THE 787 FUND, INC.
(the “Corporation”)

GABELLI ENTERPRISE MERGERS AND ACQUISITIONS FUND

**Supplement dated December 18, 2009, to the Fund’s Prospectus dated February 27, 2009,
as supplemented November 4, 2009, and to the Fund’s Statement of Additional
Information dated February 27, 2009.**

Effective as of December 14, 2009, the Corporation’s name was changed from The 787 Fund, Inc. to Gabelli 787 Fund, Inc. All references to the Corporation or The 787 Fund, Inc. in the Fund’s Prospectus and Statement of Additional Information should be replaced with Gabelli 787 Fund, Inc.

THE 787 FUND, INC.

GABELLI ENTERPRISE MERGERS AND ACQUISITIONS FUND

Supplement dated November 4, 2009, to the Fund’s Prospectus dated February 27, 2009.

Effective immediately, the following information replaces the “Shareholder Fees” section of the fee table in the “Fees and Expenses of the Fund” section of the prospectus on page 7.

	<u>Class A Shares</u>	<u>Class B Shares*</u>	<u>Class C Shares</u>	<u>Class Y Shares</u>
Shareholder Fees				
(fees paid directly from your investment):				
Maximum Sales Charge (Load) on Purchases (as a percentage of offering price).....	5.75% ⁽¹⁾	None	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of redemption price) ⁽⁵⁾	None ⁽²⁾	5.00% ⁽³⁾	1.00% ⁽⁴⁾	None
Redemption Fees (as a percentage of amount redeemed for shares held 7 days or less) payable to the Fund.....	2.00%	2.00%	2.00%	2.00%

* Class B Shares are no longer available for new investments, except through reinvestment of dividends or capital gains.

⁽¹⁾ The sales charge declines as the amount invested increases.

⁽²⁾ If no sales charge was paid at the time of purchase as part of an investment that is greater than \$1,000,000, shares redeemed within eighteen months of such purchase may be subject to a deferred sales charge of 1.00%. See “Classes of Shares”.

⁽³⁾ This sales charge is imposed if you redeem Class B Shares within one year of your purchase. A graduated reduced sales charge is imposed if you redeem your shares within seventy-two months of purchase. Class B shares automatically convert to Class A shares about ninety-six months after purchase. See “Classes of Shares.”

⁽⁴⁾ This sales charge is imposed if you redeem Class C shares within twelve months after purchase. See “Classes of Shares.”

⁽⁵⁾ “Redemption Price” equals the net asset value at the time of investment or redemption, whichever is lower for Class A, Class B or Class C shares.

Gabelli Enterprise Mergers and Acquisitions Fund

A Portfolio of the 787 Fund, Inc.

Class A, B, C, and Y Shares

PROSPECTUS

February 27, 2009

The Securities and Exchange Commission has not approved or disapproved the shares described in this Prospectus or determined whether this Prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

INVESTMENT AND PERFORMANCE SUMMARY

Investment Objective:

The Gabelli Enterprise Mergers and Acquisitions Fund (the “Fund”), formerly the AXA Enterprise Mergers and Acquisitions Fund, a series of The 787 Fund, Inc. (the “Corporation”), seeks to provide capital appreciation.

Principal Investment Strategies

Under normal circumstances, the Fund intends to invest primarily in equity securities of companies believed to be likely acquisition targets within 12 to 18 months. The Fund also may engage in arbitrage transactions by investing in the equity securities of companies that are involved in publicly announced mergers, takeovers, tender offers, leveraged buyouts, spin-offs, liquidations and other corporate reorganizations. When a company agrees to be acquired by another company, its stock price often quickly rises to just below the stated acquisition price. If the Adviser determines that the acquisition is likely to be consummated on schedule at the stated acquisition price, then the Fund may purchase (if it does not already hold) or increase its investment in the selling company’s securities, offering the Fund the possibility of returns in excess of the return on cash equivalents with a limited risk of excessive loss of capital. At times, the stock of the acquiring company also may be purchased or sold short. The Fund may hold a significant portion of its assets in cash in anticipation of arbitrage opportunities.

The Fund may invest in companies of any size and from time to time may invest primarily in companies with large, medium or small market capitalizations. The Fund generally invests in securities of U.S. companies, but also may invest its assets in foreign securities, including emerging market securities. The Fund may engage in various portfolio strategies, including using derivatives, to enhance potential gain.

The Fund intends to invest primarily in common stocks, but it may also invest in other securities that Gabelli Funds, LLC (the “Adviser”) believes provide opportunities for capital appreciation, such as preferred stocks, warrants and securities convertible into common stock. It is expected that the Fund will engage in active or frequent trading of portfolio securities to achieve its investment objective. In this connection, it is expected that the Fund will have a portfolio turnover rate of 150% or more.

In choosing investments, the Adviser searches for the best values on securities that it believes have the potential to achieve the Fund’s investment objective of capital appreciation. In seeking to identify companies that are likely to be acquisition targets, the Adviser considers, among other things, consolidation trends within particular industries, whether a particular industry or company is undergoing a fundamental change or restructuring, the Adviser’s assessment of the “private market value” of individual companies and the potential for an event or catalyst to occur that enhances a company’s underlying value. The “private market value” of a company is the value that the Adviser believes informed investors would be willing to pay to acquire the entire company. The Adviser seeks to limit excessive risk of capital loss by utilizing various investment strategies, including investing in value oriented equity securities that should trade at a significant discount to the Adviser’s assessment of their private market value.

In evaluating arbitrage opportunities with respect to companies involved in publicly announced mergers or other corporate restructurings, the Adviser seeks to identify investments in companies where the discount from the stated or appraised value of the security significantly overstates the risk of the contingencies involved in completing the transaction, significantly undervalues the securities, assets or cash to be received by shareholders of the prospective portfolio company as a result of the contemplated transaction, or fails adequately to recognize the possibility that the offer or proposal may be replaced or superseded by an offer or proposal of greater value. The evaluation of such contingencies requires

unusually broad knowledge and experience on the part of the Adviser which must appraise not only the value of the issuer and its component businesses as well as the assets or securities to be received as a result of the contemplated transaction but also the financial resources and business motivation of the acquirer and the dynamics and business climate when the offer of the proposal is in progress. Since such investments are ordinarily short-term in nature, they will tend to increase the turnover rate of the Fund, thereby increasing its brokerage and other transaction expenses. The Adviser intends to select investments of the type described, which, in its view, have a reasonable prospect of capital appreciation that is significant in relation to both risks involved and the potential of available alternate investments. The Adviser may sell a security for a variety of reasons, such as when the security is selling in the public market at or near the Adviser's estimate of its private market value or if the catalyst expected to happen fails to materialize.

The Fund is non-diversified which means it can invest in a limited number of issuers.

For temporary defensive purposes, the Fund may invest, without limit, in cash, money market instruments or high quality short term debt securities, including repurchase agreements. To the extent the Fund is invested in these instruments, the Fund will not be pursuing its investment objective.

Principal Investment Risks

An investment in the Fund is not guaranteed; you may lose money by investing in the Fund. When you sell your shares of the Fund, they could be worth more or less than what you paid for them.

The principal risks presented by the Fund are:

- **Derivatives Risk.** Derivatives are financial contracts whose value is based on the value of an underlying asset, reference rate or index. The Fund's investment in derivatives may rise or fall more rapidly than other investments. These transactions are subject to changes in the value of the underlying security on which such transactions are based. Even a small investment in derivative securities can have a significant impact on the Fund's exposure to stock market values, interest rates or currency exchange rates. Derivatives are subject to a number of risks such as liquidity risk, interest rate risk, market risk, credit risk and portfolio management risk. They also involve the risk of mispricing or improper valuation and the risk that changes in the value of a derivative may not correlate well with the underlying asset, rate or index. The possible lack of a liquid secondary market for derivatives and the resulting inability of the Fund to sell or otherwise close a derivatives position could expose the Fund to losses and could make derivatives more difficult for the Fund to value accurately. These types of transactions will be used primarily as a substitute for taking a position in the underlying asset and/or for hedging purposes. When a derivative security is used as a hedge against an offsetting position that the Fund also holds, any loss generated by the derivative security should be substantially offset by gains on the hedged instrument, and vice versa. To the extent that the Fund uses a derivative security for purposes other than as a hedge, the Fund is directly exposed to the risks of that derivative security and any loss generated by the derivative security will not be offset by a gain.
- **Equity Risk.** Stocks and other equity securities generally fluctuate in value more than bonds and may decline in value over short or extended periods. The value of such securities will change based on changes in a company's financial condition and in overall market and economic conditions. The stock market has been subject to significant volatility recently which has increased the risks associated with an investment in the Fund.
- **Foreign Investing and Emerging Markets Risk.** The value of the Fund's investments in foreign securities may fall due to adverse political, social and economic developments abroad and

decreases in foreign currency values relative to the U.S. dollar. Foreign markets also may be less liquid and more volatile than U.S. markets. These risks are greater generally for investments in emerging market issuers than for issuers in more developed countries.

