Management Inc.; Director/Trustee or Chief Investment Officer of other registered investment companies within the Gabelli/GAMCO Fund Complex; Chief Executive Officer of GGCP, Inc.; Executive Chairman of Associated Capital Group, Inc. (1) Address: One Corporate Center, Rye, NY 10580-1422.

(2) Each Trustee will hold office for an indefinite term until the earliest of (i) the next meeting of shareholders, if any, called for the purpose of considering the election or re-election of such Trustee and until the election and qualification of his or her successor,

if any, elected at such meeting, or (ii) the date a Trustee resigns or retires, or a Trustee is removed by the Board or shareholders, in accordance with the Fund's By-Laws and Agreement and Declaration of Trust. For officers, includes time served in prior officer positions with the Trust. Each Officer will hold office for an indefinite term until the date he or she resigns or retires or until his or her successor is elected and qualified.

- (3) The "Fund Complex" or the "Gabelli/GAMCO Fund Complex" includes all the U.S. registered investment companies that are considered part of the same fund complex as the Fund because they have common or affiliated investment advisers.
- (4) "Interested person" of the Fund as defined in the 1940 Act. Mario J. Gabelli and Henry G. Van der Eb are each considered to be an "interested person" of the Fund because of their affiliation with the Adviser, as officers or directors of Gabelli Funds, LLC or an affiliated company (and in the case of Mario J. Gabelli, as a controlling shareholder).
- (5) Address: 2801 Lakeside Drive, Suite 201, Bannockburn, IL 60015.
- (6) Trustees who are not considered to be "interested persons" of the Fund as defined in the 1940 Act are considered to be "Independent" Trustees.
- (7) Mr. Colavita's father, Anthony J. Colavita, serves as a director of other funds which are part of the Gabelli/GAMCO Fund Complex. Mr. van Ekris is an independent director of Gabelli International Ltd., Gabelli Fund LDC, GAMA Capital Opportunities Master Ltd., and GAMCO International SICAV, all of which may be deemed to be controlled by Mario J. Gabelli and/or affiliates and in that event would be deemed to be under common control with the Fund's Adviser.

The Board believes that each Trustee's experience, qualifications, attributes, and skills on an individual basis and in combination with those of other Trustees lead to the conclusion that each Trustee should serve in such capacity. Among the attributes or skills common to all Trustees are their ability to review critically and to evaluate, question, and discuss information provided to them, to interact effectively with the other Trustees, the Adviser, the sub-administrator, other service providers, counsel, and the Fund's independent registered public accounting firm, and to exercise effective and independent business judgment in the performance of their duties as Trustees. Each Trustee's ability to perform his duties effectively has been attained in large part through the Trustee's business, consulting, or public service positions, and through experience from service as a member of the Board and one or more of the other funds in the Gabelli/GAMCO Fund Complex, public companies, non-profit entities, or other organizations as set forth above and below. Each Trustee's ability to perform his duties effectively also has been enhanced by education, professional training, and other experience.

Interested Trustees

Mario J. Gabelli, CFA. Mr. Gabelli is Chairman of the Board of Trustees of the Fund. Mr. Gabelli is Chairman, Chief Executive Officer, and Chief Investment Officer — Value Portfolios of GAMCO Investors, Inc. ("GBL"), a New York Stock Exchange ("NYSE")-listed asset manager and financial services company. He is the Chief Investment Officer of Value Portfolios of Gabelli Funds, LLC and GAMCO Asset Management Inc., each of which are asset management subsidiaries of GBL. In addition, Mr. Gabelli is Chief Executive Officer, Chief Investment Officer, a director and the controlling shareholder of GGCP, Inc. ("GGCP"), a private company that holds a majority interest in GBL, and the Chairman of MJG Associates, Inc., which acts as an investment manager of various investment funds and other accounts. He is Executive Chairman of Associated Capital Group, Inc. ("Associated Capital"), a public company that provides alternative management and institutional research services, and is a majority-owned subsidiary of GGCP. Mr. Gabelli serves as Overseer of the Columbia University Graduate School of Business and as a trustee of Boston College and Roger Williams University. He serves as a director of the Winston Churchill Foundation, The E.L. Wiegand Foundation, The American-Italian Cancer Foundation, and The Foundation for Italian Art and Culture. He is Chairman of the Gabelli Foundation, Inc., a Nevada private charitable trust. Mr. Gabelli serves as Co-President of Field Point Park Association, Inc. Mr. Gabelli received his Bachelor's degree from Fordham University, M.B.A. from Columbia Business School, and honorary Doctorates from Fordham University and Roger Williams University.

Henry G. Van der Eb, CFA. Mr. Van der Eb is Senior Vice President of the Adviser and GAMCO Investors, Inc. ("GBL") with a wide range of both investment and operating responsibilities across the firm, and serves as Senior Adviser to management in all aspects of the firm's business. He joined GBL in October 1999. Mr. Van der Eb is President, Chief Executive Officer, and Trustee of the Fund. Mr. Van der Eb is also Chairman and a member of the board of another fund in the Gabelli/GAMCO Fund Complex. Mr. Van der Eb is a member of the CFA Society of Chicago, where he served as President from 1979 through 1980 and a director from 1981 through 1983. He is also a member of the CFA Institute. Mr. Van der Eb received his Bachelor of Arts in Biology from Vanderbilt University and his M.B.A. with Honors from Northwestern University Graduate School of Management.

Independent Trustees

M. Bruce Adelberg. Mr. Adelberg is a Principal and has been a Consultant with MBA Research Group, a consulting company, since 1989. Mr. Adelberg serves on the board of another fund in the Gabelli/GAMCO Fund Complex. He has served as a NYSE Supervisory Analyst for over twenty years and has eighteen years total audit committee experience. Mr. Adelberg was appointed to the Panel of Arbitrators at the NYSE and NASD in 1991 and has served continuously through the merger of the two programs into FINRA Dispute Resolution. He was a member of the New York Society of Securities Analysts for ten years and was a member of the

Money Marketeers of New York University for eight years. Mr. Adelberg was a member of the Board of Directors of Carrolls Corporation for five years while it was a closely held corporation, serving on the Audit Committee. Mr. Adelberg received his Bachelor's degree from New York University School of Business and Master of Science from Columbia University School of Business.

E. Val Cerutti. Mr. Cerutti is Chief Executive Officer of Cerutti Consultants, Inc. He serves on the board of another fund in the Fund Complex. He formerly served as a director of The LGL Group, Inc., a diversified manufacturing company. Mr. Cerutti was President and Chief Operating Officer of Stella D'oro Biscuit Co., and served on the Board of Advisers of the Hagan School of Business of Iona College. He has served as a consultant to several venture capital groups. Mr. Cerutti has a Bachelor's degree from Fordham University and M.B.A. from Iona College.

Anthony S. Colavita, Esq. Mr. Colavita has been a practicing attorney with Anthony S. Colavita, P.C. since February 1988. Mr. Colavita serves on the boards of other funds in the Gabelli/GAMCO Fund Complex. Mr. Colavita has been Town Supervisor of the Town of Eastchester, New York since January 2004, with responsibilities for the review, adoption, and administration of a \$30 million budget. He has also served as a board member for multiple not-for-profit corporations and was previously counsel to the New York State Senate. Additionally, Mr. Colavita was an Eastchester Town Councilman from 1998 to 2003. He has been active on the boards of several community based programs. Mr. Colavita received his Bachelor of Arts from Colgate University and Juris Doctor from Pace University School of Law.

Vincent D. Enright. Mr. Enright is Lead Independent Trustee of the Fund, Chairman of the Fund's Nominating Committee, a member of the Fund's Audit Committee, and a member of both multi-fund *ad hoc* Compensation Committees. He serves on comparable or other board committees with respect to other funds in the Fund Complex on whose boards he sits. Mr. Enright was a senior executive and Chief Financial Officer of KeySpan Corp., an energy public utility, for four years. Mr. Enright is a former director of a therapeutic and diagnostic company and served as Chairman of its Compensation Committee and as a member of its Audit Committee. He is a former director of a pharmaceutical company and a diversified manufacturing company. Mr. Enright received his Bachelor's degree from Fordham University and completed the Advanced Management Program at Harvard University.

Anthony R. Pustorino, CPA. Mr. Pustorino is a Professor Emeritus of Pace University with over fifty years of experience in public accounting. Mr. Pustorino is Chairman of the Fund's Audit Committee and has been designated the Fund's Audit Committee Financial Expert. He is also a member of both multi-fund *ad hoc* Compensation Committees. He serves on comparable or other board committees with respect to other funds in the Fund Complex on whose boards he sits. Mr. Pustorino was a director of The LGL Group, Inc., a diversified manufacturing company, and Chairman of its Audit Committee. He was previously the President and shareholder of a CPA firm, and a professor of accounting at both Fordham University and Pace University. Mr. Pustorino served as Chairman of the Board of Directors of the New York State Board for Public Accountancy and of the CPA Examination Review Board of the National Association of the State Boards of Accountancy. He was Vice President and a member of the Executive Committee of the New York State Society of CPAs, and the Chair or member of many of its technical committees. He was a member of the Council of the American Institute of CPAs. Mr. Pustorino is the recipient of numerous professional and teaching awards. He received his Bachelor's degree in Business from Fordham University and M.B.A. from New York University.

