PROSPECTUS

February 28, 2018

The Securities and Exchange Commission has not approved or disapproved the shares described in this Prospectus or determined whether this Prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

SUMMARY OF THE FUND

Investment Objective

The Fund seeks to provide capital appreciation.

Fees and Expenses of the Fund:

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you or your family invest, or agree to invest in the future, at least \$50,000 in Class A shares of the Fund. More information about these and other discounts is available from your financial professional and in the section entitled, "Classes of Shares" on page 16 of the prospectus, in the section entitled, "Purchase and Pricing of Shares" in the Fund's Statement of Additional Information ("SAI"), and in Appendix A, "Sales Charge Reductions and Waivers Available through Certain Intermediaries," attached to the prospectus.

	<u>Class AAA Shares</u>	<u>Class A Shares</u>	<u>Class C Shares</u>	<u>Class T Shares</u>	<u>Class Y Shares</u>
Shareholder Fees					
(fees paid directly from your investment):					
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price) . . .	None	5.75%	None	2.50%	None
Maximum Deferred Sales Charge (Load) (as a percentage of redemption or offering price, whichever is lower)	None	None	1.00%	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends (as percentage of amount invested)	None	None	None	None	None
Redemption Fees (as a percentage of amount redeemed for shares held 7 days or less)	2.00%	2.00%	2.00%	2.00%	2.00%
Exchange Fee	None	None	None	None	None
Annual Fund Operating Expenses					
(expenses that you pay each year as a percentage of the value of your investment):					
Management Fees	0.94%	0.94%	0.94%	0.94%	0.94%
Distribution and Service (Rule 12b-1) Fees	0.25%	0.45%	1.00%	0.25%	None
Other Expenses	<u>0.32%</u>	<u>0.32%</u>	<u>0.32%</u>	<u>0.32%</u>	<u>0.32%</u>
Total Annual Fund Operating Expenses	<u>1.51%</u>	<u>1.71%</u>	<u>2.26%</u>	<u>1.51%</u>	<u>1.26%</u>

Expense Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in shares of the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that you

investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class AAA Shares	\$154	\$ 477	\$ 824	\$1,802
Class A Shares	\$739	\$1,083	\$1,450	\$2,478
Class C Shares	\$329	\$ 706	\$1,210	\$2,595
Class T Shares	\$400	\$ 715	\$1,053	\$2,006
Class Y Shares	\$128	\$ 400	\$ 692	\$1,523

You would pay the following expenses if you did not redeem your shares of the Fund:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class AAA Shares	\$154	\$ 477	\$ 824	\$1,802
Class A Shares	\$739	\$1,083	\$1,450	\$2,478
Class C Shares	\$229	\$ 706	\$1,210	\$2,595
Class T Shares	\$400	\$ 715	\$1,053	\$2,006
Class Y Shares	\$128	\$ 400	\$ 692	\$1,523

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when the Fund's shares are held in a taxable account. These costs, which are not reflected in the annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 113% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund intends to invest primarily in equity securities of companies believed to be likely acquisition targets within twelve to eighteen months. The Fund also may engage in arbitrage transactions by investing in the equity securities of companies that are involved in publicly announced mergers, takeovers, tender offers, leveraged buyouts, spin-offs, liquidations, and other corporate reorganizations. When a company agrees to be acquired by another company, its stock price often quickly rises to just below the stated acquisition price. If Gabelli Funds, LLC (the "Adviser") determines that the acquisition is likely to be consummated on schedule at the stated acquisition price, then the Fund may purchase (if it does not already hold) or increase its investment in the selling company's securities, offering the Fund the possibility of returns in excess of the return on cash equivalents with a limited risk of excessive loss of capital. At times, the stock of the acquiring company also may be purchased or sold short. The Fund may hold a significant portion of its assets in cash in anticipation of arbitrage opportunities.

The Fund may invest in companies of any size and from time to time may invest primarily in companies with large, medium, or small market capitalizations. The Fund generally invests in securities of U.S. companies, but also may invest its assets in foreign securities, including emerging market securities. The Fund may engage in various portfolio strategies, including using derivatives, to seek enhanced returns or to hedge investment risks.

The Fund intends to invest primarily in common stocks, but it may also invest in other securities that the Adviser believes provide opportunities for capital appreciation, such as preferred stocks, warrants, and securities convertible into common stock, including convertible securities which are generally below investment grade. The Fund may also invest in debt securities, including debt securities which are below investment grade (“junk bonds”). It is expected that the Fund will engage in active or frequent trading of portfolio securities to achieve its investment objective.

In choosing investments, the Adviser searches for the best values on securities that it believes have the potential to achieve the Fund’s investment objective of capital appreciation. In seeking to identify companies that are likely to be acquisition targets, the Adviser considers, among other things, consolidation trends within particular industries, whether a particular industry or company is undergoing a fundamental change or restructuring, the Adviser’s assessment of the “private market value” of individual companies and the potential for an event or catalyst to occur that enhances a company’s underlying value. The “private market value” of a company is the value that the Adviser believes informed investors would be willing to pay to acquire the entire company. The Adviser seeks to limit risk of excessive loss of capital by utilizing various investment strategies, including investing in value oriented equity securities that should trade at a significant discount to the Adviser’s assessment of their private market value.

In evaluating arbitrage opportunities with respect to companies involved in publicly announced mergers or other corporate restructurings, the Adviser seeks to identify investments in companies where the discount from the stated or appraised value of the security significantly overstates the risk of the contingencies involved in completing the transaction, significantly undervalues the securities, assets or cash to be received by shareholders of the prospective portfolio company as a result of the contemplated transaction, or fails adequately to recognize the possibility that the offer or proposal may be replaced or superseded by an offer or proposal of greater value. The evaluation of such contingencies requires unusually broad knowledge and experience on the part of the Adviser which must appraise not only the value of the issuer and its component businesses as well as the assets or securities to be received as a result of the contemplated transaction but also the financial resources and business motivation of the acquirer and the dynamics and business climate when the offer of the proposal is in progress. Since such investments are ordinarily short term in nature, they will tend to increase the turnover rate of the Fund, thereby increasing its brokerage and other transaction expenses. The Adviser intends to select investments of the type described, which, in its view, have a reasonable prospect of capital appreciation that is significant in relation to both risks involved and the potential of available alternate investments. The Adviser may sell a security for a variety of reasons, such as when the security is selling in the public market at or near the Adviser’s estimate of its private market value or if the catalyst expected to happen fails to materialize.

The Fund is non-diversified which means it may focus its investments in a limited number of issuers.

Principal Risks

You may want to invest in the Fund if:

- you are a long term investor
- you seek both growth of capital and some income
- you believe that the market will favor value over growth stocks over the long term
- you wish to include a value strategy

The Fund's share price will fluctuate with changes in the market value of the Fund's portfolio securities. Your investment in the Fund is not guaranteed; you may lose money by investing in the Fund. When you sell Fund shares, they may be worth more or less than what you paid for them.

Investing in the Fund involves the following risks:

- **Credit Risk.** The Fund's investments are subject to the risk that issuers and/or counterparties will fail to make payments when due or default completely. Prices of the Fund's investments may be adversely affected if any of the issuers or counterparties it is invested in are subject to an actual or perceived deterioration in their credit quality. Credit spreads may increase, which may reduce the market values of the Fund's securities. Credit spread risk is the risk that economic and market conditions or any actual or perceived credit deterioration may lead to an increase in the credit spreads (i.e., the difference in yield between two securities of similar maturity but different credit quality) and a decline in price of the issuer's securities.
- **Convertible Securities Risk.** Convertible securities provide higher yields than the underlying common stock, but generally offer lower yields than nonconvertible securities of similar quality. The value of convertible securities fluctuates in relation to changes in interest rates and, in addition, fluctuates in relation to the underlying common stock.
- **Derivatives Risk.** Derivatives may be riskier than other types of investments and may increase the Fund's volatility. Derivatives may experience large, sudden, or unpredictable changes in liquidity and may be difficult to sell or unwind. Derivatives can also create investment exposure that exceeds the initial amount invested (leverage risk) — consequently, derivatives may experience very large swings in value. The Fund may lose more money using derivatives than it would have lost if it had invested directly in the underlying security or asset on which the value of a derivative is based. Derivatives may not perform as expected, so the Fund may not realize the intended benefits. When used for hedging, the change in value of a derivative may not correlate as expected with the currency, security, or other risk being hedged. Derivatives may be difficult to value and may expose the Fund to risks of mispricing. In addition, derivatives are subject to extensive government regulation, which may change frequently and significantly impact the Fund.
- **Equity Market Risk.** The price of equity securities may rise or fall because of changes in the broad market or changes in a company's financial condition, sometimes rapidly or unpredictably. These price movements may result from factors affecting individual companies, sectors, or industries selected for the Fund's portfolio or the securities market as a whole, such as changes in economic or political conditions. When the value of the Fund's securities goes down, your investment in the Fund decreases in value.
- **Foreign Securities Risk.** Investments in foreign securities involve risks relating to political, social, and economic developments abroad, as well as risks resulting from the differences between the regulations to which U.S. and foreign issuers and markets are subject. These risks include expropriation, differing accounting and disclosure standards, currency exchange risks, settlement difficulties, market illiquidity, difficulties enforcing legal rights, and greater transaction costs. These risks are more pronounced in the securities of companies located in emerging markets.

-
- **High Yield or “Junk” Securities Risk.** High yield securities are typically issued by companies that are highly leveraged, less creditworthy, or financially distressed and are considered to be mostly speculative in nature (high risk), subject to greater liquidity risk, and subject to a greater risk of default than higher rated securities. High yield securities may be more volatile than investment grade securities.
 - **Interest Rate Risk.** The Fund's investments in fixed income securities will change in value based on changes in interest rates. If rates increase, the value of these investments generally declines. Securities with greater interest rate sensitivity and longer maturities generally are subject to greater fluctuations in value. Given the historically low interest rate environment, risks associated with rising rates are heightened.
 - **Issuer-Specific Risk.** The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the market as a whole. The Fund could lose all of its investment in a company's securities.
 - **Large-Capitalization Risk.** Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Many larger companies also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.
 - **Leverage Risk.** The risk associated with securities or practices, *e.g.*, borrowing, that multiply small price movements into large changes in value.
 - **Liquidity Risk.** The risk that certain securities (particularly illiquid securities and restricted securities) may be difficult or impossible to sell at the time and the price that the Adviser would like. This may result in a loss or may be costly to the Fund.
 - **Management Risk.** If the portfolio manager is incorrect in his assessment of the growth prospects of the securities the Fund holds, then the value of the Fund's shares may decline.
 - **Market Risk.** The risk that the securities markets will move down, sometimes rapidly and unpredictably based on overall economic conditions and other factors.
 - **Merger Risk.** In general, securities of companies which are the subject of a tender or exchange offer or a merger, consolidation, liquidation, or reorganization proposal sell at a premium to their historic market price immediately prior to the announcement of an offer for the company. However, it is possible that the value of securities of a company involved in such a transaction will not rise and in fact may fall, in which case the Fund would lose money. It is also possible that the Adviser's assessment that a particular company is likely to be acquired or acquired during a specific time frame may be incorrect, in which case the Fund may not realize any premium on its investment and could lose money if the value of the securities declines during the Fund's holding period.
 - **Non-Diversification Risk.** As a non-diversified mutual fund, more of the Fund's assets may be focused in the common stocks of a small number of issuers, which may make the value of the Fund's shares more sensitive to changes in the market value of a single issuer or industry than shares of a diversified mutual fund.

