

GABELLI SRI FUND, INC. (the “Fund”)

Supplement dated May 17, 2016, to the Fund’s Summary Prospectuses for Class A Shares, Class C Shares, Class I Shares, and for Class AAA Shares, each dated July 29, 2015

Effective May 17, 2016, all references in the Summary Prospectus to Gabelli SRI Fund, Inc. should be replaced with Gabelli ESG Fund, Inc., and the below changes should be noted.

The first three paragraphs in the “Principal Investment Strategies” section of the Summary Prospectus should be replaced with the following:

“The Fund seeks to achieve its objective by investing substantially all, and in any case no less than 80%, of its assets in common and preferred stocks of companies that meet the Fund’s guidelines for social responsibility at the time of investment. Under normal market conditions, the Fund invests its assets in stocks that are listed on a recognized securities exchange or similar market, such as the National Market System of the Financial Industry Regulatory Authority, Inc. (“FINRA”). The Fund may also invest in foreign securities, including those in emerging markets, and in securities that are convertible into common stocks. The Fund focuses on investments in companies whose securities are trading at a material discount to their private market value (“PMV”). PMV is the value the Adviser believes an informed industrialist would be willing to pay for a company.

Socially Responsible Criteria. The Fund combines a differentiated, value-oriented investment philosophy with social screens and a holistic ESG (Environmental, Social, Governance) analysis to deliver returns in a socially responsive manner. The Adviser employs a social screening overlay process at the time of investment to identify companies that meet the Fund’s social guidelines. Pursuant to the guidelines, the Fund will not invest in publicly traded fossil fuel (coal, oil, and gas) companies, the top 50 defense/weapons contractors, or in companies that derive more than 5% of their revenues from the following areas: tobacco, alcohol, gaming, defense/weapons production, and companies involved in the manufacture of abortion related products. The Fund utilizes MSCI’s ESG ratings to assist in its holistic analysis of each company considered for investment.

After identifying companies that satisfy these social criteria, the Adviser then will invest in securities of companies that the Adviser believes are trading at a material discount to PMV. The Adviser will monitor each holding on a regular basis to ensure its compliance with the Fund’s guidelines. Securities that no longer meet these guidelines will be sold within a reasonable period of time after the Adviser makes such a determination. Securities may also be sold if the Adviser believes the securities no longer

appear to be underpriced relative to their PMV, or if there is a change to an underlying industry or company that the Adviser believes may negatively affect the value of such securities.”

SUMMARY PROSPECTUS July 29, 2015

Class A (SRIAX), C (SRICX), I (SRIDX)

Before you invest, you may want to review the Fund's Prospectus and Statement of Additional Information ("SAI"), which contain more information about the Fund and its risks. You can find the Fund's Prospectus and SAI and other information about the Fund online at www.gabelli.com. You can also get this information at no cost by calling 800-422-3554 or by sending an email request to info@gabelli.com. The Fund's Prospectus and SAI, both dated July 29, 2015, are incorporated by reference into this Summary Prospectus.

Investment Objective

The Gabelli SRI Fund, Inc. (the "Fund") seeks capital appreciation.

Fees and Expenses of the Fund:

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on Class A Shares if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A Shares of the Gabelli family of mutual funds. More information about these and other discounts is available from your financial professional and in the "Classes of Shares" section on page 12 of the Prospectus.

	<u>Class A Shares</u>	<u>Class C Shares</u>	<u>Class I Shares</u>

Other Expenses	<u>0.39%</u>	<u>0.39%</u>	<u>0.39%</u>
Total Annual Fund Operating Expenses	<u>1.64%</u>	<u>2.39%</u>	<u>1.39%</u>

Expense Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year, and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class A Shares	\$732	\$1,063	\$1,415	\$2,407
Class C Shares	\$342	\$ 745	\$1,275	\$2,726
Class I Shares	\$142	\$ 440	\$ 761	\$1,669

You would pay the following expenses if you did not redeem your shares of the Fund:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class A Shares	\$732	\$1,063	\$1,415	\$2,407
Class C Shares	\$242	\$ 745	\$1,275	\$2,726
Class I Shares	\$142	\$ 440	\$ 761	\$1,669

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when the Fund’s shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 28% of the average value of its portfolio.