Werner J. Roeder, M.D. Dr. Roeder is a retired private physician with over forty-five years of experience and former Vice President of Medical Affairs (Medical Director) at New York Presbyterian/Lawrence Hospital in Bronxville, New York. As Vice President of Medical Affairs at New York Presbyterian/Lawrence Hospital, he was actively involved in personnel and financial matters concerning the hospital's \$140 million budget. He is a member of the Fund's Nominating Committee and both multi-fund *ad hoc* Compensation Committees. Dr. Roeder serves on comparable or other board committees with respect to other funds in the Fund Complex on whose boards he sits. Dr. Roeder is board certified as a surgeon by The American Board of Surgery and previously served in a consulting capacity to Empire Blue Cross/Blue Shield. He obtained his Doctorate in Medicine from New York Medical College.

Anthonie C. van Ekris. Mr. van Ekris has been the Chairman and Chief Executive Officer of BALMAC International, Inc., a global import/export company, for over twenty years. Mr. van Ekris serves on the boards of other funds in the Gabelli/GAMCO Fund Complex and as Chairman of the GAMCO International SICAV. Mr. van Ekris has over fifty-five years of experience as Chairman and/or Chief Executive Officer of public and private companies involved in international trading or commodity trading, and served in both of these capacities for nearly twenty years for a large public jewelry chain. Mr. van Ekris is a former director of an oil and gas operations company. He served on the boards of a number of public companies and for more than ten years on the Advisory board of the Salvation Army of Greater New York.

Trustees — Leadership Structure and Oversight Responsibilities

Overall responsibility for general oversight of the Fund rests with the Board. The Chairman of the Board is an Interested Trustee. The Board has appointed Mr. Enright as the Lead Independent Trustee. The Lead Independent Trustee presides over executive sessions of

the Trustees and also serves between meetings of the Board as a liaison with service providers, officers, counsel, and other Trustees on a wide variety of matters including scheduling agenda items for Board meetings. Designation as such does not impose on the Lead independent Trustee any obligations or standards greater than or different from other Trustees. More than 75% of the members of the Board are independent Trustees and each of the Audit and Nominating Committees is comprised entirely of independent Trustees. The Board has established a Nominating Committee and an Audit Committee to assist the Board in the oversight of the management and affairs of the Fund. From time to time the Board establishes additional committees or informal working groups to deal with specific matters or assigns one of its members to participate with trustees or directors of other funds in the Fund Complex on special committees or working groups that deal with complex-wide matters, such as the multi-fund *ad hoc* Compensation Committee relating to compensation of the Chief Compliance Officer for all the funds in the Fund Complex and a separate multi-fund *ad hoc* Compensation Committee relating to certain officers of the closed-end funds in the Fund Complex.

All of the Fund's Trustees, other than Messrs. Gabelli, and Van der Eb, are Independent Trustees, and the Board believes they are able to provide effective oversight of the Fund's service providers. In addition to providing feedback and direction during Board meetings, the Trustees meet regularly in executive session and chair all committees of the Board.

The Fund's operations entail a variety of risks including investment, administration, valuation, and a range of compliance matters. Although the Adviser, the sub-administrator, and the officers of the Fund are responsible for managing these risks on a day to day basis within the framework of their established risk management functions, the Board also addresses risk management of the Fund through its meetings and those of the committees and working groups. In particular, as part of its general oversight, the Board reviews with the Adviser at Board meetings the levels and types of option risks being undertaken by the Fund, and the Audit Committee discusses the Fund's risk management and controls with the independent registered public accounting firm engaged by the Fund. The Board reviews valuation policies and procedures and the valuations of specific illiquid securities. The Board also receives periodic reports from the Fund's Chief Compliance Officer regarding compliance matters relating to the Fund and its major service providers, including results of the implementation and testing of the Fund's and such providers' compliance programs. The Board's oversight function is facilitated by management reporting processes that are designed to provide information to the Board about the identification, assessment, and management of critical risks and the controls and policies and procedures used to mitigate those risks. The Board reviews its role in supervising the Fund's risk management from time to time and may make changes in its discretion at any time.

The Board has determined that its leadership structure is appropriate for the Fund because it enables the Board to exercise informed and independent judgment over matters under its purview, allocates responsibility among committees in a manner that fosters effective oversight, and allows the Board to devote appropriate resources to specific issues in a flexible manner as they arise. The Board periodically reviews its leadership structure as well as its overall structure, composition, and functioning and may make changes in its discretion at any time.

Board Committees

The Board has established two standing committees in connection with its governance of the Fund: the Audit and Nominating Committees. The Fund does not have a standing Compensation Committee (although some of the individuals who are Trustees of the Fund participate in the multi-fund *ad hoc* Compensation Committees described above).

The Fund's Audit Committee consists of two members: Messrs. Pustorino (Chairman) and Enright, who are Independent Trustees of the Fund. The Audit Committee operates pursuant to a Charter that was most recently reviewed and approved by the Board of the Fund on February 20, 2018. As set forth in the Charter, the function of the Audit Committee is oversight; it is management's responsibility to maintain appropriate systems for accounting and internal control and it is the independent registered public accounting firm's responsibility to plan and carry out a proper audit. The Audit Committee is generally responsible for reviewing and evaluating issues related to the accounting and financial reporting policies and practices of the Fund, its internal controls, and, as appropriate, the internal controls of certain service providers, overseeing the quality and objectivity of the Fund's financial statements and the audit thereof and to act as a liaison between the Board and the Fund's independent registered public accounting firm. During the fiscal year ended December 31, 2017, the Audit Committee met twice.

The Fund's Nominating Committee consists of two members: Mr. Enright (Chairman) and Dr. Roeder, who are Independent Trustees of the Fund. The Nominating Committee is responsible for selecting and recommending qualified candidates to the full Board in the event that a position is vacated or created. The Nominating Committee would consider recommendations by shareholders if a vacancy were to exist. Such recommendations should be forwarded to the Secretary of the Fund. The Nominating Committee did not meet during the year ended December 31, 2017.

Trustee Ownership of Fund Shares

Set forth in the table below is the dollar range of equity securities in the Fund beneficially owned by each Trustee and the aggregate dollar range of equity securities in the Fund Complex beneficially owned by each Trustee as of December 31, 2017.

<u>Name of Trustee</u>	<u>Dollar Range of Equity Securities Held in the Fund*</u>	<u>Aggregate Dollar Range of Equity Securities Held in Fund Complex*</u>
<u>INTERESTED TRUSTEES:</u>		
Mario J. Gabelli	B	E
Henry G. Van der Eb	C	E

Anthonie C. van Ekris	Same	Morgan Group Holdings, Inc.	Common Stock	\$ 240	*

* An asterisk indicates that the ownership amount constitutes less than 1% of the total interests outstanding.

Trustee and Officer Compensation

The Fund pays each Trustee who is not a director, officer, or employee of the Adviser, or any of its affiliates an annual retainer of \$3,000 plus \$1,000 for each Board meeting attended and reimburses these Trustees for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$500 per meeting attended and the Chairman of the Audit Committee and the Lead Independent Trustee each receives an annual fee of \$1,000. A Trustee may receive a single meeting fee, allocated among the participating funds in the Fund Complex, for participation in certain meetings held on behalf of multiple funds. Trustees who are directors or employees of the Adviser, or an affiliated company receive no compensation or expense reimbursement from the Fund.

The following table sets forth certain information regarding the compensation of the Fund's Trustees. No Officer or person affiliated with the Fund received compensation in excess of \$60,000 from the Fund for the fiscal year ended December 31, 2017.

Compensation Table

<u>Name of Person and Position</u>	<u>Aggregate Compensation from the Fund*</u>	<u>Total Compensation from the Fund and Fund Complex**</u>
Mario J. Gabelli Trustee	\$ 0	\$ 0(0)

<u>Name of Person and Position</u>	<u>Aggregate Compensation from the Fund*</u>	<u>Total Compensation from the Fund and Fund Complex**</u>
M. Bruce Adelberg Trustee	\$ 7,000	\$ 14,500(2)

Anthonie C. van Ekris Trustee	\$ 7,000	\$ 220,000(22)
Henry G. Van der Eb Trustee	\$ 0	\$ 0 (0)

* Represents the total compensation paid to such persons for the fiscal year ended December 31, 2017.

** Represents the total compensation paid to such persons for the fiscal year 2017, by investment companies (including the Fund) or portfolios that are considered part of the same “Fund Complex” as the Fund because they have common or affiliated investment advisers. The parenthetical number represents the number of such investment companies and portfolios.

Code of Ethics

The Fund, its Adviser, and G.distributors have adopted a code of ethics (the “Code of Ethics”) under Rule 17j-1 of the 1940 Act. The Code of Ethics permits personnel, subject to the Code of Ethics and its restrictive provisions, to invest in securities, including securities that may be purchased or held by the Fund.

Proxy Voting Policies

The Fund has delegated the voting of portfolio securities to the Adviser in its capacity as the Fund’s investment adviser. The Adviser has adopted proxy voting policies and procedures (the “Proxy Voting Policy”) for the voting of proxies on behalf of client accounts for which the Adviser has voting discretion, including the Fund. Under the Proxy Voting Policy, portfolio securities held by the Fund are to be voted in the best interests of the Fund.