-
- **Portfolio Turnover Risk.** High portfolio turnover may result in increased transaction costs to the Fund, which may result in higher fund expenses and lower total returns. The sale of portfolio securities also may result in the recognition of capital gain, which will be taxable to shareholders when distributed to them, or loss.
 - **Short Sale Risk.** A “short sale” is the sale by the Fund of a security which has been borrowed from a third party on the expectation that the market price will drop. If the price of the security rises, the Fund may have to cover short positions at a higher price than the short sale price, resulting in a loss.
 - **Small and Mid-Capitalization Risk.** Risk is greater for the securities of small and mid-capitalization companies (including small unseasoned companies that have been in operation less than three years) because they generally are more vulnerable than larger companies to adverse business or economic developments and they may have more limited resources. The securities of small and mid-capitalization companies also may trade less frequently and in smaller volume than larger companies. As a result, the value of such securities may be more volatile than the securities of larger companies, and the Fund may experience difficulty in purchasing or selling such securities at the desired time and price.
 - **Special Situations Risk.** The Fund may use aggressive investment techniques, including seeking to benefit from “special situations,” such as mergers, reorganizations, or other unusual events expected to affect a particular issuer. There is a risk that the “special situation” might not occur, which could have a negative impact on the price of the issuer’s securities and fail to produce gains or produce a loss for the Fund.

Performance

The bar chart and table that follow provide an indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual returns for one year, five years, and ten years compared with those of a broad based securities market index. As with all mutual funds, the Fund’s past performance (before and after taxes) does not predict how the Fund will perform in the future. Prior to March 11, 2008, the Fund had a different investment adviser, although the same portfolio manager has been responsible for the day to day management of the Fund since inception. Updated information on the Fund’s results can be obtained by visiting www.gabelli.com.

GABELLI ENTERPRISE MERGERS AND ACQUISITIONS FUND
(Total Returns for Class A Shares for the Years Ended December 31)*

* Sales loads are not reflected in the above chart. If sales loads were reflected, the Fund's returns would be less than those shown.

During the calendar years shown in the bar chart, the highest return for a quarter was 19.12% (quarter ended June 30, 2009) and the lowest return for a quarter was (17.79)% (quarter ended December 31, 2008).

Average Annual Total Returns (for the years ended December 31, 2017, with maximum sales charge, if applicable)	Past One Year	Past Five Years	Past Ten Years
Gabelli Enterprise Mergers and Acquisitions Fund			
Class A Shares			
Return Before Taxes	0.93%	4.42%	2.98%
Return After Taxes on Distributions	(1.21)%	4.35%	2.74%
Return After Taxes on Distributions and Sale of Fund Shares	(0.26)%	3.43%	2.28%
Class AAA Shares (first issued on 3/1/10)			
Return Before Taxes	5.32%	5.85%	3.75%
Class C Shares			
Return Before Taxes	3.54%	5.17%	3.03%
Class Y Shares			
Return Before Taxes	5.61%	6.14%	4.06%
Standard & Poor's 500 Index (reflects no deduction for fees, expenses or taxes)	21.83%	15.79%	8.50%

The returns shown for Class AAA shares prior to its actual inception date are those of the Class A shares of the Fund. No returns are shown for Class T shares since Class T shares were first offered on June 30, 2017, and thus have less than one calendar year of returns. All classes of the Fund would have substantially similar annual returns because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that the classes do not have the same expenses.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. In some instances the "Return After Taxes on

Distributions and Sale of Fund Shares” may be greater than “Return Before Taxes” because the investor is assumed to be able to use the capital loss from the sale of the Fund shares to offset other taxable gains. Actual after-tax returns depend on the investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts, including Roth IRAs and SEP IRAs (collectively, “IRAs”).

Management

The Adviser. Gabelli Funds, LLC

The Portfolio Manager. Mr. Mario J. Gabelli, CFA, Chief Investment Officer — Value Portfolios of the Adviser, has served as portfolio manager of the Fund since its inception on February 28, 2001.

Purchase and Sale of Fund Shares

The minimum initial investment for Class AAA, Class A, Class C, and Class T shares is \$1,000 (\$250 for IRAs or Coverdell Education Savings Plans). There is no minimum initial investment for Class AAA, Class A, Class C, and Class T shares in an automatic monthly investment plan. Class Y shares are available to investors with a minimum investment of at least \$500,000 and purchasing shares directly through G.distributors, LLC, the Fund’s distributor (“G.distributors” or the “Distributor”), or investors purchasing Class Y shares through brokers or financial intermediaries that have entered into selling agreements with the Distributor specifically with respect to Class Y shares. The Distributor reserves the right to waive or change minimum investment amounts. There is no minimum for subsequent investments.

You can purchase or redeem shares of the Fund on any day the New York Stock Exchange (“NYSE”) is open for trading (a “Business Day”). You may purchase or redeem Fund shares by written request via mail (The Gabelli Funds, P.O. Box 8308, Boston, MA 02266-8308), personal or overnight delivery (The Gabelli Funds, c/o BFDS, 30 Dan Road, Canton, MA 02021-2809), Internet, bank wire, or Automated Clearing House (“ACH”) system. You may also purchase Fund shares by telephone, if you have an existing account with banking instructions on file, or redeem at 800-GABELLI (800-422-3554).

Fund shares can also be purchased or sold through registered broker-dealers or financial intermediaries that have entered into appropriate selling agreements with the Distributor. The broker-dealer or other financial intermediary will transmit these transaction orders to the Fund on your behalf and send you confirmation of your transactions and periodic account statements showing your investments in the Fund.

Tax Information

The Fund expects that distributions will generally be taxable as ordinary income or long term capital gains, unless you are investing through a tax deferred arrangement, such as a 401(k) plan or an IRA.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of the Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES, AND RELATED RISKS

The Fund's investment objective is to seek to provide capital appreciation. The investment objective is fundamental and may not be changed without shareholder approval.

Under normal circumstances, the Fund intends to invest primarily in equity securities of companies believed to be likely acquisition targets within twelve to eighteen months. The Fund also may engage in arbitrage transactions by investing in the equity securities of companies that are involved in publicly announced mergers, takeovers, tender offers, leveraged buyouts, spin-offs, liquidations, and other corporate reorganizations. When a company agrees to be acquired by another company, its stock price often quickly rises to just below the stated acquisition price. If the Adviser determines that the acquisition is likely to be consummated on schedule at the stated acquisition price, then the Fund may purchase (if it does not already hold) or increase its investment in the selling company's securities, offering the Fund the possibility of returns in excess of the return on cash equivalents with a limited risk of excessive loss of capital. At times, the stock of the acquiring company also may be purchased or sold short. The Fund may hold a significant portion of its assets in cash in anticipation of arbitrage opportunities.

The Fund may invest in companies of any size and from time to time may invest primarily in companies with large, medium, or small market capitalizations. The Fund generally invests in securities of U.S. companies, but it also may invest its assets in foreign securities, including emerging market securities. The Fund may engage in various portfolio strategies, including using derivatives, to seek enhanced returns or to hedge investment risks, although it is not anticipated that it will do so to a significant degree. In general terms, a derivative instrument is an investment contract whose value depends on (or is derived from) the value of an underlying asset, reference rate, or index. Options, futures contracts, and forwards are examples of derivatives.

The Fund intends to invest primarily in common stocks, but it may also invest in other securities that the Adviser believes provide opportunities for capital appreciation, such as preferred stocks, warrants, and securities convertible into common stock, including convertible securities which are below investment grade. The Fund may also invest in debt securities, including in "junk bonds". It is expected that the Fund will engage in active or frequent trading of portfolio securities to achieve its investment objective. It is expected that the Fund will have a portfolio turnover rate of 150% or more.

In choosing investments, the Adviser searches for the best values on securities that it believes have the potential to achieve the Fund's investment objective of capital appreciation. In seeking to identify companies that are likely to be acquisition targets, the Adviser considers, among other things, consolidation trends within particular industries, whether a particular industry or company is undergoing a fundamental change or restructuring, the Adviser's assessment of the "private market value" of individual companies and the potential for an event or catalyst to occur that enhances a company's underlying value. The "private market value" of a company is the value that the Adviser believes informed investors would be willing to pay to acquire the entire company. The Adviser seeks to limit excessive risk of capital loss by utilizing various investment strategies, including investing in value oriented equity securities that should trade at a significant discount to the Adviser's assessment of their private market value.

In evaluating arbitrage opportunities with respect to companies involved in publicly announced mergers or other corporate restructurings, the Adviser seeks to identify investments in companies where the discount from the stated or appraised value of the security significantly overstates the risk of the contingencies

involved in completing the transaction, significantly undervalues the securities, assets, or cash to be received by shareholders of the prospective portfolio company as a result of the contemplated transaction, or fails adequately to recognize the possibility that the offer or proposal may be replaced or superseded by an offer or proposal of greater value. The evaluation of such contingencies requires unusually broad knowledge and experience on the part of the Adviser which must appraise not only the value of the issuer and its component businesses as well as the assets or securities to be received as a result of the contemplated transaction but also the financial resources and business motivation of the acquirer and the dynamics and business climate when the offer of the proposal is in progress. Since such investments are ordinarily short term in nature, they will tend to increase the turnover rate of the Fund, thereby increasing its brokerage and other transaction expenses. The Adviser intends to select investments of the type described, which, in its view, have a reasonable prospect of capital appreciation that is significant in relation to both risks involved and the potential of available alternate investments. The Adviser may sell a security for a variety of reasons, such as when the security is selling in the public market at or near the Adviser's estimate of its private market value or if the catalyst expected to happen fails to materialize.

The Fund is non-diversified which means it may focus its investments in a limited number of issuers.

The Fund may engage in short sales. A "short sale" is the sale by the Fund of a security which has been borrowed from a third party on the expectation that the market price will drop. If the price of the security drops, the Fund will make a profit by purchasing the security in the open market at a lower price than at which it sold the security. If the price of the security rises, the Fund may have to cover its short positions at a higher price than the short sale price, resulting in a loss. The Fund generally will only engage in covered short sales. In a covered short sale, the Fund either (1) borrows and sells securities it already owns (also known as a short sale "against the box"), or (2) "earmarks" on its records, or places in a segregated account with the Fund's custodian, cash, U.S. government securities, or other liquid securities in an amount equal to the market value of the securities sold short.