- **Issuer-Specific Risk.** The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the market as a whole. The Fund could lose all of its investment in a company's securities.
- **Large-Capitalization Risk.** Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Many larger companies also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.
- **Merger Risk.** In general, securities of companies which are the subject of a tender or exchange offer or a merger, consolidation, liquidation or reorganization proposal sell at a premium to their historic market price immediately prior to the announcement of an offer for the company. However, it is possible that the value of securities of a company involved in such a transaction will not rise and in fact may fall, in which case the Fund would lose money. It is also possible that the Adviser's assessment that a particular company is likely to be acquired or acquired during a specific time frame may be incorrect, in which case the Fund may not realize any premium on its investment and could lose money if the value of the securities declines during the Fund's holding period. The Fund's return also could be adversely impacted to the extent that the Adviser's strategies fail to identify companies for investment by the Fund that become the subject of a merger or similar transaction that results in an increase in the value of the securities of those companies. Moreover, publicly announced mergers and similar types of transactions may be renegotiated or terminated, in which case the Fund may lose money. In addition, if a transaction takes longer time to close than the Adviser originally anticipated, the Fund may realize a lower than expected rate of return.
- **Non-Diversification Risk.** The Fund is non-diversified, which means that the proportion of its assets that may be invested in the securities of a single issuer is not limited by the Investment Company Act of 1940, as amended (the "1940 Act"). As a non-diversified mutual fund, more of the Fund's assets may be focused in the common stocks of a small number of issuers, which may make the value of the Fund's shares more sensitive to changes in the market value of a single issuer or industry than shares of a diversified mutual fund. The use of such a focused investment strategy may increase the volatility of the Fund's investment performance, as the Fund may be more susceptible to risks associated with a single economic, political or regulatory event than a diversified fund. If the securities in which the Fund invests perform poorly, the Fund could incur greater losses than it would have had it been invested in a greater number of securities.
- **Portfolio Management Risk.** The risk that the strategies used by the Adviser and its securities selections fail to produce the intended result.
- **Portfolio Turnover Risk.** High portfolio turnover may result in increased transaction costs to the Fund, which may result in higher fund expenses and lower total returns. The sale of portfolio securities also may result in the recognition of capital gain, which will be taxable to shareholders when distributed to them, or loss. Given the frequency of sales, any such net gain may be short-term capital gain or loss. Unlike long-term capital gain, short-term capital gain is taxable to individuals at the same rates as ordinary income.
- **Small and Mid-Capitalization Risk.** Risk is greater for the securities of small- and mid-capitalization companies because they generally are more vulnerable than larger companies to adverse business or economic developments and they may have more limited resources. The securities of small- and mid-capitalization companies also may trade less frequently and in smaller volume than larger companies. As a result, the value of such securities may be more volatile than the

securities of larger companies, and the Fund may experience difficulty in purchasing or selling such securities at the desired time and price. In general, these risks are greater for small-capitalization companies than for mid-capitalization companies

More information about the risks of an investment in the Fund is provided below in “Investment and Risk Information.”

You May Want to Invest in the Fund if:

- you are a long-term investor
- you seek both growth of capital and some income
- you believe that the market will favor growth over value stocks over the long term
- you wish to include a growth strategy as a portion of your overall investments

You May Not Want to Invest in the Fund if:

- you are seeking a high level of current income
- you are conservative in your investment approach
- you seek stability of principal more than growth of capital

Performance:

The bar chart and table that follow provide an indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual returns for one year, five years, and since inception compare with those of a broad-based securities market index. Class A, Class B, Class C, and Class Y Shares all commenced their offering on February 28, 2001. All the classes of the Fund’s shares are invested in the same portfolio of securities. The annual returns of the different classes of shares will differ only to the extent that the expenses of the classes differ. Average annual total returns for one year, five years, and since inception have been adjusted to reflect actual sales loads, but have not been adjusted to reflect differences in service and/or distribution fees. The following bar chart illustrates the annual returns for Class A Shares. The performance for the Class B and Class C Shares would have been lower and the performance for Class Y Shares would have been higher due to the different expenses associated with these classes of shares. As with all mutual funds, the Fund’s past performance (before and after taxes) does not predict how the Fund will perform in the future. This may be particularly true of the Fund since a different investment adviser was responsible for the management of the Fund prior to March 11, 2008. Both the chart and the table below assume reinvestment of distributions.

GABELLI ENTERPRISE MERGERS AND ACQUISITIONS FUND*
(for the Periods Ended December 31)

During the periods shown in the bar chart, the highest return for a quarter was 7.26% (quarter ended June 30, 2003) and the lowest return for a quarter was (17.79)% (quarter ended December 31, 2008).

Average Annual Total Returns (for the periods ended December 31, 2008)	Past One Year	Past Five Years	Since Inception*
Gabelli Enterprise Mergers and Acquisitions Fund Class A Shares:			
Return Before Taxes	-30.20%	-1.78%	0.54%
Return After Taxes on Distributions	-31.60%	-3.43%	-0.69%
Return After Taxes on Distributions and Sale of Fund Shares	-18.88%	-2.13%	-0.05%
Class B Shares:			
Return Before Taxes	-30.73%	-1.76%	0.61%
Class C Shares:			
Return Before Taxes	-27.83%	-1.36%	0.61%
Class Y Shares:			
Return Before Taxes	-26.37%	-0.36%	1.63%
Standard & Poor's ("S&P") 500 Index**	-36.99%	-2.19%	-2.20%

* Inception date for Classes A, B, C and Y is February 28, 2001.

** The S&P 500 Index is a widely recognized, unmanaged index of common stock prices. Index figures do not reflect any deduction for fees, expenses, or taxes. You cannot invest directly in the S&P 500 Index.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. In some instances, the “Return After Taxes on Distributions and Sale of Fund Shares” may be greater than “Return Before Taxes” because the investor is assumed to be able to use the capital loss from the sale of Fund shares to offset other taxable gains. Actual after-tax returns depend on the investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or Individual Retirement Accounts (“IRAs”). After-tax returns are shown only for Class A Shares and after-tax returns for other classes will vary due to the difference in expenses.

Fees and Expenses of the Fund:

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

	<u>Class A Shares</u>	<u>Class B Shares*</u>	<u>Class C Shares</u>	<u>Class Y Shares</u>
Shareholder Fees (fees paid directly from your investment):				
Maximum Sales Charge (Load) on Purchases (as a percentage of offering price)	4.75% ⁽¹⁾	None	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of redemption price) ⁽⁵⁾	None ⁽²⁾	5.00% ⁽³⁾	1.00% ⁽⁴⁾	None
Redemption Fees (as a percentage of amount redeemed for shares held 7 days or less) payable to the Fund:	2.00%	2.00%	2.00%	2.00%
Annual Fund Operating Expenses (expenses that are deducted from Fund assets):				
Management Fees**	0.935%	0.935%	0.935%	0.935%
Distribution and Service (Rule 12b-1) Fees ⁽⁶⁾	0.45%	1.00%	1.00%	None
Other Expenses ⁽⁷⁾	<u>0.475%</u>	<u>0.475%</u>	<u>0.475%</u>	<u>0.475%</u>
Less Fee Waiver, Expense Reimbursement, and Custodian Fee Credits ⁽⁷⁾	0%	0%	0%	0%
Total Annual Fund Operating Expenses	<u>1.86%</u>	<u>2.41%</u>	<u>2.41%</u>	<u>1.41%</u>

* Class B Shares are no longer available for new investments, except through reinvestments of dividends or capital gains.
 ** Management fees paid to Enterprise Capital Management of 0.880% and an administrative fee of 0.055% of average daily net assets.
 (1) The sales charge declines as the amount invested increases.
 (2) If no sales charge was paid at the time of purchase as part of an investment that is greater than \$1,000,000, shares redeemed within eighteen months of such purchase may be subject to a deferred sales charge of 1.00%. See “Classes of Shares”.
 (3) This sales charge is imposed if you redeem Class B Shares within one year of your purchase. A graduated reduced sales charge is imposed if you redeem your shares within seventy-two months of purchase. Class B shares automatically convert to Class A shares about ninety-six months after purchase. See “Classes of Shares”.
 (4) This sales charge is imposed if you redeem Class C Shares within twelve months after purchase. See “Classes of Shares”.
 (5) “Redemption Price” equals the net asset value at the time of investment or redemption, whichever is lower for Class A, Class B, and Class C Shares.
 (6) Due to the payment of Rule 12b-1 fees, long-term shareholders may indirectly pay more than the equivalent of the maximum permitted front-end sales charge.
 (7) Pursuant to a contract, the Adviser has agreed to make payments or waive its advisory fees to limit the expenses of the fund through March 10, 2010 (“Expense Limitation Agreement”) so that the Net Annual Fund Operating Expenses of the fund (exclusive of taxes, interest, brokerage commissions, capitalized expenses, expenses of other investment companies in which the fund invests and extraordinary expenses) do not exceed 1.90%, 2.45%, 2.45% and 1.45% for Class A, Class B, Class C and Class Y shares, respectively. The Adviser may be reimbursed the amount of any such payments and waivers in the future provided that the payments or waivers are reimbursed within three years of the payment or waiver being made and the combination of the fund’s expense ratio and such reimbursements do not exceed the fund’s expense

cap. The Adviser may discontinue these arrangements at any time after March 10, 2010. For more information on the Expense Limitation Agreement, see "Expense Limitation Agreement." In addition, the Adviser has agreed to provide, at no cost to the fund, the calculation of the net asset value of each class of shares of the fund through March 10, 2010.