Normally, the Adviser exercises proxy voting discretion on particular types of proposals in accordance with guidelines (the “Proxy Voting Guidelines”) set forth in the Proxy Voting Policy. The Proxy Voting Guidelines address, for example, proposals to elect the Board, to classify the Board, to select the independent registered public accounting firm, to issue blank check preferred stock, to use confidential ballots, to eliminate cumulative voting, to require shareholder ratification of poison pills, to support fair price provisions, to require a supermajority shareholder vote for charter or bylaw amendments, to provide for director and officer indemnification and liability protection, to increase the number of authorized shares of common stock, to allow greenmail, to limit shareholders’ rights to call special meetings, to consider the non-financial effects of a merger, to limit shareholders’ right to act by written consent, to approve executive and director compensation plans (including golden parachutes), to limit executive and director pay, to approve stock option plans, to opt in or out of state takeover statutes and to approve mergers, acquisitions, corporate restructuring, spin-offs, buyouts, asset sales, or liquidations.

A Proxy Voting Committee comprised of senior representatives of the Adviser and its affiliated investment advisers has the responsibility for the content, interpretation, and application of the Proxy Voting Guidelines. In general, the Director of Proxy Voting Services, using the Proxy Voting Guidelines, recommendations of Institutional Shareholder Services, Inc. (“ISS”), Glass Lewis & Co. (“Glass Lewis”), other third party services, and the analysts of G.research, LLC (“G.research”) will determine how to vote on each issue. For non-controversial matters, the Director of Proxy Voting Services may vote the proxy if the vote is (1) consistent with the recommendations of the issuer’s board of directors and not contrary to the Proxy Voting Guidelines; (2) consistent with the recommendations of the issuer’s board of directors and is a non-controversial issue not covered by the Proxy Voting Guidelines; or (3) contrary to the recommendations of the issuer’s board of directors but is consistent with the Proxy Voting Guidelines. In those instances, the Director of Proxy Voting Services or the Chairman of the Committee may sign and date the proxy statement indicating how each issue will be voted.

All matters identified by the Chairman of the Proxy Voting Committee, the Director of Proxy Voting Services, or the Adviser's General Counsel as controversial, taking into account the recommendations of ISS, Glass Lewis, or other third party services and the analysts of G.research, will be presented to the Proxy Voting Committee. If the Chairman of the Proxy Voting Committee, the Director of Proxy Voting Services, or the Adviser's General Counsel has identified the matter as one that (1) is controversial; (2) would benefit from deliberation by the Proxy Voting Committee; or (3) may give rise to a conflict of interest between the Adviser and its clients, the Chairman of the Committee will initially determine what vote to recommend that the Adviser should cast and the matter will go before the Proxy Voting Committee.

For matters submitted to the Proxy Voting Committee, each member of the Proxy Voting Committee will receive, prior to the meeting, a copy of the proxy statement, any relevant third party research, a summary of any views provided by the portfolio manager, and any recommendations by G.research's analysts. The portfolio manager, any member of Senior Management, or G.research's analysts may be invited to present their viewpoints. If the Director of Proxy Voting Services or the Adviser's General Counsel believes that the matter before the Proxy Voting Committee is one with respect to which a conflict of interest may exist between the Adviser and its clients, legal counsel will provide an opinion to the Proxy Voting Committee concerning the conflict. If the matter is one in which the interests of the clients of the Adviser may diverge, General Counsel will so advise and the Proxy Voting Committee may make different recommendations as to different clients. For any matters where the recommendation may trigger appraisal rights, Counsel will provide an opinion concerning the likely risks and merits of such an appraisal action.

Each matter submitted to the Proxy Voting Committee will be determined by the vote of a majority of the members present at the meeting. Should the vote concerning one or more recommendations be tied in a vote of the Proxy Voting Committee, the Chairman of the Proxy Voting Committee will cast the deciding vote. The Proxy Voting Committee will notify the Proxy Department of its decisions and the proxies will be voted accordingly.

Where a proxy proposal raises a material conflict between the interests of the Fund shareholders on the one hand, and those of the Fund's Adviser and/or the principal underwriters on the other hand, the conflict will be brought to the *ad hoc* Proxy Voting Committee of the Fund to determine a resolution.

The Fund files Form N-PX with its complete proxy voting record for the twelve months ended June 30 no later than August 31 of each year. This filing for the Fund is available without charge, upon request, by calling toll-free (800) 422-3554 and on the SEC's website at www.sec.gov.

CONTROL PERSONS AND PRINCIPAL SHAREHOLDERS

As of March 31, 2018, the following persons were known to own of record or beneficially 5% or more of the outstanding voting securities of any class of the Fund:

<u>Name and Address</u>	<u>% of Class</u>	<u>Nature of Ownership</u>
John Succo POA Terri L. Succo TOD Trustee of The Terri Lee Succo Rev Trust Cincinnati, OH 45243-3124	41.77%	Record
Charles Schwab & Co. Inc Reinvestment Account Attn: Mutual Fund Dept San Francisco, CA 94105-1905	5.12%	Beneficial*

* Beneficial ownership is disclaimed

** Beneficial ownership of shares representing 25% or more of the outstanding shares of the Fund may be deemed to represent control, as that term is defined in the 1940 Act

As of March 31, 2018, as a group, the Trustees and Officers of the Fund beneficially owned 1.14% of the outstanding shares (aggregating all classes) of the Fund.

INVESTMENT ADVISORY AND OTHER SERVICES

The Investment Adviser

The Adviser, a New York corporation and registered investment adviser under the 1940 Act, serves as investment adviser to the Fund, as well as, individuals, pension trusts, profit sharing trusts, and endowments, and as sub-adviser to certain third party investment funds, which include registered investment companies, and had assets under management of approximately \$18.9 billion as of December 31, 2017. Mr. Mario J. Gabelli may be deemed a “controlling person” of the Adviser on the basis of his controlling interest in GBL, the parent company of the Adviser. The Adviser has several affiliates that provide investment advisory services: Gabelli Funds, a New York limited liability company and registered investment adviser under the 1940 Act, serves as an investment adviser to registered investment companies with combined aggregate net assets of approximately \$24.2 billion as of December 31, 2017. Teton Advisors, Inc., and its wholly owned investment adviser, Keeley Teton Advisors, LLC, with assets under management of approximately \$3.4 billion as of December 31, 2017, acts as investment adviser to The TETON Westwood Funds, the KEELEY Funds, and separately managed accounts; Gabelli & Company Investment Advisers, Inc. (formerly, Gabelli Securities, Inc.), a majority owned subsidiary of Associated Capital, acts as investment adviser for certain alternative investment products, consisting primarily of risk arbitrage and merchant banking limited partnerships and offshore companies, with assets under management of approximately \$1.5 billion as of December 31, 2017; and Gabelli Fixed Income, LLC, an indirect wholly owned subsidiary of GBL, acts as investment adviser for separate accounts having assets under management of approximately \$31 million as of December 31, 2017. Teton Advisors, Inc. was spun off by GBL in March 2009 and is an affiliate of GBL by virtue of Mr. Gabelli’s ownership of GGCP, the principal shareholder of Teton Advisors, Inc. as of December 31, 2017. Associated Capital was spun off from GBL on November 30, 2015, and is an affiliate of GBL by virtue of Mr. Gabelli’s ownership of GGCP, the principal shareholder of Associated Capital.

Affiliates of the Adviser may, in the ordinary course of their business, acquire for their own account or for the accounts of their advisory clients, significant (and possibly controlling) positions in the securities of companies that may also be suitable for investment by the Fund. The securities in which the Fund might invest may thereby be limited to some extent. For instance, many companies in the past several years have adopted so-called “poison pill” or other defensive measures designed to discourage or prevent the completion of non-negotiated offers for control of the company. Such defensive measures may have the effect of limiting the shares of the company which might otherwise be acquired by the Fund if the affiliates of the Adviser or their advisory accounts have or acquire a significant position in the same securities. However, the Adviser does not believe that the investment activities of its affiliates will have a material adverse effect upon the Fund in seeking to achieve its investment objectives. Securities purchased or sold pursuant to contemporaneous orders entered on behalf of the investment company accounts of the Adviser or the advisory accounts managed by its affiliates for their unaffiliated clients are allocated pursuant to principles believed to be fair and not disadvantageous to any such accounts. In addition, all such orders are accorded priority of execution over orders entered on behalf of accounts in which the Adviser or its affiliates have a substantial pecuniary interest. The Adviser may on occasion give advice or take action with respect to other clients that differs from the actions taken with respect to the Fund. The Fund may invest in the securities of companies which are investment management clients of the Adviser. In addition, portfolio companies or their officers or directors may be minority shareholders of the Adviser or its affiliates.

The Adviser currently serves as an investment adviser to the Fund pursuant to an investment advisory agreement (the “Contract”), which was most recently approved by the Trustees of the Fund on February 21, 2018. Pursuant to the Contract, the Adviser furnishes a continuous investment program for the Fund’s portfolio, makes the day to day investment decisions for the Fund, arranges the portfolio transactions of the Fund, and generally manages the Fund’s investments in accordance with the stated policies of the Fund, subject to the general supervision of the Board.