For temporary defensive purposes, the Fund may invest, without limit, in cash, money market instruments or high quality short term debt securities, including repurchase agreements. To the extent the Fund is invested in these instruments, the Fund will not be pursuing its investment objective.

An investment in the Fund is not guaranteed; you may lose money by investing in the Fund. When you sell your shares of the Fund, they could be worth more or less than what you paid for them.

The principal risks presented by the Fund are:

- **Credit Risk.** There is a risk that issuers and/or counterparties will not make payments on securities, repurchase agreements or other investments held by the Fund. Such defaults could result in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer's or counterparty's financial condition changes. Lower credit quality may lead to greater volatility in the price of a security and in shares of the Fund. Lower credit quality also may affect liquidity and make it difficult for the Fund to sell the security. The Fund may invest in securities that are rated in the lowest investment grade category. Such securities also are considered to have speculative characteristics similar to high yield securities, and issuers or counterparties of such securities are more vulnerable to changes in economic conditions than issuers of higher grade securities. Prices of the Fund's investments may be adversely affected if

any of the issuers or counterparties it is invested in are subject to an actual or perceived deterioration in their credit quality. Credit spreads may increase, which may reduce the market values of the Fund's securities. Credit spread risk is the risk that economic and market conditions or any actual or perceived credit deterioration may lead to an increase in the credit spreads (i.e., the difference in yield between two securities of similar maturity but different credit quality) and a decline in price of the issuer's securities.

- **Convertible Securities Risk.** The Fund may invest in convertible securities which may include both convertible debt and convertible preferred stock. Such securities may be converted into shares of the underlying common stock at either a stated price or stated rate. Therefore, convertible securities enable the holder to benefit from increases in the market price of the underlying common stock. Convertible securities provide higher yields than the underlying common stock, but generally offer lower yields than nonconvertible securities of similar quality. The value of convertible securities fluctuates in relation to changes in interest rates and, in addition, fluctuates in relation to the underlying common stock. While no securities investment is without some risk, investments in convertible securities generally entail less risk than the issuer's common stock; however, the extent to which such risk is reduced depends in large measure upon the degree to which the convertible security sells above its value as a fixed income security. A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security held by the Fund is called for redemption, the Fund will be required to permit the issuer to redeem the security, convert it into underlying common stock or sell it to a third party. Investments by the Fund in convertible debt securities are not subject to any ratings restrictions, although the Adviser will consider such ratings, and any changes in such ratings, in its determination of whether the Fund should invest and/or continue to hold the securities. The credit standing of the issuer and other factors may have an effect on a convertible security's investment value. Convertible securities rank senior to common stock in a corporation's capital structure, but are usually subordinated to comparable non-convertible securities. Convertible securities are subject to interest rate risk and credit risk and are often lower-quality securities.
- **Derivatives Risk.** Derivatives may be riskier than other types of investments and may increase the Fund's volatility. Derivatives may experience large, sudden, or unpredictable changes in liquidity and may be difficult to sell or unwind. Derivatives can also create investment exposure that exceeds the initial amount invested (leverage risk) — consequently, derivatives may experience very large swings in value. The Fund may lose more money using derivatives than it would have lost if it had invested directly in the underlying security or asset on which the value of a derivative is based. Derivatives may not perform as expected, so the Fund may not realize the intended benefits. When used for hedging, the change in value of a derivative may not correlate as expected with the currency, security, or other risk being hedged. Derivatives may be difficult to value and may expose the Fund to risks of mispricing. In addition, derivatives are subject to extensive government regulation, which may change frequently and significantly impact the Fund.
- **Emerging Markets Risk.** Securities of companies in emerging markets may be more volatile than those of companies in more developed markets. Emerging market countries generally have less developed markets and economies and, in some countries, less mature governments and

governmental institutions. Investing in securities of companies in emerging markets may entail special risks relating to potential economic, political, or social instability and the risks of expropriation, nationalization, confiscation, or the imposition of restrictions on foreign investment, the lack of hedging instruments, and on repatriation of capital invested.

- **Equity Market Risk.** The price of equity securities may rise or fall because of changes in the broad market or changes in a company's financial condition, sometimes rapidly or unpredictably. These price movements may result from factors affecting individual companies, sectors, or industries selected for a Fund's portfolio or the securities market as a whole, such as changes in economic or political conditions. Equity securities are subject to "stock market risk" meaning that stock prices in general (or in particular, the prices of the types of securities in which a Fund invests) may decline over short or extended periods of time. When the value of a Fund's securities goes down, your investment in that Fund decreases in value.
- **Foreign Securities Risk.** Risks of investing in foreign securities include currency risks, future political and economic developments, and possible imposition of foreign withholding taxes on income payable on the securities. In addition, there may be less publicly available information about a foreign issuer than about a domestic issuer, and foreign issuers may not be subject to the same accounting, auditing and financial recordkeeping standards and requirements as domestic issuers.
- **High Yield or "Junk" Securities Risk.** High yield securities are typically issued by companies that are highly leveraged, less creditworthy, or financially distressed and are considered to be mostly speculative in nature (high risk), subject to greater liquidity risk, and subject to a greater risk of default than higher rated securities. High yield securities may be more volatile than investment grade securities.
- **Interest Rate Risk.** The Fund invests in debt securities that increase or decrease in value based on changes in interest rates. If rates increase, the value of these investments generally declines. On the other hand, if rates fall, the value of these investments generally increases. Your investment will decline in value if the value of these investments decreases. Securities with greater interest rate sensitivity and longer maturities generally are subject to greater fluctuations in value. Usually, changes in the value of fixed income securities will not affect cash income generated, but may affect the value of your investment. Many factors can cause interest rates to rise. Some examples include central bank monetary policy, rising inflation rates and general economic conditions. Given the historically low interest rate environment, risks associated with rising rates are heightened.
- **Issuer-Specific Risk.** The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the market as a whole. The Fund could lose all of its investment in a company's securities.
- **Large-Capitalization Risk.** Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Many larger companies also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.
- **Leverage Risk.** Leverage is investment exposure that exceeds the initial amount invested. The loss on a leveraged investment may far exceed the Fund's principal amount invested. Leverage

can magnify the Fund's gains and losses and therefore increase its volatility. There is no guarantee that the Fund will use leverage, or when it does, that the Fund's leveraging strategy will be successful or produce a high return on an investment. The Adviser will segregate liquid assets or otherwise cover transactions that may give rise to leverage risk to the extent of the Fund's financial exposure. This requirement limits the amount of leverage the Fund may have at any one time, but it does not eliminate leverage risk. The use of leverage may result in the Fund having to liquidate holdings when it may not be advantageous to do so in order to satisfy its obligation or to meet segregation requirements.

- **Liquidity Risk.** Liquidity is the ability to sell securities or other investments within a reasonable amount of time at approximately the price at which the Fund has valued the securities or other investments, which relies on the willingness of market participants to buy and sell securities. Certain holdings may be difficult to value, purchase, and sell, particularly during adverse market conditions, because there is a limited market for the investment or there are restrictions on resale. The Fund may not be able to sell a holding quickly at the price it has valued the holding, may be unable to take advantage of market opportunities, or may be forced to sell other, more desirable, liquid securities or sell illiquid securities at a loss if needed to raise cash to conduct operations. Liquid investments may become less liquid or illiquid, and thus more difficult to sell, over time or suddenly and unexpectedly. This may occur, for example, as a result of adverse market or economic conditions or investor perceptions, which may be independent of any adverse changes to the particular issuer. Some securities (such as loans) may have no active trading market and may be subject to restrictions on resale. The markets in which such securities trade may be subject to irregular trading, wide bid/ask spreads and extended trade settlement periods, which may impair the Fund's ability to sell the holding at the price it has valued the holding causing a decline in the Fund's net asset value. Investments in companies in turn-around or other special situations have a greater risk of being or becoming less liquid than other equity securities, particularly when the economy is not robust or during market downturns.
- **Management Risk.** If the portfolio manager is incorrect in his assessment of the growth prospects of the securities the Fund holds, then the value of the Fund's shares may decline. In addition, the portfolio manager's strategy may produce returns that are different from other mutual funds that invest in similar securities.
- **Market Risk.** The risk that the securities markets will move down, sometimes rapidly and unpredictably based on overall economic conditions and other factors.
- **Merger Risk.** In general, securities of companies which are the subject of a tender or exchange offer or a merger, consolidation, liquidation, or reorganization proposal sell at a premium to their historic market price immediately prior to the announcement of an offer for the company. However, it is possible that the value of securities of a company involved in such a transaction will not rise and in fact may fall, in which case the Fund would lose money. It is also possible that the Adviser's assessment that a particular company is likely to be acquired or acquired during a specific time frame may be incorrect, in which case the Fund may not realize any premium on its investment and could lose money if the value of the securities declines during the Fund's holding period. The Fund's return also could be adversely impacted to the extent that the Adviser's strategies fail to identify companies for investment by the Fund that become the subject of a merger or similar transaction that results in an increase in the value of

the securities of those companies. Moreover, publicly announced mergers and similar types of transactions may be renegotiated or terminated, in which case the Fund may lose money. In addition, if a transaction takes a longer time to close than the Adviser originally anticipated, the Fund may realize a lower than expected rate of return.

- **Non-Diversification Risk.** The Fund is classified as a “non-diversified” mutual fund, which means that a greater proportion of its assets may be invested in the securities of a single issuer than a “diversified” mutual fund. As a non-diversified mutual fund, more of the Fund’s assets may be focused in the common stocks of a small number of issuers, which may make the value of the Fund’s shares more sensitive to changes in the market value of a single issuer or industry than shares of a diversified mutual fund. The ability to invest in a more limited number of securities may increase the volatility of the Fund’s investment performance, as the Fund may be more susceptible to risks associated with a single economic, political, or regulatory event than a diversified fund. If the securities in which the Fund invests perform poorly, the Fund could incur greater losses than it would have had if it had been invested in a greater number of securities.
- **Portfolio Turnover Risk.** High portfolio turnover may result in increased transaction costs to the Fund, which may result in higher fund expenses and lower total returns. The sale of portfolio securities also may result in the recognition of capital gain, which will be taxable to shareholders when distributed to them, or loss. Given the frequency of sales, any such net gain may be short term capital gain or loss. Unlike long term capital gain, short term capital gain is taxable to individuals at the same rates as ordinary income.
- **Security Risk.** The risk that the value of a security may move up and down, sometimes rapidly and unpredictably based upon changes in a company’s financial condition as well as overall market and economic conditions.
- **Short Sale Risk.** A “short sale” is the sale by the Fund of a security which has been borrowed from a third party on the expectation that the market price will drop. If the price of the security rises, the Fund may have to cover short positions at a higher price than the short sale price, resulting in a loss.
- **Small and Mid-Capitalization Risk.** Risk is greater for the securities of small and mid-capitalization companies because they generally are more vulnerable than larger companies to adverse business or economic developments and they may have more limited resources. The securities of small and mid-capitalization companies also may trade less frequently and in smaller volume than larger companies. As a result, the value of such securities may be more volatile than the securities of larger companies, and the Fund may experience difficulty in purchasing or selling such securities at the desired time and price. In general, these risks are greater for small capitalization companies than for mid-capitalization companies.
- **Special Situations Risk.** The Fund may use aggressive investment techniques, including seeking to benefit from “special situations,” such as mergers, reorganizations, or other unusual events expected to affect a particular issuer. There is a risk that the “special situation” might not occur, which could have a negative impact on the price of the issuer’s securities and fail to produce gains or produce a loss for the Fund.