Expense Example:

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes (1) you invest \$10,000 in the Fund for the time periods shown, (2) your investment has a 5% return each year, and (3) the Fund's operating expenses remain the same and (4) the expense limitation currently in place is not renewed. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class A Shares				
- assuming redemption	\$655	\$1,032	\$1,433	\$2,551
- assuming no redemption	\$655	\$1,032	\$1,433	\$2,551
Class B Shares				
- assuming redemption	\$744	\$1,051	\$1,485	\$2,610
- assuming no redemption	\$244	\$751	\$1,285	\$2,610
Class C Shares				
- assuming redemption	\$344	\$751	\$1,285	\$2,746
- assuming no redemption	\$244	\$751	\$1,285	\$2,746
Class Y Shares				
- assuming redemption	\$144	\$446	\$771	\$1,691
- assuming no redemption	\$144	\$446	\$771	\$1,691

INVESTMENT AND RISK INFORMATION

Additional Risks

The Fund has principal investment strategies that involve certain inherent risks. The Fund's principal risks are described in its principal investment risks section. The following is a list of additional risks to which the Fund may be subject by investing in various types of securities or engaging in various practices.

- **Credit Quality Risk.** The actual or perceived reduction in the creditworthiness of debt issuers generally will have adverse effects on the values of their debt securities. It is possible that the issuer of a security will not be able to make interest and principal payments when due. Discontinuation of these payments could substantially adversely affect the price of the bond. Lower rated bonds involve greater risks of default or downgrade and are more volatile than investment-grade securities. Lower rated bonds involve a greater risk of price declines than investment-grade securities due to actual or perceived changes to an issuer's creditworthiness. In addition, issuers of lower rated bonds may be more susceptible than other issuers to economic downturns. Lower rated bonds are especially subject to the risk that the issuer may not be able to pay interest and ultimately repay principal upon maturity.
- **Convertible Securities Risk.** The Fund may invest in convertible securities which may include both convertible debt and convertible preferred stock. Such securities may be converted into shares of the underlying common stock at either a stated price or stated rate. Therefore, convertible securities enable the holder to benefit from increases in the market price of the underlying

common stock. Convertible securities provide higher yields than the underlying common stock, but generally offer lower yields than nonconvertible securities of similar quality. The value of convertible securities fluctuates in relation to changes in interest rates and, in addition, fluctuates in relation to the underlying common stock. While no securities investment is without some risk, investments in convertible securities generally entail less risk than the issuer's common stock; however, the extent to which such risk is reduced depends in large measure upon the degree to which the convertible security sells above its value as a fixed income security. A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security held by the Fund is called for redemption, the Fund will be required to permit the issuer to redeem the security, convert it into underlying common stock or sell it to a third party. Investments by the Fund in convertible debt securities are not subject to any ratings restrictions, although the Adviser will consider such ratings, and any changes in such ratings, in its determination of whether the Fund should invest and/or continue to hold the securities. The credit standing of the issuer and other factors may have an effect on a convertible security's investment value. Convertible securities rank senior to common stock in a corporation's capital structure, but are usually subordinated to comparable non-convertible securities. Convertible securities are subject to interest rate risk and credit risk and are often lower-quality securities.

- **Currency Risk.** The risk that fluctuations in the exchange rates between the U.S. dollar and foreign currencies may negatively affect an investment. A change in the value of any such currency against the U.S. dollar will result in a change in the U.S. dollar value of the Fund's assets and income.
- **Illiquid and Restricted Securities Risk.** The Fund may invest in illiquid and restricted securities. Illiquid securities are securities that the Fund cannot sell on an open market. This means that the Fund might not be able to sell an illiquid security when it desires and that it might be difficult to value such a security. Restricted securities are securities that are subject to contractual restrictions on resale. Such a restriction could limit a security's liquidity.
- **Information Risk.** The risk that key information about a security is inaccurate or unavailable.
- **Interest Rate Risk.** When interest rates decline, the value of the Fund's debt securities generally will rise. Conversely, when interest rates rise, the value of the Fund's debt securities generally declines. The magnitude of the decline will often be greater for longer-term debt securities than shorter-term debt securities.
- **Lending Risk.** The Fund may lend portfolio securities with a value of up to 33⅓% of the Fund's total assets, including collateral received for securities lent. If the Fund lends securities, there is a risk that the securities will not be available to the Fund on a timely basis, and the Fund, therefore, may lose the opportunity to sell the securities at a desirable price. In addition, as with other extensions of secured credit, there is the risk of possible delay in receiving additional collateral or in the recovery of the securities, possible loss of rights in the collateral should the borrower fail financially or a decline in the value of the collateral held by a fund.
- **Leverage Risk.** The risk associated with securities or practices (e.g., borrowing) that multiply small price movements into large changes in value.
- **Liquidity Risk.** The risk that certain securities may be difficult or impossible to sell at the time and the price that the Adviser would like. This may result in a loss or may be costly to the Fund.
- **Market Risk.** The risk that the securities markets will move down, sometimes rapidly and unpredictably based on overall economic conditions and other factors.
- **Opportunity Risk.** The risk of missing out on an investment opportunity because the assets necessary to take advantage of it are tied up in less profitable investments.

- **Political Risk.** The risk of losses directly attributable to government or political actions.
- **Repurchase Agreements Risk.** The Fund may enter into repurchase agreements under which the Fund purchases a security that a seller has agreed to repurchase from the Fund at a later date at the same price plus interest. If a seller defaults and the security declines in value, the Fund might incur a loss. If the seller declares bankruptcy, the Fund may not be able to sell the security at the desired time.
- **Security Risk.** The risk that the value of a security may move up and down, sometimes rapidly and unpredictably based upon changes in a company's financial condition as well as overall market and economic conditions.
- **Short Sale Risk.** A "short sale" is the sale by the Fund of a security which has been borrowed from a third party on the expectation that the market price will drop. If the price of the security rises, the Fund may have to cover short positions at a higher price than the short sale price, resulting in a loss.
- **Special Situations Risk.** The Fund may use aggressive investment techniques, including seeking to benefit from "special situations," such as mergers, reorganizations, or other unusual events expected to affect a particular issuer. There is a risk that the "special situation" might not occur, which could have a negative impact on the price of the issuer's securities and fail to produce gains or produce a loss for the Fund.
- **Unseasoned Companies Risk.** The Fund may invest in small unseasoned companies. These are companies that have been in operation less than three years, including operation of any predecessors. These securities may have limited liquidity and their prices may be very volatile.
- **Valuation Risk.** The risk that the Fund has valued certain securities higher than it can sell them for.

Additional Investment Strategies

The Fund may also engage in other investment practices in order to achieve its investment objective. These are briefly discussed in the Statement of Additional Information ("SAI") which may be obtained by calling 800-GABELLI (800-422-3554), your broker, or free of charge through the Adviser's website at www.gabelli.com.

- **Derivatives.** The Fund can use "derivative" instruments to seek enhanced returns or to try to hedge investment risks, although it is not anticipated that it will do so to a significant degree. In general terms, a derivative instrument is an investment contract whose value depends on (or is derived from) the value of an underlying asset, reference rate or index. Options, futures contracts and forward are examples of "derivatives."
- **Foreign Investing.** The Fund may invest in foreign securities, including depositary receipts of foreign based companies, and including companies based in developing countries.
- **Portfolio Turnover.** The Fund does not restrict the frequency of trading to limit expenses or to minimize the tax effect that the Fund's distributions may have on shareholders. The Fund may engage in active and frequent trading of portfolio securities to achieve its principal investment strategies. Frequent trading can result in a portfolio turnover in excess of 100% (high portfolio turnover). It is expected that the Fund may have a high portfolio turnover rate.
- **Securities Lending.** For purposes of realizing additional income, the Fund may lend its portfolio securities to broker-dealers approved by the Corporation's Board of Directors. Generally, any such loan of portfolio securities will be continuously secured by collateral at least equal to the value of the security loaned. Such collateral will be in the form of cash, marketable securities issued or guaranteed by the U.S. Government or its agencies, or a standby letter of credit issued

by qualified banks. Loans will only be made to firms deemed by the Adviser to be of good standing and will not be made unless, in the judgment of the Adviser, the consideration to be earned from such loans would justify the risk.

- **Short Sales.** The Fund may engage in short sales. A “short sale” is the sale by the Fund of a security which has been borrowed from a third party on the expectation that the market price will drop. If the price of the security drops, the Fund will make a profit by purchasing the security in the open market at a lower price than at which it sold the security. If the price of the security rises, the Fund may have to cover short positions at a higher price than the short sale price, resulting in a loss. The Fund generally will only engage in covered short sales. In a covered short sale, the Fund either (1) borrows and sells securities it already owns (also known as a short sale “against the box”), or (2) designates on the records of the Adviser, or with the Corporation’s custodian, cash, U.S. government securities, or other liquid securities in an amount equal to the market value of the securities sold short.

Portfolio Holdings. A description of the Fund’s policies and procedures with respect to the disclosure of the Fund’s portfolio securities is available in the Fund’s Statement of Additional Information (“SAI”).

MANAGEMENT OF THE FUND

The Adviser. Gabelli Funds, LLC, with its principal offices located at One Corporate Center, Rye, New York 10580-1422, serves as investment adviser to the Fund. The Adviser makes investment decisions for the Fund and continuously reviews and administers the Fund’s investment program and manages the Fund’s operations under the general supervision of the Fund’s Board of Directors (the “Board”). The Adviser also manages several other open-end and closed-end investment companies in the Gabelli/GAMCO family of funds. The Adviser is a New York limited liability company organized in 1999 as successor to GGCP, Inc., a New York corporation organized in 1980. The Adviser is a wholly owned subsidiary of GAMCO Investors, Inc. (“GBL”), a publicly held company listed on the New York Stock Exchange (“NYSE”).

As compensation for its services and related expenses borne by the Adviser, for the period March 11, 2008 through October 31, 2008, the Fund paid the Adviser a monthly fee at the annual rate of 0.935% of the Fund’s average daily net asset value on the first \$1 billion; 0.910% on the next \$1 billion; 0.8850% on the next \$3 billion; 0.860% on the next \$5 billion; and 0.835% thereafter.