The Adviser bears all costs and expenses incurred in connection with its duties under the Contract, including the fees or salaries of Trustees or officers of the Fund who are affiliated persons of the Adviser. Subject to the foregoing, the Fund will be responsible for the payment of all of its other expenses, including (i) payment of the fees payable to the Adviser under the agreement; (ii) organizational expenses; (iii) brokerage fees and commissions; (iv) taxes; (v) interest charges on borrowings; (vi) the cost of liability insurance or fidelity bond coverage for the Fund’s officers and employees, and trustees’ and officers’ errors and omissions insurance coverage; (vii) legal, auditing, and accounting fees and expenses; (viii) charges of the Fund’s custodian, transfer agent, and dividend disbursing agent; (ix) the Fund’s pro rata portion of dues, fees, and charges of any trade association of which the Fund is a member; (x) the expenses of printing, preparing, and mailing proxies, stock certificates, and reports, including the Fund’s prospectus and Statement of Additional Information, and notices to shareholders; (xi) filing fees for the registration or qualification of the Fund and its shares under federal or state securities law; (xii) the fees and expenses involved in registering and maintaining registration of the Fund’s shares with the SEC; (xiii) the expense of holding shareholder meetings; (xiv) the compensation, including fees, of any of the Fund’s Trustees, officers, or employees who are not affiliated persons of the Adviser; (xv) all expenses of computing the Fund’s NAV, including any equipment or services obtained solely for the purpose of pricing shares or valuing the Fund’s investment portfolio; (xvi) expenses of personnel performing shareholder servicing functions and all other distribution expenses payable by the Fund; and (xvii) litigation and other extraordinary or non-recurring expenses and other expenses properly payable by the Fund.

The Contract provides that in the course of the Adviser’s execution of portfolio transactions for the Fund, the Adviser may, subject to conditions as may be specified by the Fund’s, (i) place orders for the purchase or sale of the Fund’s portfolio securities with the Adviser’s affiliate, G.research; and (ii) pay commissions to brokers other than its affiliate which are higher than might be charged by another qualified broker to obtain brokerage and/or research services considered by the Adviser to be useful or desirable in the performance of its duties hereunder and for the investment management of other advisory accounts over which it or its affiliates exercise investment discretion.

The cost of calculating the Fund’s NAV is an expense payable by the Fund pursuant to the Contract. To the extent that a portion of the sub-administration fee is used to pay for personnel and equipment related to calculating the NAV, the Fund will reimburse the Adviser for such expense, up to \$45,000. The Adviser will not seek reimbursement if assets are less than \$50 million. During the year ended December 31, 2017, the Fund did not reimburse the Adviser in connection with the cost of computing the Fund’s NAV.

The Contract provides that absent willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his or her position, the Adviser and its employees, officers, trustees, and controlling persons are not liable for any act or omission or for any loss sustained by the Fund. However, the agreement provides that the Fund is not waiving any rights that it may have which cannot be waived. The Contract also provides that the Fund will indemnify the Adviser and each of such persons against any liabilities and expenses incurred in the defense or disposition of any action or proceeding arising out of the Contract unless a court finds that the person seeking indemnification did not act in good faith in the reasonable belief that his or her action was in the best interest of the Fund (and, in a criminal case, that the person had no reasonable cause to believe that his or her action was unlawful). The agreement provides specific procedures and standards for making advance payments and permits the Board to disallow indemnification in certain situations.

By its terms, the Contract will remain in effect from year to year, provided each such annual continuance is specifically approved by the Fund’s Board or by a “majority” (as defined in the 1940 Act) vote of its shareholders and, in either case, by a majority vote of the Independent Trustees, cast in person at a meeting called specifically for the purpose of voting on the continuance of the Contract. The Contract is terminable without penalty by the Fund on sixty days written notice when authorized either by a majority vote of its outstanding voting shares or by a vote of a majority of its Board, or by the Adviser on sixty days written notice, and will automatically terminate in the event of its “assignment” as defined by the 1940 Act.

As compensation for its services and related expenses, the Adviser receives a fee computed daily and payable monthly in an amount equal on an annualized basis to 1.00% of the Fund’s daily average net assets.

Advisory Fees Paid to Adviser by the Fund
(Fiscal years ended December 31)

2017	\$ 97,730
2016	\$197,370
2015	\$146,612

In addition, the Adviser has also entered into an Administrative Services agreement with Gabelli Funds. Pursuant to the agreement, Gabelli Funds will provide mutual fund administrative services to the Fund. Gabelli Funds may delegate any or all of its responsibilities to one or more sub-administrators, subject to the approval of the Board of Trustees of the Fund. During the fiscal year ended December 31, 2017, the fee for administrative services amounted to \$19,546.

Portfolio Manager Information

Other Accounts Managed

The table below provides summary information regarding other accounts for which the portfolio manager was primarily responsible for the day to day management during the year ended December 31, 2017.

<u>Name of Portfolio Manager</u>	<u>Type of Accounts</u>	<u>Total Number of Accounts Managed</u>	<u>Total Assets</u>	<u>Number of Accounts where Advisory Fee is Based on Performance</u>	<u>Total Assets in Accounts where Advisory Fee is Based on Performance</u>
Henry Van der Eb*	Registered Investment Companies:	0	\$ 0	0	\$ 0
	Other Pooled Investment Vehicles:	0	\$ 0	0	\$ 0
	Other Accounts:	7	\$32.9 million	0	\$ 0

* The above chart represents the portion of assets for which the portfolio manager has primary responsibility in the accounts indicated. Certain assets included under “Other Accounts” may be invested in Registered Investment Companies or Other Pooled Investment Vehicles primarily managed by the portfolio manager and therefore may be duplicated.

Potential Conflicts of Interest

Actual or apparent conflicts of interest may arise when the portfolio manager also has day to day management responsibilities with respect to one or more other accounts. These potential conflicts include:

Allocation of Limited Time and Attention. Because the portfolio manager manages more than one account, he may not be able to formulate as complete a strategy or identify equally attractive investment opportunities for each of those accounts as if he were to devote substantially more attention to the management of only the Fund.

Allocation of Limited Investment Opportunities. If the portfolio manager identifies an investment opportunity that may be suitable for multiple accounts, the Fund may not be able to take full advantage of that opportunity because the opportunity may need to be allocated among these accounts or other accounts managed primarily by other portfolio managers of the Adviser and its affiliates.

Pursuit of Differing Strategies. At times, the portfolio manager may determine that an investment opportunity may be appropriate for only some of the accounts for which he exercises investment responsibility, or may decide that certain of these accounts should take differing positions with respect to a particular security. In these cases, the portfolio manager may execute differing or opposite transactions for one or more accounts which may affect the market price of the security or the execution of the transactions, or both, to the detriment of one or more other accounts.

Selection of Broker-Dealers. A portfolio manager may be able to select or influence the selection of the brokers and dealers that are used to execute securities transactions for the funds or accounts that they supervise. In addition to providing execution of trades, some brokers and dealers provide the Adviser with brokerage and research services which may result in the payment of higher brokerage fees than might otherwise be available. These services may be more beneficial to certain funds or accounts of the Adviser and its affiliates than to others. Although the payment of brokerage commissions is subject to the requirement that the Adviser determine in good faith that the commissions are reasonable in relation to the value of the brokerage and research services provided to the Fund, a portfolio manager’s decision as to the selection of brokers and dealers could yield disproportionate costs and benefits among the funds or other accounts that the Adviser and its affiliates manage. In addition, with respect to certain types of accounts (such as pooled investment vehicles and other accounts managed for organizations and individuals) the Adviser may be limited by the client concerning the selection of brokers or may be instructed to direct trades to particular brokers. In these cases, the Adviser or its affiliates may place separate, non-simultaneous transactions in the same security for the Fund and another account that may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the Fund or the other accounts.

Variation in Compensation. A conflict of interest may arise where the financial or other benefits available to the portfolio manager differ among the accounts that he manages. If the structure of the Adviser’s management fee or the portfolio manager’s compensation differs among accounts (such as where certain accounts pay higher management fees or performance based management fees), the portfolio manager may be motivated to favor certain accounts over others. The portfolio manager also may be motivated to favor accounts in which he has an investment interest, or in which the Adviser or its affiliates have investment interests. Similarly, the desire to maintain assets under management or to enhance a portfolio manager’s performance record or to derive other rewards, financial or otherwise, could influence the portfolio manager in affording preferential treatment to those accounts that could most significantly benefit the portfolio manager.

The Adviser and the Fund have adopted compliance policies and procedures that are designed to address the various conflicts of interest that may arise for the Adviser and its staff members. However, there is no guarantee that such policies and procedures will be able to detect and address every situation in which an actual or potential conflict may arise.

Compensation Structure

The compensation of the portfolio manager is structured to enable the Adviser to attract and retain highly qualified professionals in a competitive environment. Mr. Van der Eb receives a compensation package that includes a minimum draw or base salary, equity based incentive compensation via awards of stock options and restricted stock, and incentive based variable compensation based on a percentage of net revenue received by the Adviser for managing the Fund and separate accounts to the extent that the amount exceeds a minimum level of compensation, and a discretionary bonus. Net revenues are determined by deducting from gross investment management fees certain of the Firm’s expenses (other than Mr. Van der Eb’s compensation) allocable to the Fund. Additionally, Mr. Van der Eb receives similar incentive based variable compensation for managing other accounts for the Adviser based on gross revenue. These methods of compensation are based on the premise that superior long term performance in managing a portfolio should be rewarded with higher compensation as a result of growth of assets through appreciation and net investment activity. Equity based incentive compensation is based on an evaluation by GBL of quantitative and qualitative performance evaluation criteria.