Portfolio Holdings. A description of the Fund’s policies and procedures with respect to the disclosure of the Fund’s portfolio securities is available in the Fund’s Statement of Additional Information (“SAI”), which may be obtained by calling 800-GABELLI (800-422-3554), your financial intermediary, or free of charge through the Fund’s website at www.gabelli.com.

MANAGEMENT OF THE FUND

The Adviser. Gabelli Funds, LLC, with its principal offices located at One Corporate Center, Rye, New York 10580-1422, serves as investment adviser to the Fund. The Adviser makes investment decisions for the Fund and continuously reviews and administers the Fund's investment program and manages the Fund's operations under the general supervision of the Fund's Board of Directors (the "Board"). The Adviser also manages several other open-end and closed-end investment companies in the Gabelli/GAMCO family of funds ("Gabelli/GAMCO Fund Complex" or "Fund Complex"). The Adviser is a New York limited liability company organized in 1999 as successor to GGCP, Inc. ("GGCP"), a New York corporation organized in 1980. The Adviser is a wholly owned subsidiary of GAMCO Investors, Inc. ("GBL"), a publicly held company listed on the NYSE.

As compensation for its services and related expenses borne by the Adviser, the Fund will pay to the Adviser a monthly fee at the annual rate of 0.935% of the Fund's average daily net asset value ("NAV") on the first \$1 billion; 0.910% on the next \$1 billion; 0.8850% on the next \$3 billion; 0.860% on the next \$5 billion; and 0.835% thereafter. For the fiscal year ended October 31, 2017, the Fund paid the Adviser a fee of 0.935% of the Fund's average daily net assets.

The Fund's semiannual report to shareholders for the period ended April 30, 2017, contained a discussion of the basis of the Board's determination to continue the investment advisory agreement.

The Portfolio Manager. Mr. Mario J. Gabelli, CFA, is primarily responsible for the day to day management of the Fund. Mr. Gabelli is Chairman and Chief Executive Officer of GBL and Executive Chairman of Associated Capital Group, Inc.; Chief Investment Officer — Value Portfolios of GBL, Gabelli Funds LLC, and GAMCO Asset Management, Inc., another wholly owned subsidiary of GBL; Chief Executive Officer and Chief Investment Officer of GGCP; and an officer or director of other companies affiliated with GBL. The Adviser relies to a considerable extent on the expertise of Mr. Gabelli, who may be difficult to replace in the event of his death, disability, or resignation.

The Fund's SAI provides additional information about the portfolio manager's compensation, other accounts managed by him, and his ownership of securities in the Fund.

INDEX DESCRIPTION

Standard & Poor's ("S&P") 500 Index

The S&P 500 Index is a widely recognized, unmanaged index of common stock prices. The index figures do not reflect any deductions for fees, expenses, or taxes. You cannot invest directly in the S&P 500 Index.

CLASSES OF SHARES

Five classes of the Fund's shares are offered in this prospectus — Class AAA, Class A, Class C, Class T, and Class Y shares. The Fund is not designed for market-timers; see the section entitled "Redemption of Shares." Each class of shares has different costs associated with buying, selling, and holding Fund shares. Your broker or other financial professional can assist you in selecting which class of shares best meets your needs based on such factors as the size of your investments and the length of time you intend to hold your shares.

The Fund's Class AAA shares are offered only to (1) clients of financial intermediaries (i) that charge such clients an ongoing fee for advisory, investment, consulting, or similar service, or (ii) where the Distributor has entered into an agreement permitting the financial intermediary to offer Class AAA Shares through its mutual fund supermarket network or platform, and (2) customers of the Distributor.

Class T shares of the Fund are available only to investors who are investing through an authorized third party, such as a broker-dealer or financial intermediary, that has entered into a selling agreement with the Fund's Distributor. Not all third parties make Class T shares available to their clients.

Class Y shares are available to investors with a minimum investment of \$500,000 and purchasing shares directly through G.distributors or investors purchasing Class Y shares through brokers or financial intermediaries that have entered into selling agreements with the Distributor specifically with respect to Class Y shares. The Distributor or its affiliates may, in their discretion, accept investments from purchasers that do not meet the qualification requirements.

The table that follows summarizes the differences among the classes of shares.

- A "front-end sales load" or sales charge is a one time fee that may be charged at the time of purchase of shares.
- A contingent deferred sales charge ("CDSC") is a one time fee that may be charged at the time of redemption.
- A "Rule 12b-1 fee" is a recurring annual fee for distributing shares and servicing shareholder accounts based on the Fund's average daily net assets attributable to the particular class of shares.

In selecting a class of shares in which to invest, you should consider:

- the length of time you plan to hold the shares;
- the amount of sales charge and Rule 12b-1 fees, recognizing that your share of 12b-1 fees as a percentage of your investment increases if the Fund's assets increase in value and decreases if the Fund's assets decrease in value;
- whether you qualify for a reduction or waiver of the Class A sales charge; and
- whether you qualify to purchase Class Y shares.

	Class AAA Shares	Class A Shares	Class C Shares	Class T Shares	Class Y Shares
Front-End Sales Load?	No.	Yes. The percentage declines as the amount invested increases.	No.	Yes. The percentage declines as the amount invested increases.	No.
Contingent Deferred Sales Charge?	No.	No, except for shares redeemed up to and including the last day of the eighteenth month after purchase as part of an investment greater than \$1 million if no front end sales charge was paid at the time of purchase.	Yes, for shares redeemed up to and including the last day of the twelfth month after purchase.	No.	No.
Rule 12b-1 Fees	0.25%	0.45%	1.00%	0.25%	None.
Convertible to Another Class?	Yes, may be converted to Class Y shares provided certain conditions are met.	Yes, may be converted to Class Y shares provided certain conditions are met.	Yes, may be converted to Class Y shares provided certain conditions are met.	Yes, may be converted to Class Y shares provided certain conditions are met.	No.
Fund Expense Levels	Higher annual expenses than Class Y shares. Lower annual expenses than Class A or Class C shares. Same as Class T shares.	Lower annual expenses than Class C shares. Higher annual expenses than Class AAA, Class T or Class Y shares.	Higher annual expenses than Class AAA, Class A, Class T or Class Y shares.	Higher annual expenses than Class Y shares. Lower annual expenses than Class A or Class C shares. Same as Class AAA shares.	Lower annual expenses than Class AAA, Class A, Class C, or Class T shares.

The following sections and Appendix A to this prospectus include important information about sales charges and sales charge reductions and waivers and describe information or records you may need to provide to the Fund or your broker in order to be eligible for sales charge reductions and waivers. Intermediaries may have different policies and procedures regarding the availability of sales charge reductions and waivers, please refer to Appendix A to this prospectus, which describes all such intermediaries. Information about sales charges and sales charge reductions and waivers to the various classes of the Fund's shares are also available free of charge and in a clear and prominent format on our website at www.gabelli.com. You should consider the information below as a guide only, as the decision on which share class is best for you depends on your individual needs and circumstances.

If you...	then you should consider...
qualify for a reduced or waived front-end sales load	purchasing Class A or Class T shares instead of Class C shares
do not qualify for a reduced or waived front-end sales load and intend to hold your shares for only a few years	purchasing Class C shares instead of Class A or Class T shares
do not qualify for a reduced or waived front-end sales load and intend to hold your shares indefinitely	purchasing Class A or Class T shares instead of Class C shares
are eligible and wish to purchase at least \$500,000 worth of shares	purchasing Class Y shares
qualify for no-load	purchasing Class AAA shares

Sales Charge — Class A Shares. Unless you are eligible for a sales charge reduction or a waiver as set forth in Appendix A to this prospectus, the sales charge is imposed on Class A shares at the time of purchase in accordance with the following schedule. For investors investing in Class A shares of the Fund through a financial intermediary, it is the responsibility of the financial intermediary to ensure that such investors obtain the proper breakpoint discount.

Amount of Investment	Sales Charge as % of the Offering Price*	Sales Charge as % of Amount Invested	Reallowance to Broker-Dealers
Under \$50,000	5.75%	6.10%	5.00%
\$50,000 but under \$100,000	4.75%	4.99%	4.00%
\$100,000 but under \$250,000	3.75%	3.90%	3.00%
\$250,000 but under \$500,000	2.75%	2.83%	2.25%
\$500,000 but under \$1 million	2.00%	2.04%	1.75%
\$1 million but under \$2 million	0.00%**	0.00%	1.00%
\$2 million but under \$5 million	0.00%**	0.00%	0.50%
\$5 million or more	0.00%**	0.00%	0.25%

* Front-end sales load.

** Subject to a 1.00% CDSC for up to and including the last day of the eighteenth month after purchase.

No sales charge is imposed on reinvestment of dividends and distributions if you select that option in advance of the distribution.

Sales Charge — Class T Shares. Unless you are eligible for a sales charge reduction or a waiver, the public offering price you pay when you buy Class T shares of the Fund is the net asset value of the shares plus an initial sales charge. Absent a reduction or a waiver, an initial sales charge applies to all other purchases of Class T shares. The sales charge structure and policies of Class T shares may create a conflict of interest for financial intermediaries with respect to transactions in the Fund's Class T shares. Because each transaction in Class T shares (unless covered by a reduction or a waiver noted in Appendix A applicable to a particular intermediary) is subject to a new sales charge, this could incentivize multiple purchases and sales of Class T shares. It is the responsibility of the financial intermediary

through which you have purchased Class T shares to ensure that you obtain the proper “breakpoint” discount. The sales charge is imposed on Class T shares at the time of purchase in accordance with the following schedule:

<u>Amount of Investment</u>	<u>Sales Charge as % of the Offering Price*</u>	<u>Sales Charge as % of Amount Invested</u>	<u>Reallowance to Broker-Dealers</u>
Less than \$250,000	2.50%	2.56%	2.50%
\$250,000 but under \$500,000	2.00%	2.04%	2.00%
\$500,000 but under \$1 million	1.50%	1.52%	1.50%
\$1 million and more	1.00%	1.01%	1.00%

* Front-end sales load

No sales charge is imposed on reinvestment of dividends and distributions if you select that option in advance of the distribution.

