

# Gabelli Value Fund *Quarter End • June 30, 2010*

## Fund Characteristics

- The Gabelli Value Fund is a non-diversified, open-end investment company whose investment objective is long-term capital appreciation.
- The Fund focuses on securities of companies which appear underpriced relative to their Private Market Value (PMV) with Catalysts to unlock that value. PMV is the price the Fund's Adviser believes a strategic buyer would be willing to pay for the entire company
- The Fund invests primarily in common stocks.

## Portfolio Management

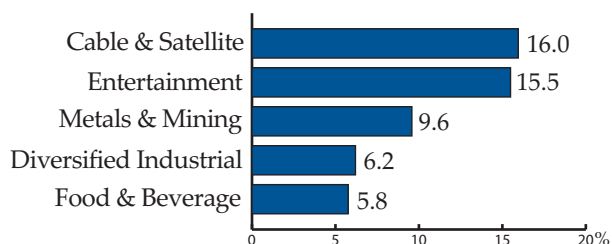

**Mario J. Gabelli, CFA** is Chairman, Chief Executive Officer and Chief Investment Officer of Value Products for GAMCO Investors, Inc., which he founded in 1977. Mr. Gabelli is a summa cum laude graduate of Fordham University and holds an MBA degree from Columbia University Graduate School of Business, and an Honorary Doctorate Degree from Roger Williams University in Rhode Island. *A portion of the assets are managed by Chris Marangi, Associate Portfolio Manager.*

The most recent quarterly report, which contains a more extensive list of holdings, is available from your Financial Advisor or by contacting the distributor, Gabelli & Company, Inc.

*The Fund's share price will fluctuate with changes in the market value of the Fund's portfolio securities. Stocks are subject to market, economic and business risks that cause their prices to fluctuate. When you sell Fund shares, they may be worth less than what you paid for them. Consequently, you can lose money by investing in the Fund.*

*Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. The prospectus, which contains more complete information about this and other matters, should be read carefully before investing. Important information including performance history on reverse.*

## Performance

1990	-5.6	-3.1
1989*	2.1	2.1

\* From inception on 9/29/89.

Past performance is no guarantee of future results. Total return and average annual returns are historical and reflect changes in share price, reinvestment of dividends and capital gains and are net of expenses. Due to market volatility, current performance may be lower or higher than the figures shown. Investment return and principal value will fluctuate so, upon redemption, shares may be worth more or less than their original cost. To obtain the most recent month end performance information and a prospectus, please call 800-GABELLI or visit [www.gabelli.com/funds](http://www.gabelli.com/funds).

The inception date of the Fund was September 29, 1989. The Class A Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class C Shares on March 15, 2000 and Class I Shares on January 11, 2008. The actual performance for Class C Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. Other share classes may have different performance characteristics. Performance for periods less than one year is not annualized. Class A Shares (load adjusted) includes the effect of the maximum 5.75% sales charge at the beginning of the period. Class C Shares (load adjusted) includes the effect of the applicable 1% contingent deferred sales charge at the end of the period. The Fund imposes a 2% redemption fee on shares sold or exchanged in seven days or less after the date of purchase. The S&P 500 Index is an unmanaged indicator of stock market performance and is adjusted for reinvestment of dividends.

Not FDIC Insured. Not Bank Guaranteed. May Lose Value.