Ownership of Shares in the Fund

Set forth in the table below is the dollar range of equity securities in the Fund beneficially owned by the Fund’s portfolio manager:

<u>Name</u>	<u>Dollar Range of Equity Securities Held in the Fund*</u>
Henry G. Van der Eb	C

* Key to Dollar Ranges- Information as of December 31, 2017

- A. None
- B. \$1 – \$10,000
- C. \$10,001 – \$50,000
- D. \$50,001 – \$100,000
- E. \$100,001 – \$500,000
- F. \$500,001 – \$1,000,000
- G. Over \$1,000,000

The Sub-Administrator

Gabelli Funds has entered into an agreement (the “Sub-Administration Agreement”) with The Bank of New York Mellon (the “Sub-Administrator”), which is located at 301 Bellevue Parkway, Wilmington, Delaware 19809. Under the Sub-Administration Agreement, the Sub-Administrator: (a) assists in supervising all aspects of the Fund’s operations except those performed by the Adviser or Gabelli Funds; (b) supplies the Fund with office facilities (which may be in the Sub-Administrator’s own offices), statistical and research data, data processing services, clerical, accounting and bookkeeping services, including, but not limited to, the calculation of the NAV of the Fund, internal auditing and regulatory administration services, internal executive and administrative services, and stationery and office supplies; (c) prepares and distributes materials for all Fund Board meetings including the mailing of all Board materials and collates the same materials into the Board books and assists in the drafting of minutes of the Board meetings; (d) prepares reports to Fund shareholders, tax returns, and reports to and filings with the SEC and state “Blue Sky” authorities; (e) provides any equipment or services necessary for the purpose of pricing shares or valuing the Fund’s investment portfolio; (f) provides compliance testing of all Fund activities against applicable requirements of the 1940 Act and the rules thereunder, the Internal Revenue Code of 1986, as amended (“the Code”), and the Fund’s investment restrictions; (g) furnishes Gabelli Funds such statistical and other factual information and information regarding economic factors and trends as Gabelli Funds from time to time may require; and (h) generally provides all administrative services that may be required for the ongoing operation of the Fund in a manner consistent with the requirements of the 1940 Act.

For the services it provides, Gabelli Funds pays the Sub-Administrator an annual fee based on the value of the aggregate average daily net assets of all funds under its administration managed by Gabelli Funds as follows: up to \$10 billion – 0.0275%; \$10 billion to \$15 billion – 0.0125%; \$15 billion to \$20 billion – 0.01%; over \$20 billion – 0.008%. The Sub-Administrator’s fee is paid by Gabelli Funds and will result in no additional expense to the Fund.

Counsel

Paul Hastings LLP, 200 Park Avenue, New York, New York 10166, serves as the Fund's legal counsel.

Independent Registered Public Accounting Firm

Ernst & Young LLP, independent registered public accounting firm, 2005 Market Street, Suite 700, Philadelphia, Pennsylvania, 19103, has been selected to audit the Fund's annual financial statements.

Custodian, Transfer Agent, and Dividend Disbursing Agent

State Street Bank and Trust Company ("State Street"), 225 Franklin Street, Boston, Massachusetts 02110, is the Custodian for the Fund's cash and securities. DST Asset Manager Solutions, Inc. ("DST"), located at 30 Dan Road, Canton, Massachusetts, 02021-2809, performs the shareholder services and acts as the Fund's transfer agent and dividend disbursing agent. Neither DST nor State Street assists in or is responsible for investment decisions involving assets of the Fund.

Distributor

To implement the Fund's Rule 12b-1 Plan, the Fund has entered into a Distribution Agreement with G.distributors, a Delaware limited liability company which is a wholly owned subsidiary of GBL, having principal offices located at One Corporate Center, Rye, New York 10580-1422. The Distributor acts as agent of the Fund for the continuous offering of its shares on a best efforts basis.

Set forth in the table below are the amounts of brokerage commissions and other compensation received by the Distributor during the year ended December 31, 2017:

<u>Net Underwriting Discounts and Commissions</u>	<u>Compensation on Redemptions and Repurchases</u>	<u>Brokerage Commissions*</u>	<u>Other Compensation</u>
\$ 0	\$ 0	\$ 0	N/A

DISTRIBUTION PLAN

The Fund has adopted a Plan of Distribution (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. The Plan provides that the Fund will pay the Distributor, in consideration of the services to be provided and the expenses to be incurred by the Distributor, distribution payments of 0.25% per year of the average daily net assets of the Fund. The payments made by the Fund under the Plan of Distribution will be used by the Distributor for the purpose of financing activities which are primarily intended to result in the sale of shares of the Fund, including, but not limited to, advertising the shares or the Adviser's mutual fund activities; compensating underwriters, dealers, brokers, banks, and other selling entities (including the Distributor and its affiliates), and sales and marketing personnel of any of them, for sales of shares of the Fund, whether in a lump sum or on a continuous, periodic, contingent, deferred, or other basis; compensating underwriters, dealers, brokers, banks, and other servicing entities and servicing personnel (including the Adviser and its personnel) for providing services to shareholders of the Fund relating to their investment in the Fund, including assistance in connection with inquiries relating to shareholder accounts; the production and dissemination of prospectuses (including statements of additional information) of the Fund and the preparation, production, and dissemination of sales, marketing and shareholder servicing materials; the ordinary or capital expenses, such as equipment, rent, fixtures, salaries, bonuses, reporting, and record keeping, and third party consultancy or similar expenses relating to any activity for which payment is authorized by the Board; and the financing of any activity for which payment is authorized by the Board. To the extent any activity is one which the Fund may finance without a Distribution Plan, the Fund may also make payments to finance such activity outside of the Plan and not be subject to its limitations.

The Plan compensates the Distributor regardless of its expenses. Accordingly, it is possible that the Distributor could receive compensation under the Plan that exceeds the Distributor's costs and related distribution expenses thus resulting in a profit to the Distributor. On the other hand, during periods when it believes the Fund's shares will be attractive to investors, the Distributor may, but is not required to, spend more on distribution activities than it receives under the Plan. The Plan is intended to benefit the Fund, among other things, by increasing its assets and thereby reducing the Fund's expense ratio.

Under its terms, the Plan remains in effect so long as its continuance is specifically approved at least annually by vote of the Fund's Board, including a majority of the Independent Trustees. The Plan may not be amended to increase materially the amount to be spent for services provided by the Distributor thereunder without shareholder approval, and all material amendments of the Plan must also be approved by the Board in the manner described above. The Plan may be terminated at any time, without penalty, by vote of a

majority of the Independent Trustees, or by a vote of a majority of the outstanding voting securities of the Fund (as defined in the 1940 Act). Under the Plan, the Distributor will provide the Trustees with periodic reports of amounts expended under such Plan and the purpose for which such expenditures were made.

During the year ended December 31, 2017, the Fund incurred expenses under the Plan of approximately \$24,433. During the year ended December 31, 2017, the Distributor identified distribution payments to broker-dealers or other financial intermediaries as follows: \$2,300 was attributable to advertising and promotion, \$400 for printing, postage and stationery, \$800 for overhead support expenses, \$11,300 for salaries of personnel of the Distributor, and \$3,200 for third party servicing fees. Due to the possible continuing nature of Rule 12b-1 payments, long term investors may pay more than the economic equivalent of the maximum front-end sales charge permitted by the Financial Industry Regulatory Authority, Inc. (“FINRA”).

The amounts included above as third party servicing fees include amounts paid to the providers of various programs that make shares available to their customers. Subject to tax limitations and approvals by the Board, the Fund also makes payments to the providers of these programs, out of its assets other than Rule 12b-1 payments, in amounts not greater than savings of expenses the Fund would incur in maintaining shareholder accounts for those who invest in the Fund directly rather than through these programs. The Adviser and its affiliates may also pay for all or a portion of these program’s charges out of their financial resources other than Rule 12b-1 fees.

Pursuant to the Plan, the Fund pays the Distributor 0.25% of its average daily net assets of Fund shares. Pursuant to the Distribution Agreement, the Fund appoints the Distributor as its general distributor and exclusive agent for the sale of the Fund’s shares. The Fund has agreed to indemnify the Distributor to the extent permitted by applicable law against certain liabilities under federal securities laws. The Distribution Agreement shall remain in effect from year to year provided that continuance of such agreement shall be approved at least annually (a) by the Fund’s Board, including a vote of a majority of Independent Trustees cast in person at a meeting called for the purpose of voting on such approval or (b) by the vote of the holders of a majority of the outstanding securities of the Fund and by a vote of the Board. The Distribution Agreement may be terminated by either party thereto upon sixty days written notice.

Shares of the Fund may also be purchased through shareholder agents that are not affiliated with the Fund or the Distributor. There are no sales or service charges imposed by the Fund, but agents who do not receive distribution payments or sales charges may impose a charge to the investor for their services. Such fees may vary among agents, and such agents may impose higher initial or subsequent investment requirements than those established by the Fund. Services provided by broker-dealers may include allowing the investor to establish a margin account and to borrow on the value of the Fund’s shares in that account. It is the responsibility of the shareholder’s agent to establish procedures which would assure that upon receipt of an order to purchase shares of the Fund the order will be transmitted so that it will be received by the Distributor before the time when the price applicable to the buy order expires.

No Independent Trustee of the Fund had a direct or indirect financial interest in the operation of the Plan or related agreements. Those interested persons who beneficially own stock in affiliates of the Adviser or the Distributor or are employed by one of the Gabelli companies may be deemed to have an indirect financial interest.

PORTFOLIO TRANSACTIONS AND BROKERAGE

The Adviser and its affiliates currently serve as investment adviser to a number of investment companies and private account clients and may in the future act as adviser to others. It is the policy of the Adviser and its affiliates to allocate investments suitable and appropriate for each such client in a manner believed by the Adviser to be equitable to each client. In making such allocations among the Fund and other client accounts, the main factors considered are the respective investment objectives, the relative size of portfolio holdings of the same or comparable securities, the availability of cash for investment, the size of investment commitments generally held, and the opinions of the persons responsible for managing the portfolios of the Fund and other client accounts.