Breakpoints or Volume Discounts

The Fund offers you the benefit of discounts on the sales charges that apply to purchases of Class A shares in certain circumstances. These discounts, which are also known as breakpoints, can reduce or, in some instances, eliminate the initial sales charges that would otherwise apply to your Class A shares investment. Mutual funds are not required to offer breakpoints and different mutual fund groups may offer different types of breakpoints.

Breakpoints or Volume Discounts allow larger investments in Class A shares to be charged lower sales charges. If you invest \$50,000 or more in Class A shares of the Fund, then you are eligible for a reduced sales charge. Initial sales charges are eliminated completely for purchases of \$500,000 or more, although a 1% CDSC may apply if shares are redeemed up to and including the last day of the eighteenth month after purchase.

Sales Charge Reductions and Waivers — Class A Shares

Reduced sales charges are available to (1) investors who are eligible to combine their purchases of Class A shares to receive Volume Discounts and (2) investors who sign a Letter of Intent (“Letter”) agreeing to make purchases over time. Certain types of investors, as set forth below, are eligible for sales charge waivers.

Class A shares may be available for purchase by clients of certain financial intermediaries without the application of a front-end sales load, as described in Appendix A to the prospectus.

You may qualify for a reduced sales charge, or a waiver of sales charges, on purchases of Class A shares. The requirements are described in the following paragraphs. To receive a reduction that you qualify for, you may have to provide additional information to your broker or other service agent. For more information about sales charge discounts and waivers, consult with your broker or other service provider.

Volume Discounts/Rights of Accumulation. In order to determine whether you qualify for a Volume Discount under the foregoing sales charge schedule, you may combine your new investment and your existing investments in Class A shares with those of your immediate family (spouse and children under

age 21), your and their IRAs, and other employee benefit plans and trusts and other fiduciary accounts for your and their benefit. You may also include Class A shares of any other open-end investment company managed by the Adviser or its affiliates that are held in any of the foregoing accounts. The Fund uses the current NAV of these holdings when combining them with your new and existing investments for purposes of determining whether you qualify for a Volume Discount.

Class T shares are not eligible for any waivers or reductions of the sales charges through Volume Discounts or Rights of Accumulation.

Letter of Intent. If you initially invest at least \$1,000 in Class A shares of the Fund and submit a Letter to your financial intermediary or the Distributor, you may make purchases of Class A shares of the Fund during a thirteen-month period at the reduced sales charge rates applicable to the aggregate amount of the intended purchases stated in the Letter. The Letter may apply to purchases made up to ninety days before the date of the Letter. If you fail to invest the total amount stated in the Letter, the Fund will retroactively collect the sales charge otherwise applicable by redeeming shares in your account at their then current NAV. For more information on the Letter, call your broker.

Class T shares are not eligible for any waivers or reductions of the sales charge through Letters of Intent.

Required Shareholder Information and Records. In order for you to take advantage of sales charge reductions, you or your broker must notify the Fund that you qualify for a reduction. Without notification, the Fund is unable to ensure that the reduction is applied to your account. You may have to provide information or records to your broker or the Fund to verify eligibility for breakpoint privileges or other sales charge waivers. This may include information or records, including account statements, regarding shares of the Fund or shares of any other open-end investment company managed by the Adviser or its affiliates held in:

- all of your accounts at the Fund or a financial intermediary;
- any account of yours at another financial intermediary; and
- accounts of related parties of yours, such as members of the same family, at any financial intermediary.

You should therefore keep copies of these types of records.

Investors Eligible for Sales Charge Waivers. Class A shares of the Fund may be offered without a sales charge to: (1) employees of the Distributor and its affiliates, The Bank of New York Mellon Corporation, Boston Financial Data Services, Inc. (“BFDS”), State Street Bank and Trust Company, the Fund’s Transfer Agent (“State Street” or “Transfer Agent”), BNY Mellon Investment Servicing (US) Inc., and Soliciting Broker-Dealers, employee benefit plans for those employees and their spouses and minor children of such employees when orders on their behalf are placed by such employees (the minimum initial investment for such purchases is \$500); (2) the Adviser, its affiliates and their officers, directors, trustees, general partners and employees of other investment companies managed by the Adviser, employee benefit plans for such persons and their immediate family when orders on their behalf are placed by such persons (with no required minimum initial investment) — the term “immediate family” for this purpose refers to a person’s spouse, children and grandchildren (adopted or natural), parents, grandparents, siblings, a spouse’s siblings, a sibling’s spouse, and a sibling’s children; (3) any other investment company in connection with the combination of such company with the Fund by merger,

acquisition of assets, or otherwise; (4) shareholders who have redeemed shares in the Fund and who wish to reinvest in the Fund, provided the reinvestment is made within forty-five days of the redemption; (5) qualified employee benefit plans established pursuant to Section 457 of the Internal Revenue Code of 1986, as amended, that have established omnibus accounts with the Fund or an intermediary; (6) qualified employee benefit plans having more than one hundred eligible employees or a minimum of \$1 million in plan assets invested in the Fund; (7) any unit investment trusts registered under the Investment Company Act of 1940, as amended, which have shares of the Fund as a principal investment; (8) investment advisory clients of GAMCO Asset Management Inc. and their immediate families; (9) employee participants of organizations adopting the 401K Plan sponsored by the Adviser; (10) financial institutions purchasing Class A shares of the Fund for clients participating in a fee based asset allocation program or wrap fee program; and (11) registered investment advisers or financial planners who place trades for their own accounts or the accounts of their clients and who charge a management, consulting, or other fee for their services; and clients of such investment advisers or financial planners who place trades for their own accounts if the accounts are linked to the master account of such investment adviser or financial planner on the books and records of a broker or financial intermediary.

Additional categories of sales charge reductions and waivers available to investors are also set out in Appendix A to this prospectus. Investors who qualify under any of the categories described above or those set out in the Appendix A to this prospectus should contact their financial intermediary. Some of these investors may also qualify to invest in Class Y shares.

Contingent Deferred Sales Charges

You will pay a CDSC when you redeem:

- Class A shares up to and including the last day of the eighteenth month from when they were purchased as part of an investment greater than \$1 million if no front-end sales charge was paid at the time of purchase; or
- Class C shares up to and including the last day of the twelfth month from when they were purchased.

The CDSC payable upon redemption of Class A shares and Class C shares in the circumstances described above is 1.00%. In each case, the CDSC is based on the NAV at the time of your investment or the NAV at the time of redemption, whichever is lower.

The Distributor pays sales commissions of up to 1.00% of the purchase price of Class C shares of the Fund at the time of sale to brokers and financial intermediaries that initiate and are responsible for purchases of such Class C shares of the Fund.

You will not pay a CDSC to the extent that the value of the redeemed shares represents reinvestment of distributions or capital appreciation of shares redeemed. When you redeem shares, we will assume that you are first redeeming shares representing reinvestment of distributions, then any appreciation on shares redeemed, and then any remaining shares held by you for the longest period of time. We will calculate the holding period of shares acquired through an exchange of shares of another fund from the date you acquired the original shares of the other fund. The time you hold shares in the Gabelli money market fund, however, will not count for purposes of calculating the applicable CDSC.

We will waive the CDSC payable upon redemptions of shares for:

- redemptions and distributions from retirement plans made after the death or disability of a shareholder;
- minimum required distributions made from an IRA or other retirement plan account after you reach age 70 ½;
- involuntary redemptions made by the Fund;
- a distribution from a tax-deferred retirement plan after your retirement; and
- returns of excess contributions to retirement plans following the shareholder's death or disability.

The CDSC will be waived if you invest and purchase your shares through intermediaries identified in Appendix A to this prospectus.

Contingent deferred sales charges do not apply to redemptions of Class T shares.

Rule 12b-1 Plan. The Fund has adopted distribution plans under Rule 12b-1 for Class AAA, Class A, Class C, and Class T shares of the Fund ("Plans" or each, a "Plan"). Under these Plans, the Fund may use its assets to finance activities relating to the sale of its Class AAA, Class A, Class C, and Class T shares and the provision of certain shareholder services. To the extent any activity is one that the Fund may finance without a distribution plan, the Fund may also make payments to compensate such activity outside of the Plan and not be subject to its limitations.

The Class AAA Plan authorizes payments by the Fund at an annual rate of 0.25% of its average daily net assets attributable to Class AAA shares to finance distribution of its Class AAA shares or pay shareholder service fees. The Class A Plan authorizes payments by the Fund at an annual rate of 0.20% of its average daily net assets attributable to Class A shares to finance distribution of its Class A shares and 0.25% to pay shareholder service fees. The Class C Plan authorizes payments by the Fund at an annual rate of 0.75% of its average daily net assets attributable to Class C shares to finance distribution of its Class C shares and 0.25% to pay shareholder service fees. The Class T Plan authorize payments by the Fund at an annual rate of 0.25% of its average daily net assets attributable to Class T shares to finance distribution of its Class T shares or pay shareholder service fees.

Because the Rule 12b-1 fees are higher for Class C shares than for Class AAA, Class A, or Class T shares, Class C shares will have higher annual expenses. Because Rule 12b-1 fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Redemption Fee. Generally, if you sell or exchange your shares within seven days or less after the purchase date, you will be charged a redemption fee of 2.00% of the total redemption amount which is payable to the Fund. See "Redemption of Shares" herein.

PURCHASE OF SHARES

You can purchase Fund shares on any Business Day.

- **By Mail or In Person.** You may open an account by mailing a completed subscription order form with a check or money order payable to “Gabelli Enterprise Mergers and Acquisitions Fund” to:

By Mail

The Gabelli Funds
P.O. Box 8308
Boston, MA 02266-8308

By Personal or Overnight Delivery

The Gabelli Funds
c/o BFDS
30 Dan Road
Canton, MA 02021-2809

You can obtain a subscription order form by calling 800-GABELLI (800-422-3554). Checks made payable to a third party and endorsed by the shareholder are not acceptable. For additional investments, send a check to the above address with a note stating your exact name and account number, the name of the fund(s), and class of shares you wish to purchase.

- **By Internet.** You may open an account over the Internet at www.gabelli.com.
- **By Bank Wire or by ACH System.** To open an account using the bank wire transfer system or ACH system, first telephone the Fund at 800-GABELLI (800-422-3554) to obtain a new account number. Then instruct your bank to wire funds to:

State Street Bank and Trust Company

Account of [Registered Owners]

- **By Telephone.** You may make purchases for an existing account with banking instructions on file by telephone at 800-GABELLI (800-422-3554).

If you are making an initial purchase, you should also complete and mail a subscription order form to the address shown under “By Mail.” Note that banks may charge fees for wiring funds, although the Fund’s transfer agent, State Street, will not charge you for receiving wire transfers.

