The most recent semiannual report, which contains a more extensive list of holdings, is available from your Financial Advisor or by contacting the distributor, Gabelli & Company, Inc.

The Fund's share price will fluctuate with changes in the market value of the Fund's securities. Stocks are subject to market, economic and business risks that cause their prices to fluctuate. When you sell Fund shares, they may be worth less than what you paid for them. Consequently, you can lose money by investing in the Fund.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. The prospectus, which contains more complete information about this and other matters, should be read carefully before investing.

Past performance is no guarantee of future results. Total return and average annual returns are historical and reflect changes in share price, reinvestment of dividends and capital gains and are net of expenses. Due to market volatility, current performance may be lower or higher than the figures shown. Investment return and principal value will fluctuate so, upon redemption, shares may be worth more or less than their original cost. To obtain the most recent month end performance information and a prospectus, please call 800-GABELLI or visit www.gabelli.com/funds.

The inception date of the Fund was July 11, 1994. The Class AAA Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class A Shares and Class C Shares on December 23, 2002, and Class I Shares on January 11, 2008. The actual performance for Class C Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. Other share classes may have different performance characteristics. Performance for periods less than one year is not annualized. Class A Shares (load adjusted) includes the effect of the maximum 5.75% sales charge at the beginning of the period. Class C Shares (load adjusted) includes the effect of the applicable 1% contingent deferred sales charge during the first year. The Fund imposes a 2% redemption fee on shares sold or exchanged in seven days or less after the date of purchase. The Lipper Gold Fund Average, which represents an unmanaged average composed of gold-related mutual funds, as tracked by Lipper Inc., is adjusted for reinvestment of dividends and capital gains distribution. The Philadelphia Gold and Silver Index is a widely recognized unmanaged index composed of precious metals-related common stocks. The Gabelli Gold Fund changed its name to the GAMCO Gold Fund effective 12/23/05.

Investments related to gold and other precious metals and minerals are considered speculative and are affected by a variety of worldwide economic, financial, and political factors. Investing in foreign securities involves risks not ordinarily associated with investment in domestic issues. Fund's concentrating in specific sectors may experience greater fluctuations in value than funds that are more diversified.