Under the Contract, the Adviser is authorized on behalf of the Fund to employ brokers to effect the purchase or sale of portfolio securities with the objective of obtaining prompt, efficient, and reliable execution and clearance of such transactions at the most favorable price obtainable (“best execution”) at a reasonable expense. The Adviser is permitted to (1) direct Fund portfolio brokerage to G.research, a broker-dealer member of FINRA and an affiliate of the Adviser; and (2) pay commissions to brokers other than G.research which are higher than what might be charged by another qualified broker to obtain brokerage and/or research services considered by the Adviser to be useful or desirable for its investment management of the Fund and/or other advisory accounts under the management of the Adviser and any investment adviser affiliated with it. The Adviser does not consider the sales of shares of the Fund or other investment funds managed by the Adviser and its affiliates by brokers, including G.research, as a factor in its selection of brokers or dealers for the Fund’s portfolio transactions and has adopted compliance policies and procedures for itself and its affiliates to prevent any such transactions on that basis.

Transactions on U.S. stock exchanges involve the payment of negotiated brokerage commissions, which may vary among brokers. Transactions in securities other than those for which a securities exchange is the principal market are generally executed through a principal market maker. However, such transactions may be effected through a brokerage firm and a commission is paid whenever it appears that the broker can obtain a price that is at least as favorable taking into account its commissions. In general, there may be no stated commission on principal transactions in OTC securities, but the prices of such securities usually may include undisclosed commissions or markups. Option transactions will usually be effected through a broker and a commission will be charged. The Fund also expects that securities will be purchased at times in underwritten offerings where the price includes a fixed amount of compensation generally referred to as a concession or discount.

The policy of the Fund regarding purchases and sales of securities and options for its portfolios is that primary consideration will be given to obtaining the most favorable prices and efficient execution of transactions. In seeking to implement the Fund's policies, the Adviser effects transactions with those brokers and dealers who the Adviser believes can obtain the most favorable prices and are capable of providing efficient executions. If the Adviser believes such price and execution are obtainable from more than one broker or dealer, it may give consideration to placing portfolio transactions with those brokers and dealers who also furnish research and other services to the Fund or the Adviser of the type described in Section 28(e) of the Securities Exchange Act of 1934, as amended. In doing so, the Fund may also pay higher commission rates than the lowest available when the Adviser believes it is reasonable to do so in light of the value of the brokerage and research services provided by the broker effecting the transaction. Such services may include, but are not limited to, any one or more of the following: (i) information as to the availability of securities for purchase or sale; (ii) statistical or factual information or opinions pertaining to investment; (iii) wire services; and (iv) appraisals or evaluations of potential and existing investments.

Research services furnished by brokers or dealers through which the Fund effects securities transactions are used by the Adviser and its advisory affiliates in carrying out their responsibilities with respect to all of their accounts over which they exercise investment discretion. Such investment information may be useful only to one or more of such other accounts. The purpose of this sharing of research information is to avoid duplicative charges for research provided by brokers and dealers. Neither the Fund nor the Adviser has any agreement or legally binding understanding with any broker or dealer regarding any specific amount of brokerage commissions which will be paid in recognition of such services. However, in determining the amount of portfolio commissions directed to such brokers or dealers, the Adviser considers the level of services provided, and based on such determinations the Adviser allocated brokerage commissions of \$16,975 on portfolio transactions in the principal amount of \$26,053,321 during the fiscal year ended December 31, 2017, to broker-dealers who provide research services to the Adviser. The average commission on these transactions was \$0.05000 per share.

Investment research obtained by allocations of Fund brokerage is used to augment the scope and supplement the internal research and investment strategy capabilities of the Adviser but does not reduce the overall expenses of the Adviser to any material extent. Such investment research may be in written form or through direct contact with individuals and includes information on particular companies and industries as well as market, economic, or institutional activity areas. Research services furnished by brokers through which the Fund effects securities transactions are used by the Adviser and its advisory affiliates in carrying out their responsibilities with respect to all of their accounts over which they exercise investment discretion. Such investment information may be useful only to one or more of the other accounts of the Adviser and its advisory affiliates, and research information received for the commissions of those particular accounts may be useful both to the Fund and one or more of such other accounts.

The Adviser may also place orders for the purchase or sale of portfolio securities with G.research when it appears that, as an introducing broker or otherwise, G.research can obtain a price, execution, and commission, which is at least as favorable as that obtainable by other qualified brokers and at a commission rate at least as favorable as it provides to its best customers for similar transactions. As required by Rule 17e-1 under the 1940 Act, the Board has adopted procedures which provide that the commissions paid to G.research on brokerage transactions must not exceed those which would have been charged by another qualified broker or member firm able to effect the same or a comparable transaction at an equally favorable price or those G.research charges its most favored customers on similar transactions. Rule 17e-1 under the 1940 Act and the Fund's procedures contain requirements that the Board, including the Independent Trustees, review such commissions and transactions quarterly and procedures at least annually to determine their continuing appropriateness. The Adviser is also required to furnish reports and maintain records in connection with the reviews.

To obtain the best execution of portfolio trades on the NYSE, G.research controls and monitors the execution of such transactions on the floor of the NYSE through independent "floor brokers" or the Designated Order Turnaround System of the NYSE. Such transactions are then cleared, confirmed to the Fund for the account of G.research, and settled directly with the Custodian of the Fund by a clearing house member firm which remits the commission less its clearing charges to G.research. G.research may also effect the Fund's portfolio transactions in the same manner and pursuant to the same arrangements on other national securities exchanges which adopt direct access rules similar to those of the NYSE. In addition, G.research may directly execute transactions for the Fund on the floor of any exchange, provided: (i) the Fund's Board has expressly authorized G.research to effect such transactions; and (ii) G.research annually advises the Fund of the aggregate compensation it earned on such transactions.

The following table sets forth certain information regarding the Fund's payment of brokerage commissions for the fiscal years ended December 31 as indicated:

	Fiscal Year Ended December 31	Commissions Paid
Total Brokerage Commissions	2015	\$ 30,925
	2016	\$ 68,660
	2017	\$ 16,975
Commissions paid to G.research	2015	\$ 0
	2016	\$ 0
	2017	\$ 0
% of Total Brokerage Commissions paid to G.research	2017	0%
% of Total Transactions involving Commissions paid to G.research	2017	0%

During its year ended December 31, 2017, the Fund did not acquire securities of its regular broker-dealers, as defined in Rule 10b-1 under the 1940 Act or their parents.

REDEMPTION OF SHARES

Payment of the redemption price for shares redeemed may be made either in cash or in portfolio securities (selected at the discretion of the Board and taken at their value used in determining the Fund's NAV as described under "Determination of Net Asset Value"), or partly in cash and partly in portfolio securities. However, payments will be made wholly in cash unless the shareholder has redeemed more than \$250,000 over the preceding three months and the Adviser believes that economic conditions exist which would make payments in cash detrimental to the best interests of the Fund. If payment for shares redeemed is made wholly or partly in portfolio securities, brokerage costs may be incurred by the investor in converting the securities to cash. The Fund will not distribute in-kind portfolio securities that are not readily marketable.

Cancellation of purchase orders for Fund shares (as, for example, when checks submitted to purchase shares are returned unpaid) causes a loss to be incurred when the NAV of the Fund shares on the date of cancellation is less than on the original date of purchase.

The investor is responsible for such loss, and the Fund may reimburse itself or the Distributor for such loss by automatically redeeming shares from any account registered at any time in that shareholder's name, or by seeking other redress. If the Fund is unable to recover any loss to itself, it is the position of the SEC that the Distributor will be immediately obligated to make the Fund whole.

The Fund imposes a redemption fee of 2.00% of the total redemption amount if shareholders sell or exchange any of their shares within seven days after the date of a purchase. The fee, its manner of calculation, and exceptions to its applicability are discussed in the Fund's prospectus. The fee is not a sales charge (load) and is paid directly to the Fund and not the Adviser or Distributor.

DETERMINATION OF NET ASSET VALUE

For purposes of determining the Fund's NAV, portfolio securities listed or traded on a nationally recognized securities exchange or traded in the OTC market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and ask prices, or, if there were no ask prices quoted on such day, the security is valued at the most recently available bid price on that day. If no bid or ask prices are quoted on such day, the security is valued at the most recently available price, or, if the Board so determines, by such other method as the Board shall determine in good faith, to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Adviser.

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market but prior to the close of business on the day the securities are being valued. Debt instruments for which market quotations are readily available are valued at the average of the latest bid and ask prices. If there were no ask prices quoted on such day, the security is valued using the closing bid price, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Certain securities are valued principally using

dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded. OTC futures and options on futures for which market quotations are readily available will be valued by quotations received from a pricing service or, if no quotations are available from a pricing service, by quotations obtained by the Adviser from one or more dealers in the instrument.

Securities and assets for which market quotations are not readily available are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company, comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value of ADR securities at the close of the U.S. exchanges; and evaluation of any other information that could be indicative of the value of the security.

The Fund may obtain valuations on the basis of prices provided by a pricing service approved by the Board. All other investment assets, including restricted and not readily marketable securities, are valued in good faith at fair value under procedures established by and under the general supervision and responsibility of the Fund's Board. Further information on fair valuation is provided in the Fund's prospectus under "Pricing of Fund Shares."