Principal Investment Strategies

The Fund seeks to achieve its objective by investing substantially all, and in any case no less than 80%, of its assets in common and preferred stocks of companies that meet the Fund’s guidelines for social responsibility at the time of investment. Under normal market conditions, the Fund invests its assets in stocks that are listed on a recognized securities exchange or similar market, such as the National Market System of the Financial Industry Regulatory Authority, Inc. (“FINRA”). The Fund may also invest in foreign securities, including those in emerging markets, and in securities that are convertible into common stocks. The Fund focuses on investments in companies whose securities appear to be under priced relative to their Private Market Value (“PMV”). PMV or “fair value” is the value the Adviser believes informed investors would be willing to pay for a company.

Socially Responsible Criteria. The Adviser employs a social screening overlay process at the time of investment to identify companies that meet the Fund’s social guidelines. Pursuant to the guidelines, the Fund will not invest in publicly traded fossil fuel (coal, oil, and gas) companies, the top 50 defense/weapons contractors, or in companies that derive more than 5% of their revenues from the following areas: tobacco, alcohol, gaming, defense/weapons production, and companies involved in the manufacture of abortion related products.

After identifying companies that satisfy these social criteria, the Adviser then will invest in securities of companies that the Adviser believes are likely to have rapid growth in revenues and above average rates of earnings growth. The Adviser will monitor each holding on a regular basis to ensure its compliance with the Fund’s guidelines. Securities that no longer meet these guidelines will be sold within a reasonable period of time after the Adviser makes such a determination. Securities may also be sold if the Adviser believes the securities no longer appear to be underpriced relative to their PMV, or fair value, or if there is a change to an underlying industry or company that the Adviser believes may affect the value of such securities.

The Fund may also use the following investment technique:

- **Lower Grade Convertible Debt Securities.** The Fund will normally purchase only investment grade, convertible debt securities having a rating of, or equivalent to, at least “BBB” (which securities may have speculative characteristics) by Standard & Poor’s (“S&P”) or, if unrated, judged by the Adviser to be of comparable quality. However, on occasion when the Adviser deems appropriate, the Fund may also invest up to 25% of its assets in more speculative convertible debt securities, provided such securities have a rating of, or equivalent to, at least an S&P rating of “B”.

Principal Risks

You may want to invest in the Fund if:

- you are a long term investor
- you seek capital appreciation
- you want exposure to equity investments in companies that meet the Fund’s socially responsible guidelines
- you believe that the market will favor growth over value stocks over the long term
- you wish to include a growth strategy as a portion of your overall investments

The Fund's share price will fluctuate with changes in the market value of the Fund's portfolio securities. Your investment in the Fund is not guaranteed; you may lose money by investing in the Fund. When you sell your shares of the Fund, they could be worth more or less than what you paid for them.

The principal risks presented by the Fund are:

- **Convertible Securities Risk.** Convertible securities provide higher yields than the underlying common stock, but generally offer lower yields than nonconvertible securities of similar quality. The value of convertible securities fluctuates in relation to changes in interest rates and, in addition, fluctuates in relation to the underlying common stock.
- **Equity Risk.** Equity risk is the risk that the prices of the securities held by the Fund will change due to general market and economic conditions, perceptions regarding the industries in which the companies issuing the securities participate, and the issuer companies' particular circumstances.
- **Foreign Securities Risk.** Investments in foreign securities involve risks relating to political, social, and economic developments abroad, as well as risks resulting from the differences between the regulations to which U.S. and foreign issuers and markets are subject. These risks include expropriation, differing accounting and disclosure standards, currency exchange risks, settlement difficulties, market illiquidity, difficulties enforcing legal rights, and greater transaction costs. These risks are more pronounced in the securities of companies located in emerging markets.
- **Interest Rate Risk, Maturity Risk, and Credit Risk.** When interest rates decline, the value of the portfolio's debt securities generally increases. Conversely, when interest rates rise, the value of the portfolio's debt securities generally declines. The magnitude of the increase or decline will often be greater for longer term debt securities than shorter term debt securities. It is also possible that the issuer of a debt security will not be able to make interest and principal payments when due.
- **Lower Grade Convertible Debt Securities Risk.** The issuers of debt obligations having speculative characteristics may experience difficulty in paying principal and interest when due in the event of a downturn in the economy or unanticipated corporate developments. The market prices of such securities may become increasingly volatile in periods of economic uncertainty. Moreover, adverse publicity or the perceptions of investors over which the Adviser has no control, whether or not based on fundamental analysis, may decrease the market price and liquidity of such investments.
- **Management Risk.** If the portfolio managers are incorrect in their assessment of the growth prospects of the securities the Fund holds, then the value of the Fund's shares may decline.
- **Market Risk.** The risk that the securities markets will fluctuate, sometimes rapidly and unpredictably based on overall economic conditions and other factors.
- **Preferred Stock Risk.** Preferred stocks are susceptible to general market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. The dividend on a preferred stock may be changed or omitted by the issuer, and participation in the growth of an issuer may be limited.
- **Socially Responsible Investment Risk.** The application of the Adviser's socially responsible criteria will affect the Fund's exposure to certain issuers, industries, sectors, regions, and countries and may impact the relative financial performance of the Fund – positively or negatively – depending on whether such investments are in or out of favor.

Performance

The bar chart and table that follow provide an indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year, and by showing how the Fund's average annual returns for one year, five years, and the life of the Fund compared with the MSCI AC World Index and the S&P 500 Index. As with all mutual funds, the Fund's past performance (before and after taxes) does not predict how the Fund will perform in the future. Updated information on the Fund's results can be obtained by visiting www.gabelli.com.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or Individual Retirement Accounts, including "Roth" IRAs and SEP IRAs (collectively, "IRAs"). After-tax returns are shown only for Class A Shares. After-tax returns for other classes will vary due to the differences in expenses.

Management

The Adviser. Gabelli Funds, LLC serves as the Adviser to the Fund.

The Portfolio Managers. Mr. Christopher C. Desmarais, Managing Director of GAMCO Asset Management, Inc., has served as Portfolio Manager of the Fund since its inception in June 2007. Mr. Kevin V. Dreyer, Managing Director of G.research, LLC, has served as Portfolio Manager of the Fund since October 2011. Mr. Christopher C. Marangi, Managing Director of G.research, LLC, has served as Portfolio Manager of the Fund since October 2011.

Purchase and Sale of Fund Shares

The minimum initial investment for Class A and Class C Shares must be at least \$1,000 (\$250 for IRAs or “Coverdell” Education Saving Plans). There is no minimum initial investment in an automatic monthly investment plan. There is no minimum for subsequent investments.

Generally, the minimum initial investment for Class I Shares is at least \$100,000. However, this minimum initial investment is waived for employee benefit plans with assets of at least \$50 million.

You can purchase or redeem the Fund’s shares on any day the New York Stock Exchange (“NYSE”) is open for trading (a “Business Day”). You may purchase or redeem Fund shares by written request via mail (The Gabelli Funds, P.O. Box 8308, Boston, MA 02266-8308), by personal or overnight delivery (The Gabelli Funds, c/o BFDS, 30 Dan Road, Canton, MA 02021-2809), by bank wire, or by Automated Clearing House (“ACH”) system.

You may also redeem Fund shares by telephone at 800-GABELLI (800-422-3554), on the Internet at www.gabelli.com, or through an automatic cash withdrawal plan.

You can also place orders to purchase or sell Fund shares through registered broker-dealers or other financial intermediaries that have entered into appropriate selling agreements with G.distributors, LLC (“G.distributors” or the “Distributor”), an affiliate of the Adviser. The broker-dealer or other financial intermediary will transmit these transaction orders to the Fund on your behalf and send you confirmation of your transactions and periodic account statements showing your investments in the Fund.

Tax Information

The Fund expects that distributions will generally be taxable as ordinary income or long term capital gains to taxable investors, unless you are investing through a tax deferred arrangement, such as a 401(k) plan or an IRA.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