Prior to March 11, 2008, the advisory fee was paid to Enterprise Capital Management, Inc. (“ECM”), the former investment manager of the Fund. The contractual rate of the advisory fee paid to ECM was equal to an annual rate of 0.880% of the Fund’s average daily net asset value on the first \$1 billion; 0.855% on the next \$1 billion; 0.830% on the next \$3 billion; 0.805% on the next \$5 billion; and 0.780% thereafter. In addition, the Fund paid a separate fee for certain administrative services to an affiliate of ECM at an annual rate equal to 0.055% of the Fund’s total average daily net assets. For the period from November 1, 2007, through March 10, 2008, the Fund paid a management fee to ECM of 0.880%. For the period from March 11, 2008, through October 31, 2008, the Fund paid a management fee to the Adviser of 0.935%.

A discussion regarding the basis for the decision by the Corporation’s Board of Directors to approve the investment advisory agreement with Gabelli Funds is available in the Fund’s annual report for the fiscal year ended October 31, 2007.

Expense Limitation Agreement. In the interest of limiting until March 10, 2010, the expenses of the Fund, the Adviser has entered into an expense limitation agreement with the Fund (“Expense Limitation Agreement”). Pursuant to the Expense Limitation Agreement, the Adviser has agreed to waive or limit its

advisory fees and to assume other expenses so that the net annual operating expenses of the Fund (other than interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with generally accepted accounting principles, expenses of other investment companies in which the Fund invests and other extraordinary expenses not incurred in the ordinary course of the Fund's business), are limited to the following respective expense ratios as a percentage of daily net assets: 1.90% for Class A Shares; 2.45% for Class B and Class C Shares; and 1.45% for Class Y Shares.

In addition, the Adviser has agreed to provide, at no cost to the Fund, the calculation of net asset value of each class of shares of the Fund through March 10, 2010.

The Adviser may be reimbursed the amount of any such payments or waivers in the future provided that the payments or waivers are reimbursed within three years of the payment or waiver being made and the combination of the Fund's expense ratio and such reimbursements do not exceed the Fund's expense cap. If the actual expense ratio is less than the expense cap and the Adviser has recouped all eligible previous payments made, the Fund will be charged such lower expenses.

Regulatory Matters. On April 24, 2008, the Adviser entered into an administrative settlement with the Securities and Exchange Commission ("SEC") to resolve the SEC's inquiry regarding prior frequent trading activity in shares of the GAMCO Global Growth Fund (the "Global Growth Fund") by one investor who was banned from the Global Growth Fund in August 2002. In the settlement, the SEC found that the Adviser had violated Section 206(2) of the Investment Advisers Act, Section 17(d) of the Investment Company Act of 1940, as amended (the "1940 Act") and Rule 17d-1 thereunder, and had aided and abetted and caused violations of Section 12(d)(1)(B)(i) of the 1940 Act. Under the terms of the settlement, the Adviser, while neither admitting nor denying the SEC's findings and allegations, agreed, among other things, to pay the previously reserved total of \$16 million (including a \$5 million penalty), of which at least \$11 million will be distributed to shareholders of the Global Growth Fund in accordance with a plan to be developed by an independent distribution consultant, and approved by the independent directors of the Global Growth Fund and the staff of the SEC, and to cease and desist from future violations of the above-referenced federal securities laws. The settlement is not expected to impact the Fund and will not have a material adverse impact on the Adviser or its ability to fulfill its obligations under the investment advisory agreement. On the same day, the SEC filed a civil action against the Executive Vice President and Chief Operating Officer of the Adviser, alleging violations of certain federal securities laws arising from the same matter. The officer is also an officer of the Global Growth Fund and other funds in the Gabelli/GAMCO fund complex, including the Fund. The officer denies the allegations and is continuing in his positions with the Adviser and the funds. The Adviser currently expects that any resolution of the action against the officer will not have a material adverse impact on the Adviser or its ability to fulfill its obligations under the investment advisory agreement.

In a separate matter, on January 12, 2009, the SEC issued an administrative action approving a final settlement of a previously disclosed matter with the Adviser involving compliance with Section 19(a) of the Investment Company Act of 1940 and Rule 19a-1 thereunder by two closed-end funds. These provisions require registered investment companies when making a distribution in the nature of a dividend from sources other than net investment income to contemporaneously provide written statements to shareholders, which adequately disclose the source or sources of such distribution. While the two funds sent annual statements and provided other materials containing this information, the shareholders did not receive the notices required by Rule 19a-1 with any of the distributions that were made for 2002 and 2003. The Adviser believes that the funds have been in compliance with Section 19(a) and Rule 19a-1 since the beginning of 2004. As part of the settlement, in which the Adviser neither admits nor denies the findings by the SEC, the Adviser agreed to pay a civil monetary penalty of \$450,000 and to cease and desist from

causing violations of Section 19(a) and Rule 19a-1. In connection with the settlement, the SEC noted the remedial actions previously undertaken by the Adviser. The staff's notice to the Adviser did not relate to the Fund.

The Portfolio Manager. Mr. Mario J. Gabelli, CFA, is primarily responsible for the day-to-day investment management of the Fund. Mr. Gabelli has been Chairman, Chief Executive Officer, and Chief Investment Officer-Value Portfolios of the Adviser and its predecessor since inception, as well as its parent company, GBL. Mr. Gabelli also acts as Chief Executive Officer and Chief Investment Officer-Value Portfolios of GAMCO Asset Management Inc., a wholly owned subsidiary of GBL, and is an officer or director of various other companies affiliated with GBL. The Adviser relies to a considerable extent on the expertise of Mr. Gabelli, who may be difficult to replace in the event of his death, disability, or resignation.

The Fund's SAI provides additional information about the portfolio manager's compensation, other accounts managed by him, and his ownership of securities in the funds he manages.

CLASSES OF SHARES

The Fund offers Class A, Class B, Class C and Class Y shares to the public. The Fund is not designed for market-timers, see the section entitled "Purchase and Redemption Restrictions on Market-Timers and Active Traders." Each class of shares has different costs associated with buying, selling and holding fund shares. Your broker or other financial professional can assist you in selecting which class of shares best meets your needs based on such factors as the size of your investment and the length of time you intend to hold your shares.

Effective March 1, 2008, no new investments have been allowed in Class B shares in the Fund, except through reinvestment of dividends or capital gains. Except as noted below, all subsequent investments through automatic investment plans will be directed into Class A shares at net asset value. Existing shareholders of Class B shares may continue to hold their Class B shares and reinvest dividends into Class B shares. Existing Class B shareholders wishing to make subsequent purchases in the Fund's shares will be permitted to invest in other classes of the Fund, subject to that class' pricing structure and eligibility requirements, if any. In addition, for Class B shares outstanding as of March 1, 2008, and Class B shares acquired upon reinvestment of dividends or capital gains, all Class B share attributes, including the contingent deferred sales charge ("CDSC") schedule, conversion to Class A schedule, and distribution and service (12b-1) fees, will continue in their current form.

The table that follows summarizes the differences among the classes of shares.

- A "front-end sales load", or sales charge, is a one-time fee charged at the time of purchase of shares.
- A "contingent deferred sales charge" ("CDSC") is a one-time fee charged at the time of redemption.
- A "Rule 12b-1 fee" is a recurring annual fee for distributing shares and servicing shareholder accounts based on the Fund's average daily net assets attributable to the particular class of shares.

In selecting a class of shares in which to invest, you should consider:

- the length of time you plan to hold the shares;
- the amount of sales charge and Rule 12b-1 fees, recognizing that your share of 12b-1 fees as a percentage of your investment increases if the Fund's assets increase in value and decreases if the Fund's assets decrease in value;
- whether you qualify for a reduction or waiver of the Class A sales charge;
- that Class B Shares convert to Class A Shares approximately ninety-six months after purchase;

- whether you qualify to purchase Class Y Shares (direct institutional purchases of \$1,000,000 or more); and
- new investments in Class B Shares are no longer available.

	Class A Shares	Class B Shares	Class C Shares	Class Y Shares
Front End Sales Load?	Yes. The percentage declines as the amount of investment increases.	No.	No.	No.
Contingent Deferred Sales Charge?	No, except for shares redeemed within eighteen months after purchases as part of an investment greater than \$1 million if no front-end sales charge was paid at the time of purchase.	Yes, for shares redeemed within seventy-two months after purchase. Declines over time.	Yes, for shares redeemed within twelve months after purchase.	No.
Rule 12b-1 Fees	0.45%	1.00%	1.00%	None.
Convertible to Another Class?	No.	Yes. Automatically converts to Class A Shares approximately ninety-six months after purchase.	No.	No.
Fund Expense Levels	Lower annual expenses than Class B or Class C Shares. Higher annual expenses than Class Y Shares.	Higher annual expenses than Class A Shares and Class Y Shares.	Higher annual expenses than Class A Shares and Class Y Shares.	Lower annual expenses than Class A, Class B, or Class C Shares.

The following sections include important information about sales charges and sales charge reductions and waivers available to investors in Class A Shares and describe information or records you may need to provide to the Fund or your broker in order to be eligible for sales charge reductions and waivers. Information about sales charges and sales charge reductions and waivers to the various classes of the Fund's shares is also available free of charge and in a clear and prominent format on our website at www.gabelli.com (click on "Mutual Funds – Sales Load and Breakpoint Info").