In addition, whenever developments in one or more securities markets after the close of the principal markets for one or more portfolio securities and before the time as of which the Fund determines its NAV would, if such developments had been reflected in such principal markets, likely have more than a minimal effect on the Fund's NAV, the Fund may fair value such portfolio securities based on available market information as of the time the Fund determines its NAV.

NYSE Closings. The Fund's NAV is calculated on each business day. A Business Day is any day the NYSE is open for business. The NYSE is open Monday through Friday, but currently is scheduled to be closed on New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day and on the preceding Friday or subsequent Monday when a holiday falls on a Saturday or Sunday, respectively.

DIVIDENDS, DISTRIBUTIONS, AND TAXES

Each dividend and capital gains distribution, if any, declared by the Fund on its outstanding shares will, unless you have elected otherwise, be paid on the payment date fixed by the Fund's Board in additional shares of the Fund having an aggregate NAV as of the ex-dividend date of such dividend or distribution equal to the cash amount of such distribution. An election to receive dividends and distributions in cash or in additional shares may be changed by notifying the Fund in writing at any time prior to the record date for a particular dividend or distribution. No sales charges or other fees are imposed upon shareholders in connection with the reinvestment of dividends and capital gains distributions. There is no fixed dividend rate, and there can be no assurance that the Fund will pay any dividends or realize any capital gains.

General

Set forth below is a discussion of certain U.S. federal income tax issues concerning the Fund and the purchase, ownership, and disposition of Fund shares by U.S. persons. This discussion is based upon present provisions of the Code, the regulations promulgated thereunder, and judicial and administrative ruling authorities, all of which are subject to change, which change may be retroactive. This discussion does not purport to be complete or to deal with all aspects of U.S. federal income taxation that may be relevant to investors in light of their particular circumstances. Prospective investors should consult their own tax advisers with regard to the U.S. federal tax consequences of the purchase, ownership, or disposition of shares of the Fund, as well as the tax consequences arising under the laws of any state, foreign country, or other taxing jurisdiction.

On December 31, 2017, the Fund had net capital loss carryforwards for federal income tax purposes of \$6,736,739, which are available to reduce future required distributions of net capital gains to shareholders; \$151,917 is available through 2018. Capital losses sustained and not used in a taxable year beginning after December 22, 2010 may be carried forward indefinitely to offset income of the Fund in future years. The Fund had a post-effective short term capital loss of \$6,584,822 which may be carried forward indefinitely.

Tax Status of the Fund

The Fund has elected to qualify and intends to remain qualified on an annual basis to be taxed as a regulated investment company under Subchapter M of the Code and thereby eliminate or greatly reduce its income tax liability each year. Accordingly, the Fund must, among other things: (a) derive in each taxable year at least 90% of its gross income from dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other

income (including but not limited to gains from options, futures, or forward contracts) derived with respect to its business of investing in such stock, securities, or currencies, and net income derived from an interest in a qualified publicly-traded partnership; and (b) diversify its holdings so that, at the end of each fiscal quarter (i) at least 50% of the value of the Fund's total assets is represented by cash and cash items (including receivables), U.S. government securities, the securities of other regulated investment companies, and other securities, with such other securities limited, in respect of any one issuer, to an amount not greater than 5% of the value of the Fund's total assets and 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of its total assets is invested in the securities (other than U.S. government securities and the securities of other regulated investment companies) of any one issuer, of any two or more issuers that it controls and that are determined to be engaged in the same or similar trades or businesses or related trades or businesses, or in securities of one or more qualified publicly traded partnerships. There can be no assurance that the Fund will meet all of the requirements for such qualification each year.

As a regulated investment company, the Fund generally is not subject to U.S. federal income tax on income and gains, if any, that it distributes to shareholders, if at least 90% of the Fund's investment company taxable income (which includes, among other items, dividends, interest, and the excess of any net short term capital gains over net long term capital losses) for the taxable year is distributed. The Fund intends to distribute substantially all of such income.

Amounts not distributed on a timely basis in accordance with a calendar year distribution requirement are subject to a nondeductible 4% excise tax at the Fund level. To avoid the tax, the Fund must distribute during each calendar year an amount equal to the sum of (1) at least 98% of its ordinary income (not taking into account any capital gains or losses) for the calendar year, (2) at least 98.2% of its capital gains in excess of its capital losses (adjusted for certain ordinary losses) for a one year period generally ending on October 31 of the calendar year (unless an election is made by the Fund with a November or December year end to use the Fund's fiscal year, and (3) all ordinary income and capital gain income for previous years that were not distributed during such years and upon which no tax was imposed. To avoid application of the excise tax, the Fund intends to make distributions in accordance with the calendar year distribution requirement.

A distribution will be treated as paid on December 31 of a calendar year if it is declared by the Fund in October, November, or December of that year with a record date in such a month and paid by the Fund during January of the following year. Such a distribution will be taxable to shareholders in the calendar year in which the distribution is declared, rather than the calendar year in which it is received.

Distributions

Distributions of investment company taxable income are taxable to a U.S. shareholder as ordinary income, whether paid in cash or shares. Qualified dividends from certain U.S. and non-U.S. corporations are taxable to U.S. shareholders at a reduced federal rate of a maximum of 20%. Dividends paid by the Fund to a corporate shareholder, to the extent such dividends are attributable to dividends received by the Fund from U.S. corporations and to the extent the aggregate amount of such dividends do not exceed the aggregate dividends received by the Fund for the taxable year, may, subject to limitations, be eligible for the dividends received deduction. The alternative minimum tax applicable to corporations, however, may reduce the value of the dividends received deduction. Noncorporate taxpayers in the higher income tax brackets are generally subject to a 3.8% federal tax on their net investment income, which generally includes dividends and net capital gains from an investment in the Fund.

Capital gains may be taxed at different rates depending on how long the Fund held the asset giving rise to such gains. Distributions of the excess of net long term capital gains over net short term capital losses realized, if any, properly reported by the Fund, whether paid in cash or reinvested in Fund shares, will generally be taxable to shareholders at the rates applicable to long term capital gains, regardless of how long a shareholder has held Fund shares. Distributions of net capital gains from assets held for one year or less will be taxable to shareholders at rates applicable to ordinary income.

To the extent that the Fund retains any net long term capital gains, it may designate them as "deemed distributions" and pay a tax thereon for the benefit of its shareholders. In that event, the shareholders report their share of the Fund's retained realized capital gains on their individual tax returns as if it had been received, and report a credit for the tax paid thereon by the Fund. The amount of the deemed distribution net of such tax is then added to the shareholder's cost basis for his shares. Shareholders who are not subject to U.S. federal income tax or tax on capital gains should be able to file a return on the appropriate form or a claim for refund that allows them to recover the tax paid on their behalf.

Shareholders will be notified annually as to the U.S. federal tax status of distributions, and shareholders receiving distributions in the form of newly issued shares will receive a report as to the NAV of the shares received.

Investors should be careful to consider the tax implications of buying shares of the Fund just prior to the record date of a distribution (including a capital gain dividend). The price of shares purchased at such a time will reflect the amount of the forthcoming distribution, but the distribution will generally be taxable to the shareholder.

Foreign Taxes

The Fund may be subject to certain taxes imposed by the countries in which it invests or operates. The Fund will not have more than 50% of its total assets invested in securities of foreign governments or corporations and consequently will not qualify to elect to treat any foreign taxes paid by the Fund as having been paid by the Fund's shareholders.

Dispositions

Upon a redemption, sale, or exchange of shares of the Fund, a shareholder will realize a taxable gain or loss depending upon the difference between his sales proceeds and his adjusted tax basis in the shares. A gain or loss will be treated as capital gain or loss if the shares are capital assets in the shareholder's hands, and, for noncorporate shareholders, the rate of tax will depend upon the shareholder's holding period for the shares. Any loss realized on a redemption, sale, or exchange will be disallowed to the extent the shares disposed of are replaced (including through reinvestment of dividends) within a period of sixty-one days, beginning thirty days before and ending thirty days after the shares are disposed of. In such a case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. If a shareholder holds Fund shares for six months or less and during that period receives a distribution taxable to the shareholder as long term capital gain, any loss realized on the sale of such shares during such six month period would be a long term capital loss to the extent of such distribution.

Backup Withholding

The Fund generally will be required to withhold U.S. federal income tax currently at a rate of 24% ("backup withholding") from dividends paid, capital gain distributions, and redemption proceeds to shareholders if (1) the shareholder fails to furnish the Fund with the shareholder's correct taxpayer identification number or social security number, (2) the IRS notifies the shareholder or the Fund that the shareholder has failed to report properly certain interest and dividend income to the IRS and to respond to notices to that effect, or (3) when required to do so, the shareholder fails to certify that he or she is not subject to backup withholding. Backup withholding is not an additional tax and any amounts withheld may be credited against a shareholder's ultimate federal income tax liability, if proper documentation is provided.

Other Taxation

Distributions may be subject to additional state, local, and foreign taxes, depending on each shareholder's particular situation. Non-U.S. shareholders may be subject to U.S. tax rules that differ significantly from those summarized above, including the likelihood that dividends distributed to them will be subject to withholding of U.S. tax at a rate of 30% (or a lower treaty rate, if applicable). Non-U.S. investors should consult their own tax advisers regarding federal, state, local, and foreign tax considerations.