You may purchase shares directly through registered broker-dealers or other financial intermediaries that have entered into appropriate selling agreements with the Distributor. In addition, certain investors who qualify may purchase Class Y shares of the Fund directly from the Distributor.

Your broker-dealer or financial intermediary can obtain a subscription order form by calling 800-GABELLI (800-422-3554). The broker-dealer or other financial intermediary will transmit a purchase order and payment to State Street on your behalf. Broker-dealers or other financial intermediaries may send you confirmations of your transactions and periodic account statements showing your investments in the Fund.

Share Price. The Fund sells its shares based on the NAV next determined after the time as of which the Fund receives your completed subscription order form but does not issue the shares to you until it receives full payment, subject to a front-end sales charge in the case of Class A shares. See “Pricing of Fund Shares” herein for a description of the calculation of the NAV.

Minimum Investments. The minimum initial investment for Class AAA, Class A, Class C, and Class T shares is \$1,000 (\$250 for IRAs or Coverdell Education Savings Plans). The minimum initial investment for Class Y shares is \$500,000 for investors purchasing Class Y shares directly through the Distributor. Investors who wish to purchase Class Y shares through brokers or financial intermediaries that have entered into selling agreements with the Distributor specifically with respect to Class Y shares should consult their broker or financial intermediary with respect to any minimum investment amount required for this account. The Distributor or its affiliates may, in their discretion, waive the minimum investment requirement under certain circumstances. There is no minimum for subsequent investments. Broker-dealers and financial intermediaries may have different minimum investment requirements.

General. State Street will not issue share certificates unless you request them. The Fund reserves the right to (i) reject any purchase order if, in the opinion of the Fund's management, it is in the Fund's best interest to do so, (ii) suspend the offering of shares for any period of time, and (iii) waive the Fund's minimum purchase requirements. Except for differences attributable to these arrangements, the shares of all classes are substantially the same.

Customer Identification Program. Federal law requires the Fund to obtain, verify, and record identifying information, which may include the name, residential, or business address, date of birth (for an individual), social security or taxpayer identification number, or other identifying information, for each investor who opens or reopens an account with the Fund. Applications without the required information may be rejected or placed on hold until the Fund verifies the account holder's identity.

Third Party Arrangements. In addition to, or in lieu of amounts received by broker-dealers or other financial intermediaries as reallowances of a portion of sales commissions, the Adviser and its affiliates utilize a portion of their assets, which may include revenues received under the Plan, to pay all or a portion of the charges of various programs that make shares of the Fund available to their customers. These payments, sometimes referred to as "revenue sharing," do not change the price paid by investors to purchase the Fund's shares or the amount the Fund receives as proceeds from such sales. Revenue sharing payments may be made to broker-dealers and other financial intermediaries that provide services to the Fund or to shareholders in the Fund, including (without limitation) the following programs: shareholder servicing to Fund shareholders, transaction processing, sub-accounting services, marketing support, access to sales meetings, sales representatives, and management representatives of the broker-dealers or other financial intermediaries. Revenue sharing payments may also be made to broker-dealers and other financial intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, and in other sales programs. These payments take a variety of forms, including (without limitation) compensation for sales, "trail" fees for shareholder servicing and maintenance of shareholder accounts, and finders' fees that vary depending on the share class and the dollar amount of shares sold. Finder's fees will not apply to purchases of Class T shares. Revenue sharing payments may be structured: (i) as a percentage of sales; (ii) as a percentage of net assets; and/or (iii) as a fixed dollar amount.

The Adviser may also provide non-cash compensation to broker-dealers or other financial intermediaries in accordance with applicable rules of the Financial Industry Regulatory Authority, Inc. ("FINRA"), such as the reimbursement of travel, lodging, and meal expenses incurred in connection with attendance at educational and due diligence meetings or seminars by qualified registered representatives of those firms and, in certain cases, their families; meeting fees; certain entertainment; reimbursement for advertising or other promotional expenses; or other permitted expenses as determined in accordance with applicable FINRA rules. In certain cases these other payments could be significant.

Subject to tax limitations and approval by the Board, the Fund may also make payments to third parties out of its own assets (other than Rule 12b-1 payments) for a portion of the charges for these programs that generally represent savings of expenses experienced by the Fund resulting from shareholders investing in the Fund through such programs rather than investing directly in the Fund.

The Adviser negotiates the level of payments described above to any particular broker-dealer or other financial intermediary with each firm. Currently, such payments (expressed as a percentage of net assets) range from 0.10% to 0.40% per year of the average daily net assets of the Fund attributable to the particular firm depending on the nature and level of services and other factors.

In addition, in certain cases, broker-dealers or other financial intermediaries may have agreements pursuant to which shares of the Fund owned by their clients are held of record on the books of the Fund in omnibus accounts maintained by each intermediary, and the intermediaries provide those Fund shareholders with sub-administration and sub-transfer agency services. Pursuant to the transfer agency agreement of Gabelli 787 Fund, Inc. (the "Corporation"), the Corporation pays the transfer agent a fee for each shareholder account. As a result, the use of one omnibus account for multiple beneficial shareholders can create a cost savings to the Corporation. The Board may, from time to time, authorize the Corporation to pay a portion of the fees charged by these intermediaries if (i) a cost savings to the Fund can be demonstrated and (ii) the omnibus account of the intermediary has net assets in the Fund in excess of \$10 million. In these cases, the Board may authorize the Fund to pay a portion of the fees to the intermediary in an amount no greater than the lower of the transfer agency cost savings relating to the particular omnibus account or 0.10% of the average daily net assets of that omnibus account. These payments compensate these intermediaries for the provision of sub-administration and sub-transfer agency services associated with their clients whose shares are held of record in this manner.

Additional Purchase Information

Retirement Plans/Education Savings Plans. The Fund makes available IRAs and Coverdell Education Savings Plans for investment in Fund shares. Applications may be obtained from the Distributor by calling 800-GABELLI (800-422-3554). Self-employed investors may purchase shares of the Fund through tax-deductible contributions to existing retirement plans for self-employed persons, known as "Keogh" or "H.R.-10" plans. The Fund does not currently act as a sponsor to such plans. Fund shares may also be a suitable investment for other types of qualified pension or profit sharing plans which are employer sponsored, including deferred compensation or salary reduction plans known as "401(k) Plans". For Class AAA, A, C, and T shares, the minimum initial investment in all such retirement and education savings plans is \$250. There is no minimum subsequent investment for retirement or education savings plans.

Automatic Investment Plan. The Fund offers an automatic monthly investment plan. For Class AAA, A, C, and T shares, there is no minimum initial investment for accounts establishing an automatic investment plan. Call your financial intermediary or the Distributor at 800-GABELLI (800-422-3554) for more details about the plan.

Telephone or Internet Investment Plan. You may purchase additional shares of the Fund by telephone and/or over the Internet if your bank is a member of the ACH system. You must also have a completed and approved Account Options Form on file with the Transfer Agent. There is a minimum of \$100 for each telephone or Internet investment. However, you may split the \$100 minimum between two

funds. To initiate an ACH purchase, please call your financial intermediary or 800-GABELLI (800-422-3554) or 800-872-5365 or visit our website at www.gabelli.com.

Voluntary Conversion. Shareholders may be able to convert shares to Class Y shares of a Fund, which have a lower expense ratio, provided certain conditions are met. For Class A, C, and T shares, this conversion feature is intended for shares held through a financial intermediary offering a fee based or wrap fee program that has an agreement with the Adviser or the Distributor specific for this purpose. Shareholders who currently hold Class AAA shares and are eligible to purchase Class Y shares may convert existing Class AAA shares of the Fund through their financial intermediary if their financial intermediary has a specific agreement with the Distributor. In such instances, Class AAA, Class A, Class C, or Class T shares may be automatically converted under certain circumstances. Generally, Class C shares are not eligible for conversion until the applicable CDSC period has expired. The Distributor has entered into an agreement with Merrill Lynch, Pierce, Fenner & Smith Inc. (“Merrill Lynch”), pursuant to which Class C shares held by a Merrill Lynch customer will be converted into Class A shares of the same fund in the month of the 10-year anniversary of the purchase date. Please contact your financial intermediary for additional information. Not all share classes are available through all financial intermediaries.

If shares of the Fund are converted to a different share class of the Fund, the transaction will be based on the respective NAV of each class as of the trade date of the conversion. Consequently, a shareholder may receive fewer shares or more shares than originally owned, depending on that day’s NAVs. Please contact your tax adviser regarding the tax consequences of any conversion.

REDEMPTION OF SHARES

You can redeem shares of the Fund on any Business Day. The Fund may temporarily stop redeeming its shares when the NYSE is closed or trading on the NYSE is restricted, when an emergency exists and the Fund cannot sell its shares or accurately determine the value of its assets, or if the SEC orders the Fund to suspend redemptions.

The Fund redeems its shares based on the NAV next determined after the time as of which the Fund receives your redemption request in proper form, subject in some cases to a redemption fee or a CDSC, as described under “Classes of Shares — Contingent Deferred Sales Charges” or a redemption fee as described below in this section. A redemption is a taxable event to you on which you would realize gain or loss (subject to certain limitations on the deductibility of losses). In instances where a redemption fee is triggered, a CDSC may also apply, as described in greater detail in other parts of this prospectus.

You may redeem shares through a broker-dealer or other financial intermediary that has entered into a selling agreement with the Distributor. The broker-dealer or financial intermediary will transmit a redemption order to State Street on your behalf. The redemption request will be effected at the NAV next determined (less any applicable CDSC) after the Fund receives the request in proper form. If you hold share certificates, you must present the certificates endorsed for transfer.

The Fund is intended for long term investors and not for those who wish to trade frequently in Fund shares. The Fund believes that excessive short term trading of Fund shares creates risks for the Fund and its long term shareholders, including interference with efficient portfolio management, increased administrative and brokerage costs, and potential dilution in the value of Fund shares.

In addition, because the Fund may invest in foreign securities traded primarily on markets that close prior to the time the Fund determines its NAV, frequent trading by some shareholders may, in certain circumstances, dilute the value of Fund shares held by other shareholders. This may occur when an event that affects the value of the foreign securities takes place after the close of the primary foreign market, but before the time that the Fund determines its NAV. Certain investors may seek to take advantage of the fact that there will be a delay in the adjustment of the market price for a security caused by this event until the foreign market reopens (referred to as price arbitrage). If this occurs, frequent traders who attempt this type of price arbitrage may dilute the value of the Fund's shares to the extent they receive shares or proceeds based upon NAVs that have been calculated using the closing market prices for foreign securities, if those prices have not been adjusted to reflect a change in the fair value of the foreign securities. In an effort to prevent price arbitrage, the Fund has procedures designed to adjust closing market prices of foreign securities before it calculates its NAV when it believes such an event has occurred that will have more than a minimal effect on the NAV. Prices are adjusted to reflect what the Fund believes are the fair values of these foreign securities at the time the Fund determines its NAV (called fair value pricing). Fair value pricing, however, involves judgments that are inherently subjective and inexact since it is not always possible to be sure when an event will affect a market price and to what extent. As a result, there can be no assurance that fair value pricing will always eliminate the risk of price arbitrage.