If you...	then you should consider...
• qualify for a reduced or waived front-end sales load	purchasing Class A Shares instead of Class B Shares or Class C Shares
• do not qualify for a reduced or waived front-end sales load and intend to hold your shares for only a few years	purchasing Class C Shares instead of either Class A Shares or Class B Shares
• do not qualify for a reduced or waived front-end sales load and intend to hold your shares indefinitely	purchasing Class A Shares instead of either Class B Shares or Class C Shares
• are an eligible institution and wish to purchase at least \$1,000,000 worth of shares	purchasing Class Y Shares

Sales Charge — Class A Shares. The sales charge is imposed on Class A Shares at the time of purchase in accordance with the following schedule:

<u>Amount of Investment</u>	<u>Sales Charge as % of the Offering Price*</u>	<u>Sales Charge as % of Amount Invested</u>	<u>Reallowance to Broker-Dealers</u>
Under \$50,000	5.75%	6.10%	5.00%
\$50,000 but under \$100,000	4.75%	4.99%	4.00%
\$100,000 but under \$250,000	3.75%	3.90%	3.00%
\$250,000 but under \$500,000	2.75%	2.83%	2.25%
\$500,000 but under \$1 million	2.00%	2.04%	1.75%
\$1 million but under \$2 million	0.00%**	0.00%	1.00%
\$2 million but under \$5 million	0.00%**	0.00%	0.50%
\$5 million or more	0.00%**	0.00%	0.25%

* Includes front-end sales load.

** Subject to a 1.00% CDSC for eighteen months after purchase if no front-end sales charge was paid at time of purchase.

No sales charge is imposed on reinvestment of distributions selected in advance of the distributions.

Breakpoints or Volume Discounts

The Fund offers you the benefit of discounts on the sales charges that apply to purchases of Class A Shares in certain circumstances. These discounts, which are also known as breakpoints, can reduce or, in some instances, eliminate the initial sales charges that would otherwise apply to your Class A Shares investment. Mutual funds are not required to offer breakpoints and different mutual fund groups may offer different types of breakpoints.

Breakpoints or Volume Discounts allow larger investments in Class A Shares to be charged lower sales charges. If you invest \$50,000 or more in Class A Shares of the Fund, then you are eligible for a reduced sales charge. Initial sales charges are eliminated completely for purchases of \$1,000,000 or more, although a 1% CDSC may apply if shares are redeemed within eighteen months after purchase.

Sales Charge Reductions and Waivers — Class A Shares:

Reduced sales charges are available to (1) investors who are eligible to combine their purchases of Class A Shares to receive Volume Discounts and (2) investors who sign a Letter of Intent agreeing to make purchases over time. Certain types of investors are eligible for sales charge waivers.

You may qualify for a reduced sales charge, or a waiver of sales charges, on purchases of Class A Shares. The requirements are described in the following paragraphs. To receive a reduction that you qualify for, you may have to provide additional information to your broker or other service agent. For more information about sales charge discounts and waivers, consult with your broker or other service provider.

Volume Discounts/Rights of Accumulation. In order to determine whether you qualify for a Volume Discount under the sales charge schedule above, you may combine your new investment and your existing investments in Class A Shares with those of your immediate family (spouse and children under age 21), your and their IRAs, and other employee benefit plans and trusts and other fiduciary accounts for your and their benefit. You may also include Class A Shares of any other open-end investment company managed by the Adviser or its affiliates that are held in any of the foregoing accounts. The Fund uses the current net asset value of these holdings when combining them with your new and existing investments for purposes of determining whether you qualify for a Volume Discount.

Letter of Intent. If you initially invest at least \$1,000 in Class A Shares of the Fund and submit a Letter of Intent (the “Letter”) to your broker or the Distributor, you may make purchases of Class A Shares of the Fund during a 13-month period at the reduced sales charge rates applicable to the aggregate amount of the intended purchases stated in the Letter. The Letter may apply to purchases made up to 90 days before the date of the Letter. If you fail to invest the total amount stated in the Letter, the Fund will retroactively collect the sales charge otherwise applicable by redeeming shares in your account at their then current net asset value per share (“NAV”). For more information on the Letter, call your broker.

Required Shareholder Information and Records. In order for you to take advantage of sales charge reductions, you or your broker must notify the Fund that you qualify for a reduction. Without notification, the Fund is unable to ensure that the reduction is applied to your account. You may have to provide information or records to your broker or the Fund to verify eligibility for breakpoint privileges or other sales charge waivers. This may include information or records, including account statements, regarding shares of the Fund or shares of any other open-end investment company managed by the Adviser or its affiliates held in:

- all of your accounts at the Fund or a broker;
- any account of yours at another broker; and
- accounts of related parties of yours, such as members of the same family, at any broker.

You should therefore keep copies of these types of records.

Investors Eligible for Sales Charge Waivers. Class A Shares of the Fund may be offered without a sales charge to: (1) employees of the Distributor and its affiliates, Bank of New York, Mellon Trust of New England, N.A., Boston Financial Data Services, Inc., State Street Bank and Trust Company, the Fund’s Transfer Agent (“State Street”), PNC Global Investment Servicing (U.S.) Inc., formerly PFPC Inc. and Soliciting Broker-Dealers, employee benefit plans for those employees and their spouses and minor children of such employees when orders on their behalf are placed by such employees (the minimum initial investment for such purchases is \$500); (2) the Adviser, its affiliates and their officers, directors, trustees, general partners and employees of other investment companies managed by the Adviser, employee benefit plans for such persons and their immediate family when orders on their behalf are placed by such persons (with no required minimum initial investment), the term “immediate family” for this purpose refers to a person’s spouse, children and grandchildren (adopted or natural), parents, grandparents, siblings, a spouse’s siblings, a sibling’s spouse, and a sibling’s children; (3) any other investment company in connection with the combination of such company with the Fund by merger, acquisition of assets, or otherwise; (4) shareholders who have redeemed shares in the Fund and who wish to reinvest in the Fund, provided the reinvestment is made within 45 days of the redemption; (5) tax-exempt organizations enumerated in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the “Code”), and private, charitable foundations that in each case make lump-sum purchases of \$100,000 or more; (6) qualified employee benefit plans established pursuant to Section 457 of the Code that have established omnibus accounts with the Fund or an intermediary; (7) qualified employee benefit plans having more than one hundred eligible employees and a minimum of \$1 million in plan assets invested in the Fund; (8) any unit investment trusts registered under the 1940 Act which have shares of the Fund as a principal investment; (9) investment advisory clients of GAMCO Asset Management Inc. and their immediate families; (10) employee participants of organizations adopting the 401K Plan sponsored by the Adviser; (11) financial institutions purchasing Class A Shares of the Fund for clients participating in a fee based asset allocation program or wrap fee program which has been approved by the Fund’s Distributor; and (12) registered investment advisers or financial planners who place trades for their own accounts or the accounts of their clients and who charge a management, consulting, or other fee for their services; and clients of such investment advisers or finan-

cial planners who place trades for their own accounts if the accounts are linked to the master account of such investment adviser or financial planner on the books and records of a broker or agent.

Investors who qualify under any of the categories described above should contact their brokerage firm. Some of these investors may also qualify to invest in Class I Shares.

Contingent Deferred Sales Charges

You will pay a CDSC when you redeem:

- Class A Shares within approximately eighteen months of buying them as part of an investment greater than \$1 million if no front-end sales charge was paid at the time of purchase;
- Class B Shares within approximately seventy-two months of buying them; or
- Class C Shares within approximately twelve months of buying them.

The CDSC payable upon redemption of Class A Shares and Class C Shares in the circumstances described above is 1.00%. The CDSC schedule for Class B Shares is set forth below. In each case, the CDSC is based on the NAV at the time of your investment or the NAV at the time of redemption, whichever is lower.

<u>Years Since Purchase</u>	<u>Class B Shares CDSC</u>
First	5.00%
Second	4.00%
Third	3.00%
Fourth	3.00%
Fifth	2.00%
Sixth	1.00%
Seventh and thereafter	0.00%

The Distributor pays sales commissions of up to 1.00% of the purchase price of Class C Shares of the Fund at the time of sale to brokers that initiate and are responsible for purchases of such Class C Shares of the Fund.

You will not pay a CDSC to the extent that the value of the redeemed shares represents reinvestment of distributions or capital appreciation of shares redeemed. When you redeem shares, we will assume that you are first redeeming shares representing reinvestment of distributions, then any appreciation on shares redeemed, and then any remaining shares held by you for the longest period of time. We will calculate the holding period of shares acquired through an exchange of shares of another fund from the date you acquired the original shares of the other fund. The time you hold shares in a Gabelli money market fund, however, will not count for purposes of calculating the applicable CDSC.

We will waive the CDSC payable upon redemptions of shares for:

- redemptions and distributions from retirement plans made after the death or disability of a shareholder;
- minimum required distributions made from an IRA or other retirement plan account after you reach age 70½;
- involuntary redemptions made by the Fund;
- a distribution from a tax-deferred retirement plan after your retirement; and
- returns of excess contributions to retirement plans following the shareholder’s death or disability.

Conversion Feature — Class B Shares:

- Class B Shares automatically convert to Class A Shares of the Fund on the first business day of the ninety-seventh month following the month in which you acquired such shares.

