The source of the distribution is net investment income, capital gains, and a return of capital. Based on current earnings on a book basis, approximately \$0.006 per share is from net investment income, \$0.002 per share is from net realized capital gains, and \$0.062 per share is a return of capital. These estimates are based on book basis earnings as of record date. Prior distributions within 2013 would have similar proportional characterizations.

The final determination of the proportion of capital gains, ordinary income, and non-taxable return of capital, if any, distributed in 2013 will be made after year end. All taxable shareholders will receive written notification regarding the components and tax treatment for all 2013 distributions in early 2014 via Form 1099-DIV.

The Gabelli Utilities Fund is managed by Gabelli Funds, LLC and distributed by G.distributors, LLC, subsidiaries of GAMCO Investors, Inc. (NYSE: GBL).