The Foreign Account Tax Compliance Act ("FATCA")

A 30% withholding tax on the Fund's distributions, including capital gains distributions, and on gross proceeds from the sale or other disposition of shares of the Fund generally applies if paid to a foreign entity unless: (i) if the foreign entity is a "foreign financial institution," it undertakes certain due diligence, reporting, withholding, and certification obligations, (ii) if the foreign entity is not a "foreign financial institution," it identifies certain of its U.S. investors or (iii) the foreign entity is otherwise excepted under FATCA. If required under the rules above and subject to the applicability of any intergovernmental agreements between the United States and the relevant foreign country, withholding under FATCA applies: (i) generally with respect to distributions from your Fund; and (ii) with respect to certain capital gains distributions and gross proceeds from a sale or disposition of Fund shares that occur on or after January 1, 2019. If withholding is required under FATCA on a payment related to your shares, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) on such payment generally will be required to seek a refund or credit from the IRS to obtain the benefits of such exemption or reduction. The Fund will not pay any additional amounts in respect to amounts withheld under FATCA. You should consult your tax adviser regarding the effect of FATCA based on your individual circumstances.

Fund Investments

Options, Futures, and Forward Contracts. Any regulated futures contracts and certain options in which the Fund may invest may be "Section 1256 contracts." Gains or losses on these contracts generally are considered to be 60% long term and 40% short term capital gains or losses. Also, Section 1256 contracts held by the Fund at the end of each taxable year (and on certain other dates prescribed in the Code) are "marked to market" with the result that unrealized gains or losses are treated as though they were realized. Section 1092, which applies to certain straddles, may affect the taxation of the Fund's sales of securities and transactions in financial futures contracts and related options. Under Section 1092, the Fund may be required to postpone recognition of losses incurred in certain sales of securities and certain closing transactions in financial futures contracts or related options.

Short Sales. In connection with short sales by the Fund, the Fund will be subject to certain rules which may affect the character and timing of gain or loss recognized by the Fund for U.S. federal income tax purposes. Under these rules a short sale remains open until the Fund (as the short seller) delivers the security to the broker (as the lender) and closes the transaction. Any gain or loss realized by the Fund from closing a short sale will be short term capital gain or loss if on the date of such short sale substantially identical securities have been held by the Fund for less than one year or the Fund acquires substantially identical securities after the time the short sale is entered into but prior to closing such short sale. The Fund expects to close out all of its short sales with such after-acquired securities. The Fund does not intend, however, to enter into short sales with respect to securities that it holds at the time of entering a short sale.

Special Code provisions applicable to Fund investments, discussed above, may affect the characterization of gains and losses realized by the Fund, and may accelerate recognition of income or defer recognition of losses. The Fund will monitor these investments and when possible will make appropriate elections in order to mitigate unfavorable tax treatment.

The Fund may make taxable distributions to shareholders during periods in which the value of the Fund's shares has declined. The foregoing is only a summary of certain material U.S. federal income tax consequences affecting the Fund and its shareholders. State, local, and foreign taxes may also apply. Current and prospective shareholders are advised to consult their own tax advisers with respect to the particular tax consequences to them of an investment in the Fund.

The foregoing is only a summary of certain material U.S. federal income tax consequences affecting the Fund and its shareholders. The Fund may make taxable distributions even during periods in which the share price of the Fund has declined. Tax effects are not the primary consideration of the Fund in making investment decisions. Current and prospective shareholders are advised to consult their own tax advisers with respect to the particular tax consequences to them of an investment in the Fund.

DESCRIPTION OF THE FUND'S SHARES

The Fund is authorized to issue an unlimited number of shares of beneficial interest. Subject to approval by the Trustees of a plan under Rule 18f-3 of the 1940 Act, the Trustees of the Fund may, at any time, by resolution, authorize the division of shares into an unlimited number of series and the division of any series into two or more classes. There is currently a single series with a single class of shares designated as AAA.

Shareholders are entitled to one vote for each share held (and fractional votes for fractional shares) and may vote on the election of Trustees and on other matters submitted to meetings of shareholders. As a Delaware statutory trust, the Fund is not required, and does not intend, to hold regular annual shareholder meetings but may hold special meetings for the consideration of proposals requiring shareholder approval, such as changing fundamental policies. In addition, if the Trustees have not called an annual meeting of shareholders for any year by May 31 of that year, the Trustees will call a meeting of shareholders upon the written request of shareholders holding in excess of 50% of the affected shares for the purpose of removing one or more Trustees or the termination of any investment advisory agreement. The Declaration of Trust provides that the Fund's shareholders have the right, upon the vote of more than two-thirds of its outstanding shares, to remove a Trustee. Except as may be required by the 1940 Act or any other applicable law, the Trustees may amend the Declaration of Trust in any respect without any vote of shareholders to make any change that does not (i) impair the exemptions from personal liability as provided therein or (ii) permit assessments on shareholders. Shareholders have no preemptive or conversion rights except with respect to shares that may be denominated as being convertible or as otherwise provided by the Trustees or applicable law. The Fund may be (i) terminated upon the affirmative vote of a majority of the Trustees or (ii) merged or consolidated with, or sell all or substantially all of its assets to another issuer, if such transaction is approved by the vote of two-thirds of the Trustees without any vote of the shareholders, in each case except as may be required by the 1940 Act or any other applicable law. If not so terminated, the Fund will continue indefinitely.

The Fund's Declaration of Trust provides that the Trustees will not be liable for errors of judgment or mistakes of fact or law, but nothing in the Declaration of Trust protects a Trustee against any liability to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office. Under Delaware law, shareholders of such a trust may not be held personally liable as partners for a trust's obligations.

FINANCIAL STATEMENTS

The Fund's Financial Statements for the fiscal year ended December 31, 2017, including the Report of Ernst & Young LLP, are incorporated herein by reference to the Fund's Annual Report. The Fund's Annual Report is available upon request and without charge by calling 800-GABELLI (800-422-3554) or through the Internet at www.gabelli.com. Ernst & Young LLP provides audit services, tax return preparation and assistance, and other assurance services in connection with certain SEC filings.

APPENDIX A

DESCRIPTION OF CORPORATE DEBT RATINGS

MOODY'S INVESTORS SERVICE, INC. ("Moody's")

- Aaa: Obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk.
- Aa: Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.
- A: Obligations rated A are judged to be upper-medium grade and are subject to low credit risk.
- Baa: Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
- Ba: Obligations rated Ba are judged to be speculative and are subject to substantial credit risk.
- B: Obligations rated B are considered speculative and are subject to very high credit risk.
- Caa: Obligations rated Caa are judged to be speculative of poor standing and are subject to very high credit risk.
- Ca: Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.
- C: Obligations rated C are the lowest rated class of bonds and are typically in default, with little prospect for recovery of principal or interest.
- NR: NR is assigned to an unrated issuer, obligation and/or program.

Should no rating be assigned, the reason may be one of the following:

1. An application for rating was not received or accepted.
2. The issue or issuer belongs to a group of securities that are not rated as a matter of policy.
3. There is a lack of essential data pertaining to the issue or issuer.
4. The issue was privately placed, in which case the rating is not published in Moody's publications.

Suspension or withdrawal may occur if new and material circumstances arise, the effects of which preclude satisfactory analysis; if there is no longer available reasonable up-to-date data to permit a judgment to be formed; if a bond is called for redemption; or for other reasons.

Note: Moody's appends numerical modifiers, 1, 2 and 3 in each generic rating classification from Aa through Caa.. The modifier 1 indicates that the security ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of its generic rating category. Additionally, a "(hyb)" indicator is appended to all ratings of hybrid securities issued by banks, insurers, finance companies, and securities firms.

STANDARD & POOR'S RATINGS SERVICES ("S&P")

Investment Grade

- AAA: An obligation rated 'AAA' has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.
- AA: An obligation rated 'AA' differs from the highest rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.
- A: An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.
- BBB: An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

Speculative Grade

Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

- BB: An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.
- B: An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.
- CCC: An obligation rated 'CCC' is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.
- CC: An obligation rated 'CC' is currently highly vulnerable to nonpayment. The 'CC' rating is used when a default has not yet occurred, but Standard & Poor's expects default to be a virtual certainty, regardless of the anticipated time to default.
- C: An obligation rated 'C' is currently highly vulnerable to nonpayment, and the obligation is expected to have lower relative seniority or lower ultimate recovery compared to obligations that are rated higher.
- D: An obligation rated 'D' is in default or in breach of an imputed promise. For non-hybrid capital instruments, the 'D' rating category is used when payments on an obligation are not made on the date due unless Standard & Poor's believes that such payments will be made within five business days in the absence of a stated grace period or within the earlier of the stated grace period or 30 calendar days. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation's rating is lowered to 'D' if it is subject to a distressed exchange offer.
- N This indicates that no rating has been requested, or that there is insufficient information on which to base a rating, or that Standard & Poor's does not rate a particular obligation as a matter of policy.

* The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

Description of S&P and Moody's commercial paper ratings:

The designation A-1 by S&P indicates that the degree of safety regarding timely payment is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong. Capacity for timely payment on issues with an A-2 designation is satisfactory. However, the relative degree of safety is not as high as for issues designated A-1.

The rating Prime-1 (P-1) is the highest commercial paper rating assigned by Moody's. Issuers of P-1 paper must have a superior ability to repay short-term debt obligations, and ordinarily will be evidenced by leading market positions in well established industries, high rates of return of funds employed, conservative capitalization structures with moderate reliance on debt and ample asset protection, broad margins in earnings coverage of fixed financial charges and high internal cash generation, and well established access to a range of financial markets and assured sources of alternate liquidity.