- After conversion, your shares will be subject to the lower Rule 12b-1 fees charged on Class A Shares, which will increase your investment return compared to the Class B Shares.
- You will not pay any sales charge or fees when your shares convert, nor will the transaction be subject to any tax.
- The dollar value of Class A Shares you receive will equal the dollar value of the Class B Shares converted.
- If you exchange Class B Shares of one fund for Class B Shares of another fund, your holding period for calculating the CDSC will be from the time of your original purchase of Class B Shares. If you exchange shares into a Gabelli money market fund, however, your holding period will be suspended.

The Fund’s Board may suspend the automatic conversion of Class B Shares to Class A Shares for legal reasons or due to the exercise of its fiduciary duty. If the Board determines that such suspension is likely to continue for a substantial period of time, it will create another class of shares into which Class B Shares are convertible.

Rule 12b-1 Plan. The Fund has adopted distribution plans under Rule 12b-1 (the “Plans”) for Class A, Class B, and Class C Shares of the Fund (each a “Plan”). Under these Plans, the Fund may use its assets to finance activities relating to the sale of its Class A, Class B, and Class C Shares and the provision of certain shareholder services.

For the Class A, Class B, and Class C Shares covered by this Prospectus, the Rule 12b-1 fees vary by class as follows:

	<u>Class A</u>	<u>Class B</u>	<u>Class C</u>
Service Fees	0.25%	0.25%	0.25%
Distribution Fees	0.20%	0.75%	0.75%

These are annual rates based on the value of each of these Classes’ average daily net assets. Because the Rule 12b-1 fees are higher for Class B and Class C Shares than for Class A Shares, Class B and Class C Shares will have higher annual expenses. Because Rule 12b-1 fees are paid out of the Fund’s assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Generally, if you sell or exchange your shares within seven (7) days or less after the purchase date, you will be charged a redemption fee of 2.00% of the total redemption amount which is payable to the Fund. See “Redemption of Shares” herein.

PURCHASE OF SHARES

You can purchase the Fund’s shares on any day the NYSE is open for trading (a “Business Day”). You may purchase shares directly through registered broker-dealers, banks, or other financial intermediaries that have entered into appropriate selling agreements with the Fund’s Distributor.

The broker-dealer, bank, or other financial intermediary will transmit a purchase order and payment to State Street on your behalf. Broker-dealers, banks, or other financial intermediaries may send you confirmations of your transactions and periodic account statements showing your investments in the Fund.

Presently, Class B Shares may only be acquired through an exchange of Class B Shares of another Gabelli/GAMCO fund.

- **By Mail or In Person.** Your broker-dealer, bank, or financial intermediary can obtain a subscription order form by calling 800-GABELLI (800-422-3554). Checks made payable to a third party and endorsed by the depositor are not acceptable. For additional investments, send a check

to the following address with a note stating your exact name and account number, the name of the Fund(s), and class of shares you wish to purchase.

By Mail

The Gabelli Funds

30 Dan Road
Canton, MA 02021-2809

- **By Bank Wire.** To open an account using the bank wire transfer system, first telephone the Fund at 800-GABELLI (800-422-3554) to obtain a new account number. Then instruct a Federal Reserve System member bank to wire funds to:

State Street Bank and Trust Company
225 Franklin Street, Boston, MA 02110
ABA #011-0000-28 REF DDA #99046187
Re: Gabelli Enterprise Mergers and Acquisitions Fund
Account # _____
Account of [Registered Owners]

If you are making an initial purchase, you should also complete and mail a subscription order form to the address shown under “By Mail.” Note that banks may charge fees for wiring funds, although State Street will not charge you for receiving wire transfers.

Share Price. The Fund sells its shares based on the NAV next determined after the time as of which the Fund receives your completed subscription order form and your payment, subject to an up-front sales charge in the case of Class A Shares. See “Pricing of Fund Shares” for a description of the calculation of the NAV, as described under “Classes of Shares-Sales Charge-Class A Shares”.

Minimum Investments. Your minimum initial investment must be at least \$1,000 for Class A, Class B, and Class C Shares. See “Retirement Plans/Education Savings Plans” and “Automatic Investment Plan” under “Additional Purchase Information for Class A Shares, Class B Shares, and Class C Shares” regarding minimum investment amounts applicable to such plans.

Your minimum initial investment for Class Y Shares must be at least \$1,000,000. The minimum initial investment for Class Y Shares is waived for employee benefit plans with assets of at least \$50 million.

There is no minimum for subsequent investments. Broker-dealers may have different minimum investment requirements.

General. State Street will not issue share certificates unless you request them. The Fund reserves the right to (i) reject any purchase order if, in the opinion of the Fund’s management, it is in the Fund’s best interest to do so, (ii) suspend the offering of shares for any period of time, and (iii) waive the Fund’s minimum purchase requirements.

Customer Identification Program. Federal law requires the Fund to obtain, verify, and record identifying information, which may include the name, residential, or business street address, date of birth (for an individual), social security or taxpayer identification number, or other identifying information, for each investor who opens or reopens an account with the Fund. Applications without the required information may be rejected or placed on hold until the Fund verifies the account holder’s identity.

Third Party Arrangements. In addition to, or in lieu of, amounts paid to brokers, dealers, or financial intermediaries as a re-allowance of a portion of the sales commission, the Adviser or an affiliate may, from time to time, at its expense out of its own financial resources (a source of which may be payments under the Fund’s distribution plans), make cash payments to some but not all brokers, dealers, or financial intermediaries for shareholder services, as an incentive to sell shares of the Fund, and/or to promote

retention of their customers' assets in the Fund. These payments, sometimes referred to as "revenue sharing", do not change the price paid by investors to purchase the Fund's shares or the amount the Fund receives as proceeds from such sales. Revenue sharing payments may be made to brokers, dealers, and other financial intermediaries that provide services to the Fund or to shareholders in the Fund, including (without limitation) shareholder servicing, transaction processing, subaccounting services, marketing support, and/or access to sales meetings, sales representatives, and management representatives of the broker, dealer, or other financial intermediary. Revenue sharing payments may also be made to brokers, dealers, and other financial intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, in other sales programs, or as an expense reimbursement in cases where the broker, dealer, or other financial intermediary provides shareholder services to Fund shareholders. These payments may take a variety of forms, including (without limitation) compensation for sales, "trail" fees for shareholder servicing and maintenance of shareholder accounts, and finder's fees that vary depending on the share class and the dollar amount of shares sold. Revenue sharing payments may be structured: (i) as a percentage of net sales; (ii) as a percentage of net assets; and/or (iii) as a fixed dollar amount.

The Adviser or an applicable affiliate may also provide non-cash compensation to broker/dealer firms or other financial intermediaries, in accordance with applicable rules of the Financial Industry Regulatory Authority ("FINRA"), such as the reimbursement of travel, lodging, and meal expenses incurred in connection with attendance at educational and due diligence meetings or seminars by qualified registered representatives of those firms and, in certain cases, their families; meeting fees; certain entertainment; reimbursement for advertising or other promotional expenses; or other permitted expenses as determined in accordance with applicable FINRA rules. In certain cases these other payments could be significant.

The Adviser or an applicable affiliate negotiates the level of payments described above to any particular broker, dealer, or other financial intermediary with each firm. Currently, such payments range from 0.10% to 0.40% per year of the average daily net assets of the Fund attributable to the particular firm depending on the nature and level of services and other factors.

Additional Purchase Information for Class A Shares, Class B Shares, and Class C Shares

Retirement Plans/Education Savings Plans. The Fund makes available IRA, "Roth" IRA, and "Coverdell" Education Savings Plans for investment in Fund shares. Applications may be obtained from the Distributor by calling 800-GABELLI (800-422-3554). Self-employed investors may purchase shares of the Fund through tax-deductible contributions to existing retirement plans for self-employed persons, known as "Keogh" or "H.R.-10" plans. The Fund does not currently act as a sponsor to such plans. Fund shares may also be a suitable investment for other types of qualified pension or profit-sharing plans which are employer sponsored, including deferred compensation or salary reduction plans known as "401(k) Plans". The minimum initial investment in all such retirement plans is \$250. There is no minimum for subsequent investments in retirement plans.

Automatic Investment Plan. The Fund offers an automatic monthly investment plan. There is no initial minimum investment for accounts establishing an automatic investment plan. Call the Distributor at 800-GABELLI (800-422-3554) for more details about the plan.

Telephone or Internet Investment Plan. You may purchase additional shares of the Fund by telephone and/or over the Internet if your bank is a member of the Automated Clearing House ("ACH") system. You must also have a completed, approved Investment Plan application on file with the Fund's Transfer Agent. There is a minimum of \$100 for each telephone or Internet investment. However, you may split the \$100

minimum between two funds. To initiate an ACH purchase, please call 800-GABELLI (800-422-3554) or 800-872-5365 or visit our website at www.gabelli.com.

REDEMPTION OF SHARES

You can redeem shares of the Fund on any Business Day. The Fund may temporarily stop redeeming its shares when the NYSE is closed or trading on the NYSE is restricted, when an emergency exists and the Fund cannot sell its shares or accurately determine the value of its assets, or if the SEC orders the Fund to suspend redemptions.

The Fund redeems its shares based on the NAV next determined after the time as of which the Fund receives your redemption request in proper form, subject in some cases to a CDSC, as described under “Classes of Shares – Contingent Deferred Sales Charges” or a redemption fee as described below. See “Pricing of Fund Shares” for a description of the calculation of NAV.

You may redeem shares through a broker-dealer or other financial intermediary that has entered into a selling agreement with the Distributor. The broker-dealer or financial intermediary will transmit a redemption order to State Street on your behalf. The redemption request will be effected at the NAV next determined (less any applicable CDSC) after the Fund receives the request in proper form. If you hold share certificates, you must present the certificates endorsed for transfer.