In order to discourage frequent short term trading in Fund shares, the Fund has adopted policies and procedures that impose a 2.00% redemption fee (short term trading fee) on Class AAA, Class A, Class C, Class T, and Class Y shares that are redeemed or exchanged within seven days of a purchase. This fee is calculated based on the shares' aggregate NAV on the date of redemption and deducted from the redemption proceeds. The redemption fee is not a sales charge; it is retained by the Fund and does not benefit the Fund's Adviser or any other third party. For purposes of computing the redemption fee, shares will be redeemed in reverse order of purchase (the latest shares acquired will be treated as being redeemed first). Redemptions to which the fee applies include redemption of shares resulting from an exchange made pursuant to the Fund's exchange privilege. The redemption fee will not apply to redemptions of shares where (i) the shares were purchased through automatic reinvestment of dividends or other distributions, (ii) the redemption is initiated by the Fund, (iii) the shares were purchased through programs that collect the redemption fees at the program level and remit them to the Fund, or (iv) the shares were purchased through programs that the Adviser determines to have appropriate anti-short term trading policies in place or as to which the Adviser has received assurances that look-through redemption fee procedures or effective anti-short term trading policies and procedures are in place.

While the Fund has entered into information sharing agreements with financial intermediaries which contractually require such financial intermediaries to provide the Fund with information relating to its customers investing in the Fund through non-disclosed or omnibus accounts, the Fund cannot guarantee the accuracy of the information provided to it from financial intermediaries and may not always be able to track short term trading effected through these financial intermediaries. In addition, because the Fund is required to rely on information provided by the financial intermediary as to the applicable redemption fee, the Fund cannot guarantee that the financial intermediary is always imposing such fee on the underlying shareholder in accordance with the Fund's policies. Subject to the exclusions discussed above, the Fund seeks to apply these policies uniformly.

Certain financial intermediaries may have procedures which differ from those of the Fund to collect the redemption fees or that prevent or restrict frequent trading. Investors should refer to their intermediary's policies on frequent trading restrictions.

The Fund continues to reserve all rights, including the right to refuse any purchase request (including requests to purchase by exchange) from any person or group who, in the Fund's view, is likely to engage in excessive trading or if such purchase is not in the best interest of the Fund and to limit, delay, or impose other conditions on exchanges or purchases. The Fund has adopted a policy of seeking to minimize short term trading in its shares and monitors purchase and redemption activities to assist in minimizing short term trading.

You may redeem shares through the Distributor, directly from the Funds through the Transfer Agent, or through your financial intermediary:

- **By Letter.** You may mail a letter requesting the redemption of shares to: **The Gabelli Funds, P.O. Box 8308, Boston, MA 02266-8308**. Your letter should state the name of the Fund and the share class, the dollar amount or number of shares you wish to redeem, and your account number. You must sign the letter in exactly the same way the account is registered, and if there is more than one owner of shares, all owners must sign.
- **By Telephone or the Internet.** Unless you have requested that telephone or Internet redemptions from your account not be permitted, you may redeem your shares in an account (excluding an IRA) directly registered with State Street by calling either 800-GABELLI (800-422-3554) or 800-872-5365 (617-328-5000 from outside the United States) or by visiting our website at www.gabelli.com. You may not redeem Fund shares held through an IRA through the Internet. IRA holders should consult a tax adviser concerning the current tax rules applicable to IRAs. If State Street properly acts on telephone or Internet instructions after following reasonable procedures to protect against unauthorized transactions, neither State Street nor the Fund will be responsible for any losses due to unauthorized telephone or Internet transactions and instead you would be responsible. You may request that proceeds from telephone or Internet redemptions be mailed to you by check (if your address has not changed in the prior thirty days), forwarded to you by bank wire, or invested in another mutual fund advised by the Adviser (see "Exchange of Shares"). Among the procedures that State Street may use are passwords or verification of personal information. The Fund may impose limitations from time to time on telephone or Internet redemptions.
 1. Telephone or Internet Redemption By Check. The Fund will make checks payable to the name in which the account is registered and will normally mail the check to the address of record within seven days.
 2. Telephone or Internet Redemption By Bank Wire or ACH system. The Fund accepts telephone or Internet requests for wire or ACH system redemptions in amounts of at least \$1,000. The proceeds are normally wired on the next Business Day.

Automatic Cash Withdrawal Plan. You may automatically redeem shares on a monthly, quarterly, or annual basis if you have at least \$10,000 in your account and if your account is directly registered with State Street. Please call 800-GABELLI (800-422-3554) for more information about this plan.

Involuntary Redemption. The Fund may redeem all shares in your account (other than an IRA) the value falls below \$1,000 as a result of redemptions (but not as a result of a decline in NAV). You will be notified in writing before the Fund initiates such action and you will be allowed thirty days to increase the value of your account to at least \$1,000.

Reinstatement Privilege. A shareholder in the Fund who has redeemed Class A shares may reinvest, without a sales charge, up to the full amount of such redemption at the NAV determined at the time of the reinvestment within forty-five days of the original redemption. A redemption is a taxable transaction and a gain or loss may be recognized for federal income tax purposes even if the reinstatement privilege is exercised. However, any loss realized upon the redemption will not be recognized as to the number of shares acquired by reinstatement, except through an adjustment in the tax basis of the shares so acquired if those shares are acquired within thirty days of the redemption.

Redemption Proceeds. A redemption request received by the Fund will be effected based on the NAV next determined after the time as of which the Fund or, if applicable, its authorized designee, receives the request. If you request redemption proceeds by check, the Fund will normally mail the check to you within seven days after receipt of your redemption request. If you purchased your Fund shares by check or through the Automatic Investment Plan you may not receive proceeds from your redemption until the check clears, which may take up to as many as ten days following purchase. While the Fund will delay the processing of the redemption payment until the check clears, your shares will be valued at the next determined NAV after receipt of your redemption request.

Redemption in Kind. During certain market conditions, the Fund may pay your redemption proceeds wholly or partially in portfolio securities. Payments would be made in portfolio securities only in instances where the Corporation's Board (or its delegate) believes that it would be in the best interest not to pay redemption proceeds in cash. A redemption in kind would be a taxable event to you on which you would realize capital gain or capital loss (subject to possible limitations of deductibility). Please see "Redemption of Shares" in the SAI for additional information.

EXCHANGE OF SHARES

You can exchange shares of the Fund for shares of the same class of certain other funds managed by the Adviser based on their relative NAVs at the time of exchange (with the exception of Class T, which has no exchange privilege). To obtain a list of the funds whose shares you may acquire through an exchange, call 800-GABELLI (800-422-3554), or contact your broker. Class C shares will continue to age from the date of the original purchase of such shares and will assume the CDSC rate such shares had at the time of exchange. You may also exchange your shares for shares of the same class of a money market fund managed by the Adviser or its affiliates, without imposition of any CDSC at the time of exchange. Upon subsequent redemption from such money market fund or the Fund (after re-exchange into the Fund), such shares will be subject to the CDSC calculated by excluding the time such shares were held in a Gabelli money market fund. The Fund may impose limitations on, or terminate the exchange privilege with respect to any investor at any time. You will be given notice at least sixty days prior to any material change in the exchange privilege. An exchange of shares is a taxable event to you on which you would realize capital gain or capital loss (subject to possible limitations of deductibility).

In effecting an exchange:

- you must meet the minimum investment requirements for the fund whose shares you wish to purchase through exchange;
- if you are exchanging into a fund with a higher sales charge, you must pay the difference at the time of the exchange;
- if you are exchanging from a fund with a redemption fee applicable to the redemption involved in your exchange, you must pay the redemption fee at the time of exchange;
- you will realize a taxable gain or loss (subject to certain loss limitation rules) because the exchange is treated as a sale for federal income tax purposes;
- you should read the prospectus of the fund whose shares you are purchasing through exchange. Call 800-GABELLI (800-422-3554) or visit our website at www.gabelli.com to obtain the prospectus; and
- you should be aware that a financial intermediary may charge a fee for handling an exchange for you.

You may exchange shares through the Distributor, directly from the Transfer Agent, or through your financial intermediary that has entered into the appropriate selling agreement with the Distributor.

- **Exchange by Telephone.** You may give exchange instructions by telephone by calling 800-GABELLI (800-422-3554).
- **Exchange by Mail.** You may send a written request for exchanges to: **The Gabelli Funds, P.O. Box 8308, Boston, MA 02266-8308**. Your letter should state your name, your account number, the dollar amount or number of shares you wish to exchange, the name and class of the fund(s) whose shares you wish to exchange, and the name of the fund(s) whose shares you wish to acquire.
- **Exchange through the Internet.** You may also give exchange instructions via the Internet at www.gabelli.com. The Fund may impose limitations from time to time on Internet exchanges.

Your financial intermediary may charge you a processing fee for assisting you in purchasing or redeeming shares of the Fund. This charge is set by your financial intermediary and does not benefit the Fund, the Distributor, or the Adviser in any way. It would be in addition to the sales charges and other costs, if any, described in this prospectus and must be disclosed to you by your broker-dealer or other financial intermediary.

PRICING OF FUND SHARES

The Fund's NAV is calculated separately for each class of shares on each Business Day. The NYSE is open Monday through Friday, but currently is scheduled to be closed on New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day and on the preceding Friday or subsequent Monday when a holiday falls on a Saturday or Sunday, respectively.

The Fund's NAV is determined as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern Time. The NAV of each class is computed by dividing the value of the Fund's net assets, i.e., the value

of its securities and other assets less its liabilities, including expenses payable or accrued but excluding capital stock and surplus attributable to the applicable class of shares by the total number of shares of such class outstanding at the time the determination is made. The price of Fund shares for the purpose of purchase and redemption orders will be based upon the calculation of the NAV of each class next made after the time as of which the purchase or redemption order is received in proper form. Because the Fund may invest in foreign securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Adviser.

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market but prior to the close of business on the day the securities are being valued. Debt instruments for which market quotations are readily available are valued at the average of the latest bid and ask prices. If there were no ask prices quoted on such day, the security is valued using the closing bid price, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded. OTC futures and options on futures for which market quotations are readily available will be valued by quotations received from a pricing service or, if no quotations are available from a pricing service, by quotations obtained from one or more dealers in the instrument in question by the Adviser.

Securities and other assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities to the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

DIVIDENDS AND DISTRIBUTIONS

The Fund intends to pay dividends and capital gain distributions, if any, on an annual basis. You may have dividends or capital gain distributions that are declared by the Fund reinvested automatically at NAV

in additional shares of the Fund. You will make an election to receive dividends and distributions in cash and/or Fund shares at the time you first purchase your shares. You may change this election by notifying the Fund or your financial intermediary in writing at any time prior to the record date for a particular dividend or distribution. There are no sales or other charges by the Fund in connection with the reinvestment of dividends and capital gain distributions. Shares purchased through dividend reinvestment will receive a price without a sales charge based on the NAV on the reinvestment date, which is typically the date dividends are paid to shareholders. A dividend or capital gain distribution paid on shares purchased shortly before the record date for that dividend or capital gain distribution was declared will be subject to income taxes. There is no fixed dividend rate, and there can be no assurance that the Fund will realize any capital gains or other income with which to pay dividends and distributions. Distributions are taxable to you whether received in cash or additional shares. Dividends and distributions may be different for different classes of shares of the Fund.

TAX INFORMATION

The Fund intends to meet all requirements of the Code necessary to continue to qualify for treatment as a “regulated investment company” and thus does not expect to pay any federal income tax on net income and capital gains it distributes to its shareholders.

Fund distributions paid to you, whether in cash or reinvested in additional shares, are generally taxable to you (unless you invest through a tax-exempt vehicle such as an IRA or 401(k) plan that does not invest with borrowed money). Distributions derived from net investment income (including the excess of net short term capital gain over net long term capital loss) are generally taxable at ordinary income rates, except that under current law the Fund’s dividends attributable to “qualified dividend income” (*i.e.*, dividends it receives on stock of most U.S. and certain foreign corporations with respect to which the Fund satisfies certain holding period, debt financing and other restrictions) generally are subject to a 20% maximum federal income tax rate. Distributions of net gains from investments in capital assets that the Fund owns for more than one year and that it reports as capital gain dividends generally are taxable to you as long term capital gain, regardless of how long you have held Fund shares. Such gains are currently subject to a 20% maximum federal income tax rate for individual shareholders.

Any gain an individual shareholder recognizes on a redemption of his or her fund shares that have been held for more than one year generally will qualify for the 20% maximum federal income tax rate described above, provided such shares are held as capital assets. If you purchase shares of the Fund shortly before it declares a distribution, a portion of the purchase price may be returned to you as a taxable distribution even though it represents, in effect, a partial return of your investment. The Fund may make taxable distributions even during periods in which the share price has declined.

Dividends and other distributions by the Fund are generally treated as received by you at the time the dividend or distribution is made. However, any dividend or distribution declared by the Fund in October, November, or December of any calendar year to shareholders of record on a specified date in such a month will generally be deemed for tax purposes to have been received by each shareholder on December 31 of such year, provided such dividend is actually paid by the Fund during January of the following year.

After the end of each calendar year, the Fund will provide you with information about the distributions you received. If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you may be subject to backup withholding on your distributions and redemption proceeds.

If you sell your Fund's shares, it is considered a taxable event for you. Depending on the purchase price and the sale price of the shares you sell, you may have a gain or a loss on the transaction. You are responsible for any tax liabilities generated by your transaction.

Dividends and net capital gains are generally subject to a 3.8% federal tax on net investment income for shareholders whose adjusted gross income exceeds \$200,000 for single filers and \$250,000 for married joint filers.

By law, the Fund must withhold, as backup withholding, a percentage (currently 24%) of your taxable distributions and redemption proceeds if you do not provide your correct social security or taxpayer identification number and certify that you are not subject to backup withholding, or if the Internal Revenue Service instructs the Fund to do so.

This summary of tax consequences is intended for general information only and is subject to change by legislative, judicial, or administrative action, and any such change may be retroactive. A more complete discussion of the tax rules applicable to you and the Fund can be found in the SAI that is incorporated by reference into this prospectus. Tax consequences are not the primary consideration of the Fund in making its investment decisions. You should consult a tax adviser concerning the federal, state, and local tax consequences of your investment in the Fund.

MAILINGS AND E-DELIVERY TO SHAREHOLDERS

In our continuing efforts to reduce duplicative mail and Fund expenses, we currently send a single copy of prospectuses and shareholder reports to your household even if more than one member in your household owns the same fund or funds described in the prospectus or report. Additional copies of our prospectuses and reports may be obtained by calling 800-GABELLI (800-422-3554). If you do not want us to continue to consolidate your fund mailings and would prefer to receive separate mailings at any time in the future, please call us at the telephone number above and we shall resume separate mailings, in accordance with your instructions within thirty days of your request. The Fund offers electronic delivery of Fund documents. Direct shareholders of the Fund can elect to receive the Fund's annual, semiannual, and quarterly reports, as well as manager commentaries, and prospectuses via e-delivery. For more information or to sign up for e-delivery, please visit the Fund's website at www.gabelli.com. Shareholders who purchased shares of the Fund through a financial intermediary should contact their financial intermediary to sign up for e-delivery of the Fund documents, if available.

FINANCIAL HIGHLIGHTS

The Financial Highlights table is intended to help you understand the financial performance of the Fund for the past five fiscal years. The total returns in the table represent the percentage amount that an investor would have earned or lost on an investment in the Fund's Class AAA, Class A, Class C, Class Y and Class T shares (assuming reinvestment of all distributions). This information has been audited by PricewaterhouseCoopers LLP, independent registered public accounting firm, whose report, along with the Fund's financial statements and related notes, is included in the Fund's annual report, which is available upon request.

Gabelli Enterprise Mergers and Acquisitions Fund Financial Highlights

Selected data for a share of capital stock outstanding throughout each period:

Year Ended October 31	Income (Loss) from Investment Operations					Ratios to Average Net Assets/ Supplemental Data

† Total return represents aggregate total return of a hypothetical \$1,000 investment at the beginning of the period and sold at the end of the period including reinvestment of distributions and does not reflect applicable sales charges. Total return for a period of less than one year is not annualized.

- (a) Per share amounts have been calculated using the average shares outstanding method.
- (b) Amount represents less than \$0.005 per share.
- (c) The Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. For the years ended October 31, 2017, 2016 and 2015, there was no impact on the expense ratios.
- (d) The Fund incurred interest expense during the year ended October 31, 2017. If interest expense had not been incurred during the year, the ratio of operating expenses to average net assets would have been 1.50% (Class AAA), 1.70% (Class A), 2.25% (Class C), 1.50% (Class T) and 1.25% (Class Y) respectively. For the years ended October 31, 2016, 2015, 2014, and 2013, there was no impact on the expense ratio.
- (e) The Fund incurred dividend expense and service fees on securities sold short. If these expenses and fees had not been incurred, the ratios of operating expenses to average net assets for the year ended October 31, 2016 would have been 1.50% (Class AAA), 1.70% (Class A), 2.25% (Class C), and 1.25% (Class Y), respectively. For the years ended October 31, 2015, 2014, and 2013, there was no impact on the expense ratios.
- (f) During the year ended October 31, 2016, the Fund received a reimbursement of custody expenses paid in prior years. Had such reimbursement (allocated by relative net asset values of the Fund's share classes) been included in that period, the expense ratios would have been 1.44% (Class AAA), 1.64% (Class A), 2.19% (Class C), and 1.19% (Class Y), respectively.
- (g) Class T Shares were initially offered on June 30, 2017.

APPENDIX A

Sales Charge Reductions and Waivers Available through Certain Intermediaries

Specific intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or CDSC waivers, which are discussed below. In all instances, it is the purchaser's responsibility to notify the Fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge reductions or waivers. **Not all intermediaries will offer the same reductions and waivers to persons purchasing shares of the Fund.** In order to receive these reductions or waivers shareholders will have to purchase Fund shares through an intermediary offering such reductions or waivers or directly from the Fund if the Fund offers such reductions or waivers. Please see the section entitled "Classes of Shares" for more information on sales charge reductions and waivers available for different classes of shares that are available for purchase directly from the Fund. Merrill Lynch's specific sales charge waivers and/or discounts are implemented and solely administered by Merrill Lynch. Please contact Merrill Lynch to ensure that you understand the steps that you must take to qualify for available waivers and discounts.

The information in this Appendix A is part of, and incorporated into, the Fund's prospectus.

Merrill Lynch, Pierce, Fenner & Smith Incorporated ("Merrill Lynch")

Shareholders purchasing Fund shares through a Merrill Lynch platform or account will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in the Fund's prospectus.

Front-end Sales Load Waivers on Class A Shares Available at Merrill Lynch
Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
Shares purchased by or through a 529 Plan
Shares purchased through a Merrill Lynch affiliated investment advisory program
Shares purchased by third party investment advisors on behalf of their advisory clients through Merrill Lynch's platform
Shares of funds purchased through the Merrill Edge Self-Directed platform (if applicable)
Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the Fund Complex)
Shares exchanged from Class C shares of the same fund in the month of or following the 10 year anniversary of the purchase date
Employees and registered representatives of Merrill Lynch or its affiliates and their family members
Directors or Trustees of the Fund, and employees of the Fund's investment adviser or any of its affiliates, as described in this prospectus
Shares purchased from the proceeds of redemptions within the Fund Complex, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement)

CDSC Waivers on Class A and C Shares Available at Merrill Lynch
Death or disability of the shareholder
Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus
Return of excess contributions from an IRA Account
Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½
Shares sold to pay Merrill Lynch fees but only if the transaction is initiated by Merrill Lynch
Shares acquired through a right of reinstatement
Shares held in retirement brokerage accounts, that are exchanged for a lower cost share class due to transfer to a fee based accounts or platforms (applicable to A and C shares only)
Front-end load Discounts Available at Merrill Lynch: Breakpoints, Rights of Accumulation & Letters of Intent
Breakpoints as described in this prospectus
Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of Fund Complex assets held by accounts within the purchaser's household at Merrill Lynch. Eligible Fund Complex assets not held at Merrill Lynch may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets
Letters of Intent (LOI) which allow for breakpoint discounts based on anticipated purchases within the Fund Complex, through Merrill Lynch, over a 13 month period of time (if applicable)

Gabelli Enterprise Mergers and Acquisitions Fund

Class AAA, A, C, T, and Y Shares

For more information about the Fund, the following documents are available free upon request:

Annual/Semiannual Reports:

The Fund's semiannual and audited annual reports to shareholders contain additional information on the Fund's investments. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year.

Statement of Additional Information (SAI):

The SAI provides more detailed information about the Fund, including its operations and investment policies. It is incorporated by reference and is legally considered a part of this prospectus.

Appendix A:

Appendix A to this prospectus, "Sales Charge Reductions and Waivers Available through Certain Intermediaries" is a separate document that is incorporated by reference into this prospectus and contains information on sales charge reductions and waivers that differ from the sales charge reductions and waivers disclosed in this prospectus and the related SAI.

You can obtain free copies of these documents and prospectuses of other funds in the Gabelli/GAMCO family, or request other information and discuss your questions about the Fund by mail, toll free telephone, or the Internet as follows:
