Returns represent past performance and do not guarantee future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so, upon redemption, shares may be worth more or less than their original cost. To obtain the most recent month end performance information and a prospectus, please call 800-WESTWOOD or visit www.tetonadv.com. Total return and average annual returns are historical and reflect changes in share price, reinvestment of dividends and capital gains and are net of expenses. Teton Advisors is the investment manager for all TETON Westwood Funds.

*The inception date of the Fund was April 15, 1997. The Class AAA Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class A Shares and Class C Shares on November 26, 2001, and Class I Shares on January 11, 2008. Notwithstanding the limitation of expenses, the actual performance for Class C and Class A Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. The Adviser reimbursed certain expenses to limit the expense ratio during the period from inception. Had such limitation not been in place, returns would have been lower. Performance for periods of less than one year