The Fund is intended for long-term investors and not for those who wish to trade frequently in Fund shares. The Fund believes that excessive short-term trading of Fund shares creates risks for the Fund and its long-term shareholders, including interference with efficient portfolio management, increased administrative and brokerage costs, and potential dilution in the value of Fund shares. In addition, because the Fund may invest in foreign securities traded primarily on markets that close prior to the time the Fund determines its NAV, frequent trading by some shareholders may, in certain circumstances, dilute the value of Fund shares held by other shareholders. This may occur when an event that affects the value of the foreign security takes place after the close of the primary foreign market, but before the time that the Fund determines its NAV. Certain investors may seek to take advantage of the fact that there will be a delay in the adjustment of the market price for a security caused by this event until the foreign market reopens (referred to as price arbitrage). If this occurs, frequent traders who attempt this type of price arbitrage may dilute the value of the Fund’s shares to the extent they receive shares or proceeds based upon NAVs that have been calculated using the closing market prices for foreign securities, if those prices have not been adjusted to reflect a change in the fair value of the foreign securities. In an effort to prevent price arbitrage, the Fund has procedures designed to adjust closing market prices of foreign securities before it calculates its NAV when it believes such an event has occurred that will have more than a minimal effect on the NAV. Prices are adjusted to reflect what the Fund believes are the fair values of these foreign securities at the time the Fund determines its NAV (called fair value pricing). Fair value pricing, however, involves judgments that are inherently subjective and inexact, since it is not possible to always be sure when an event will affect a market price and to what extent. As a result, there can be no assurance that fair value pricing will always eliminate the risk of price arbitrage.

In order to discourage frequent short-term trading in Fund shares, the Fund has adopted policies and procedures which impose a 2.00% redemption fee (short-term trading fee) on Class A, Class B, Class C, and Class Y Shares that are redeemed or exchanged within seven days or less after the date of a purchase. This fee is calculated based on the shares’ aggregate NAV on the date of redemption and deducted from the redemption proceeds. The redemption fee is not a sales charge, it is retained by the Fund, and does not benefit the Fund’s Adviser or any other third party. For purposes of computing the redemption fee, shares will be redeemed in reverse order of purchase (the latest shares acquired will be

treated as being redeemed first). Redemptions to which the fee applies include redemption of shares resulting from an exchange made pursuant to the Fund's exchange privilege. The redemption fee will not apply to redemptions of shares where (i) the shares were purchased through automatic reinvestment of dividends or other distributions, (ii) the redemption is initiated by the Fund, (iii) the shares were purchased through programs that collect the redemption fees at the program level and remit them to the Fund, or (iv) the shares were purchased through programs that the Adviser determines to have appropriate anti-short-term trading policies in place or as to which the Adviser has received assurances that look-through redemption fee procedures or effective anti-short-term trading policies and procedures are in place. While the Fund has entered into information sharing agreements with financial intermediaries which contractually require such financial intermediaries to provide the Fund with information relating to its customers investing in the Fund through non-disclosed or omnibus accounts, the Fund cannot guarantee the accuracy of the information provided to it from financial intermediaries and may not always be able to track short-term trading effected through these financial intermediaries. In addition, because the Fund is required to rely on information provided by the financial intermediary as to the applicable redemption fee, the Fund cannot guarantee that the financial intermediary is always imposing such fee on the underlying shareholder in accordance with the Fund's policies. Subject to the exclusions discussed above, the Fund seeks to apply these policies uniformly.

Certain financial intermediaries may have procedures which differ from those of the Fund to collect the redemption fees or that prevent or restrict frequent trading. Investors should refer to their intermediary's policies on frequent trading restrictions.

The Fund continues to reserve all rights, including the right to refuse any purchase request (including requests to purchase by exchange) from any person or group who, in the Fund's view, is likely to engage in excessive trading or if such purchase is not in the best interest of the Fund and to limit, delay, or impose other conditions on exchanges or purchases. The Fund has adopted a policy of seeking to minimize short-term trading in its shares and monitors purchase and redemption activities to assist in minimizing short-term trading.

In the event that you wish to redeem shares in a registered account established by a broker-dealer or other financial intermediary, and you are unable to contact your broker-dealer or financial intermediary, you may redeem shares by mail. You may mail a letter requesting the redemption of shares to: **The Gabelli Funds, P.O. Box 8308, Boston, MA 02266-8308**. Your letter should state the name of the Fund and the share class, the dollar amount or number of shares you wish to redeem, and your account number. You must sign the letter in exactly the same way the account is registered, and if there is more than one owner of shares, all owners must sign. A signature guarantee is required for each signature on your redemption letter. You can obtain a signature guarantee from financial institutions such as commercial banks, brokers, dealers, and savings associations. A notary public cannot provide a signature guarantee.

Automatic Cash Withdrawal Plan. You may automatically redeem shares on a monthly, quarterly or annual basis if you have at least \$10,000 in your account and if your account is directly registered with State Street. Please call 800-GABELLI (800-422-3554) for more information about this plan.

Involuntary Redemption. The Fund may redeem all shares in your account (other than an IRA) if their value falls below \$1,000 as a result of redemptions (but not as a result of a decline in NAV). You will be notified in writing if the Fund initiates such action and it will allow 30 days for you to increase the value of your account to at least \$1,000.

Reinstatement Privilege. A shareholder in the Fund who has redeemed Class A Shares may reinvest, without a sales charge, up to the full amount of such redemption at the NAV determined at the time of the reinvestment within 45 days of the original redemption. A redemption is a taxable transaction and

a gain or loss may be recognized for federal income tax purposes even if the reinstatement privilege is exercised. However, any loss realized upon the redemption will not be recognized as to the number of shares acquired by reinstatement, except through an adjustment in the tax basis of the shares so acquired within 30 days of the redemption.

Redemption Proceeds. A redemption request received by the Fund will be effected based on the NAV next determined after the time as of which the Fund or, if applicable, its authorized designee receives the request. If you request redemption proceeds by check, the Fund will normally mail the check to you within seven days after receipt of your redemption request. If you purchased your Fund shares by check or through the Automatic Investment Plan, you may not receive proceeds from your redemption until the check clears, which may take up to as many as 10 days following purchase. While the Fund will delay the processing of the redemption payment until the check clears, your shares will be valued at the next determined NAV after receipt of your redemption request.

Redemption in Kind. In certain circumstances, the Fund may pay your redemption proceeds wholly or partially in portfolio securities. Where applicable, payments would be made in portfolio securities only in the rare instance that the Fund's Board believes that it would be in the best interest not to pay redemption proceeds in cash.

EXCHANGE OF SHARES

You can exchange shares of the Fund you hold for shares of the same class of certain other funds managed by the Adviser or its affiliates based on their relative net asset values. You may call your broker to obtain a list of the funds whose shares you may acquire through an exchange. Class B and Class C Shares will continue to age from the date of the original purchase of such shares and will assume the CDSC rate such shares had at the time of exchange. You may also exchange your shares for shares of a money market fund managed by the Adviser or its affiliates, without imposition of any CDSC at the time of exchange. Upon subsequent redemption from such money market fund or the Fund (after re-exchange into the Fund), such shares will be subject to the CDSC calculated by excluding the time such shares were held in a money market fund. The Fund or any of the other funds may impose limitations on, or terminate, the exchange privilege with respect to such fund or any investor at any time.

In effecting an exchange:

- you must meet the minimum investment requirements for the fund whose shares you wish to purchase through exchange;
- if you are exchanging into a fund with a higher sales charge, you must pay the difference at the time of exchange;
- if you are exchanging from a fund with a redemption fee applicable to the redemption involved in your exchange, you must pay the redemption fee at the time of exchange;
- you may realize a taxable gain or loss;
- you should read the prospectus of the fund whose shares you are purchasing through exchange. Call 800-GABELLI (800-422-3554) or visit our website at www.gabelli.com to obtain the prospectus; and
- you should be aware that brokers may charge a fee for handling an exchange for you.

You may exchange shares by telephone, by mail, over the Internet, or through a registered broker-dealer or other financial intermediary.

- **Exchange by Telephone.** You may give exchange instructions by telephone by calling 800-GABELLI (800-422-3554). You may not exchange shares by telephone if you hold share certificates.

- **Exchange by Mail.** You may send a written request for exchanges to: **The Gabelli Funds, P.O. Box 8308, Boston, MA 02266-8308.** Your letter should state your name, your account number, the dollar amount or number of shares you wish to exchange, the name and class of the fund(s) whose shares you wish to exchange, and the name of the fund(s) whose shares you wish to acquire.
- **Exchange through the Internet.** You may also give exchange instructions via the Internet at www.gabelli.com. You may not exchange shares through the Internet if you hold share certificates. The Fund may impose limitations from time to time on Internet exchanges.

The Fund may modify or terminate the exchange privilege at any time. You will be given notice 60 days prior to any material change in the exchange privilege.

Your broker may charge you a processing fee for assisting you in purchasing or redeeming shares of the Fund. This charge is set by your broker and does not benefit the Fund or the Adviser in any way. It would be in addition to the sales charges and other costs, if any, described in this Prospectus and must be disclosed to you by your broker.

PRICING OF FUND SHARES

The Fund's NAV is calculated separately for each class of shares on each Business Day. The NYSE is open Monday through Friday, but currently is scheduled to be closed on New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day and on the preceding Friday or subsequent Monday when a holiday falls on a Saturday or Sunday, respectively.

The Fund's NAV is determined as of the close of regular trading on the NYSE, normally 4:00 p.m., Eastern Time. The NAV of each class is computed by dividing the value of the Fund's net assets (i.e., the value of its securities and other assets less its liabilities, including expenses payable or accrued but excluding capital stock and surplus) attributable to the applicable class of shares by the total number of shares of such class outstanding at the time the determination is made. The price of Fund shares for the purpose of purchase and redemption orders will be based upon the calculation of NAV of each class next made after the time as of which the purchase or redemption order is received in proper form.

Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Adviser.

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of 60 days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than 60 days for which market quotations are readily available are valued at the average of the latest bid and asked

prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons to the valuation and changes in valuation of similar securities, including a comparison of foreign securities to the equivalent U.S. dollar value American Depositary Receipt (“ADR”) securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

DIVIDENDS AND DISTRIBUTIONS

The Fund intends to pay dividends and capital gain distributions, if any, on an annual basis. You may have dividends or capital gain distributions that are declared by the Fund reinvested automatically at NAV in additional shares of the Fund. You will make an election to receive dividends and distributions in cash or Fund shares at the time you first purchase your shares. You may change this election by notifying the Fund or your broker in writing at any time prior to the record date for a particular dividend or distribution. There are no sales or other charges in connection with the reinvestment of dividends and capital gain distributions. Shares purchased through dividend reinvestment will receive a price without a sales charge based on the NAV on the reinvestment date, which is typically the date dividends are paid to shareholders. There is no fixed dividend rate, and there can be no assurance that the Fund will pay any dividends or realize any capital gains or other income. Dividends and distributions may differ for different classes of shares.

TAX INFORMATION

The Fund intends to meet all requirements of the IRC necessary to continue to qualify for treatment as a “regulated investment company” and thus does not expect to pay any federal income tax on net income and capital gains it distributes to its shareholders.

Fund distributions paid to you, whether in cash or reinvested in additional shares, are generally taxable to you (unless you invest through a tax-exempt vehicle such as an IRA or 401(k) plan). Distributions derived from net investment income (including the excess of net short-term capital gain over net long-term capital loss) are generally taxable at ordinary income rates, except that under current law the Fund’s dividends attributable to “qualified dividend income” (i.e., dividends it receives on stock of most U.S. and certain foreign corporations with respect to which the Fund satisfies certain holding period, debt financing and other restrictions) generally are subject to a 15% maximum federal income tax rate for individual shareholders who satisfy those restrictions with respect to the Fund shares on which the dividends were paid. Distributions of net gains from investments that the Fund owns for more than one year and that it designates as capital gain dividends generally are taxable to you as long-term capital gain, regardless of how long you have held fund shares, and also are subject to a 15% maximum federal income tax rate for individual shareholders to the extent the distributions are attributable to net capital gain the Fund recognizes on sales or exchanges of capital assets through its last taxable year beginning before January 1, 2011.

Any gain an individual shareholder recognizes on a redemption of his or her fund shares that have been held for more than one year will qualify for the 15% maximum federal income tax rate described above. If you purchase shares of the Fund shortly before it declares a distribution, a portion of the purchase price may be returned to you as a taxable distribution even though it represents, in effect, a partial return of your investment.

If you receive more than \$10 annually in taxable distributions from the Fund, you will receive a Form 1099 to help you report those distributions and redemption proceeds, if any, that exceed \$600 for the year on your federal income tax return. Be sure to keep that form as a permanent record. A fee may be charged for any duplicate forms that are requested.

You should consult your tax advisor about any federal, state and local taxes that may apply to the distributions and redemption proceeds you receive.

This summary of tax consequences is intended for general information only and is subject to change by legislative or administrative action, and any such change may be retroactive. A more complete discussion of the tax rules applicable to you can be found in the SAI that is incorporated by reference into this Prospectus. You should consult a tax adviser concerning the tax consequences of your investment in the Fund.

MAILINGS TO SHAREHOLDERS

In our continuing efforts to reduce duplicative mail and Fund expenses, we currently send a single copy of prospectuses and shareholder reports to your household even if more than one family member in your household owns the same fund or funds described in the prospectus or report. Additional copies of our prospectuses and reports may be obtained by calling 800-GABELLI (800-422-3554). If you do not want us to continue to consolidate your fund mailings and would prefer to receive separate mailings at any time in the future, please call us at the telephone number above and we will resume separate mailings, in accordance with your instructions within 30 days of your request.

FINANCIAL HIGHLIGHTS

The Financial Highlights table is intended to help you understand the financial performance of the Fund for the past five fiscal years of the Fund's Class A, Class B, Class C, and Class Y Shares. The total returns in the table represent the return that an investor would have earned or lost on an investment in the designated class of Shares (assuming reinvestment of all distributions). This information has been audited by PricewaterhouseCoopers LLP, independent registered public accounting firm, whose report, along with the Fund's financial statements and related notes, are included in the Fund's annual report, which is available upon request.

Gabelli Enterprise Mergers and Acquisitions Fund

† Total return represents aggregate total return of a hypothetical \$1,000 investment at the beginning of the period and sold at the end of the period including reinvestment of distributions and does not reflect applicable sales charges. Total return for a period of less than one year is not annualized.

- (a) Per share amounts have been calculated using the average shares outstanding method.
- (b) Net investment income (loss) ratios do not include a reduction for fees paid indirectly. Including such reduction for fees paid indirectly, the net investment income (loss) ratios for the fiscal years ended October 31, 2007, 2006, and 2005 would have been 0.72%, 1.87%, and 0.47% (Class A), 0.29%, 1.30%, and (0.08)% (Class B), 0.20%, 1.31%, and (0.06)% (Class C), and 1.19%, 2.38%, and 0.92% (Class Y), respectively. For the fiscal year ended October 31, 2008, the effect of the fees paid indirectly was minimal. For the ten months ended October 31, 2004 and the fiscal year ended December 31, 2003 there were no fees paid indirectly.
- (c) The operating expenses ratios do not include a reduction of expense for fees paid indirectly, including such reduction for fees paid indirectly, the expense ratios for the fiscal years ended October 2007, 2006, and 2005 would have been 1.66%, 1.63%, and 1.66% (Class A), 2.21%, 2.18%, and 2.21% (Class B and Class C), and 1.21%, 1.18%, and 1.21% (Class Y), respectively. For the fiscal year ended October 31, 2008, the effect of the fees paid indirectly was minimal. For the ten months ended October 31, 2004 and the fiscal year ended December 31, 2003 there were no fees paid indirectly.
- (d) Amount represents less than \$0.005 per share.
- (e) The Fund incurred interest expense during the fiscal year ended October 31, 2008. If interest expense had not been incurred, the ratio of operating expenses to average net assets would have been 1.79% (Class A), 2.34% (Class B and Class C), and 1.34% (Class Y), respectively.
- (f) The ratios do not include a reduction of expenses for custodian fee credits on cash balances maintained with the custodian. For the fiscal year ended October 31, 2008, the effect of the custodian fee credits was minimal.
- (g) For the ten months ended October 31, 2004. The Fund's fiscal year end changed from December 31 to October 31, effective October 31, 2004.
- (h) Annualized.
- (i) For the fiscal year ended December 31, 2003.

GABELLI FUNDS AND YOUR PERSONAL PRIVACY

Who are we?

The Gabelli/GAMCO Funds are investment companies registered with the Securities and Exchange Commission under the 1940 Act. We are managed by Gabelli Funds, LLC or Teton Advisors, Inc. (formerly Gabelli Advisers, Inc.), which are affiliated with GAMCO Investors, Inc. GAMCO Investors, Inc. is a publicly held company that has subsidiaries which provide investment advisory or brokerage services for a variety of clients.

What kind of non-public information do we collect about you if you become a Gabelli customer?

If you apply to open an account directly with us, you will be giving us some non-public information about yourself. The non-public information we collect about you is:

- *Information you give us on your application form.* This could include your name, address, telephone number, social security number, bank account number, and other information.
- *Information about your transactions with us, any transactions with our affiliates, and transactions with the entities we hire to provide services to you.* This would include information about the shares that you buy or redeem. If we hire someone else to provide services — like a transfer agent — we will also have information about the transactions you conduct through them.

What information do we disclose and to whom do we disclose it?

We do not disclose any non-public personal information about our customers or former customers to anyone, other than our affiliates, our service providers who need to know such information, and as otherwise permitted by law. If you want to find out what the law permits, you can read the privacy rules adopted by the Securities and Exchange Commission. They are in volume 17 of the Code of Federal Regulations, Part 248. The Securities and Exchange Commission often posts information about its regulations on its website, www.sec.gov.

What do we do to protect your personal information?

We restrict access to non-public personal information about you to the people who need to know that information in order to provide services to shareholders of the Fund and to ensure that we are complying with the laws governing the securities business. We maintain physical, electronic, and procedural safeguards to keep your personal information confidential.

This is not part of the Prospectus.

Gabelli Enterprise Mergers and Acquisitions Fund

Class A, B, C, and Y Shares

For More Information:

For more information about the Fund, the following documents are available free upon request:

Annual/Semi-annual Reports:

The Fund's semi-annual and audited annual reports to shareholders contain additional information on the Fund's investments. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year.

Statement of Additional Information (SAI):

The SAI provides more detailed information about the Fund, including its operations and investment policies. It is incorporated by reference, and is legally considered a part of this Prospectus.

You can obtain free copies of these documents and prospectuses of other funds in the Gabelli/GAMCO family, or request other information and discuss your questions about the Fund by mail, toll-free phone, or the internet as follows:
