

GAMCO GLOBAL SERIES FUNDS, INC.

Supplement dated June 22, 2017

to

The GAMCO Global Telecommunications Fund's Summary Prospectus dated April 28, 2017

This supplement amends certain information in the Summary Prospectus (the "Summary Prospectus") dated April 28, 2017, of The GAMCO Global Telecommunications Fund (the "Fund"), a series of GAMCO Global Series Funds, Inc. (the "Company"). Unless otherwise indicated, all other information included in the Summary Prospectus, or any previous supplements thereto, that is not inconsistent with the information set forth in this supplement remains unchanged. Capitalized terms not otherwise defined in this supplement have the same meaning as in the Summary Prospectus.

Offering of Class T Shares

Effective July 5, 2017, Class T shares of **The GAMCO Global Telecommunications Fund** are offered for sale. All references in the Summary Prospectus to the Class T shares of the Fund not being currently offered for sale are hereby deleted effective July 5, 2017. The Summary Prospectus does not show returns for Class T shares of the Fund since Class T shares of the Fund were not offered prior to July 5, 2017. For information regarding the Class T shares of the Fund, see the Summary Prospectus and the Company's Prospectus and Statement of Additional Information.

The NASDAQ ticker symbol for the Net Asset Value of Class T shares of the Fund is GGTTX.

Name Change

Effective as of September 5, 2017, "**The GAMCO Global Telecommunications Fund**" will change its name and become "**The Gabelli Global Content & Connectivity Fund**" and all references to "The GAMCO Global Telecommunications Fund" or the "Global Telecommunications Fund" will be changed to "The Gabelli Global Content & Connectivity Fund" or the "Global Content & Connectivity Fund", as the case may be.

Principal Investment Strategies

Effective as of September 5, 2017, the Principal Investment Strategies of the Global Content & Connectivity Fund will be as follows.

Under normal market conditions, the Global Content & Connectivity Fund will invest its net assets in common stocks of companies in the telecommunications, media, and information technology industries which Gabelli Funds, LLC, the Global Content & Connectivity Fund's investment adviser (the "Adviser"), believes are likely to have rapid growth in revenues and earnings and potential for above average capital appreciation or are undervalued. The Global Content & Connectivity Fund invests primarily in common stocks of foreign and domestic small-capitalization, mid-capitalization, and large-capitalization issuers. As a "global" fund, the Global Content & Connectivity Fund invests in securities of issuers, or related investments thereof, located in at least three countries, and at least 40% of the Global Content & Connectivity Fund's total net assets is invested in securities of non-U.S. issuers or related investments thereof. In selecting investments, the Adviser also considers the market price of the issuer's securities, its balance sheet characteristics and the perceived strength of its management. In accordance with its existing concentration policy, the Global Content & Connectivity Fund will continue to invest at least 25% of the value of its total assets in the telecommunications-related industry, and not invest more than 25% of the value of its total assets in any other particular industry.

The companies in which the Global Content & Connectivity Fund may invest are engaged in the following products, services, or activities: telecommunications services (including data, video, voice, advanced IP-based services, corporate networking solutions, messaging and other communication and connectivity applications based on established and emerging technologies); telecommunications infrastructure and equipment; media & entertainment (including television; radio; cable networks; filmed, live, and digital entertainment; advertising; publishing; emerging forms of digital and interactive content; eSports; and eGaming); consumer electronics; e-commerce & information technology (including Internet software and services; application, systems, and home entertainment software; IT consulting, data processing, and technology hardware and equipment). Additional cross-industry investment focus areas include: cloud computing, The Internet of Things (“IoT”) (including solutions related to connected vehicle, connected home, smart city, smart grid), Big Data, artificial intelligence, machine learning, robotics, cybersecurity, virtual reality, augmented reality, digital convergence, biometric and wearable devices, eHealth, eGovernment, financial technology, over-the-top (“OTT”) content and applications, and software-as-a-service (“SaaS”).

Principal Risks

Effective as of September 5, 2017, the Principal Risks of the Global Content & Connectivity Fund will be as follows.

You may want to invest in the Global Content & Connectivity Fund if:

- you are a long term investor
- you seek growth of capital
- you seek to diversify your investments outside the U.S.

The Global Content & Connectivity Fund’s share price will fluctuate with changes in the market value of the Global Content & Connectivity Fund’s portfolio securities. Stocks are subject to market, economic, and business risks that may cause their prices to fluctuate. Your investment in the Global Content & Connectivity Fund is not guaranteed; you may lose money by investing in the Global Content & Connectivity Fund. When you sell Global Content & Connectivity Fund shares, they may be worth less than what you paid for them.

Investing in the Global Content & Connectivity Fund involves the following risks:

- **Concentration Risk.** Because the Global Content & Connectivity Fund will invest at least 25% of its total assets in securities of companies in the telecommunications related industry, and will otherwise focus its investments in the media and information technology industries, the Global Content & Connectivity Fund may be subject to greater volatility with respect to its portfolio securities than a fund that is more broadly diversified. Accordingly, the Global Content & Connectivity Fund is subject to the risk that its performance may be hurt disproportionately by the poor performance of relatively few securities.
- **Equity Risk.** Equity risk is the risk that the prices of the securities held by the Global Content & Connectivity Fund will change due to general market and economic conditions, perceptions regarding the industries in which the companies issuing the securities participate and the issuer companies particular circumstances.

- **Foreign Securities Risk.** Investments in foreign securities involve risks relating to political, social, and economic developments abroad, as well as risks resulting from the differences between the regulations to which U.S. and foreign issuers and markets are subject. These risks include expropriation, differing accounting and disclosure standards, currency exchange risks, settlement difficulties, market illiquidity, difficulties enforcing legal rights, and greater transaction costs. These risks are more pronounced in the securities of companies located in emerging markets.
- **Industry Risk. Telecommunications**—The telecommunications industry is subject to governmental regulation and a greater price volatility than the overall market, and telecommunications companies can be adversely affected by, among other things, changes in government regulation, intense competition, dependency on patent protection, significant capital expenditures, heavy debt burdens, rapid obsolescence of products and services due to product compatibility or changing consumer preferences and strong market reactions to technological developments throughout the industry, among other things. In addition, companies in which the Global Content & Connectivity Fund invests may be adversely affected by lack of commercial acceptance of a new product or process or by technological change.

Media—Media companies are subject to risks that include cyclicalities of revenues and earnings, a decrease in the discretionary income of targeted individuals, changing consumer tastes and interests, fierce competition in the industry and the potential for increased government regulation. Additionally, intellectual property rights are very important to many media companies and the expiration of intellectual property rights or other events that adversely affect a media company's intellectual property rights may materially and adversely affect the value of its securities.

Information Technology—The market prices of technology and technology-related stocks tend to exhibit a greater degree of market risk and price volatility than other types of investments. These stocks also may be affected adversely by changes in technology, consumer and business purchasing patterns, short product cycles, falling prices and profits, government regulation, lack of standardization or compatibility with existing technologies, intense competition, aggressive pricing, dependence on copyright and/or patent protection and/or obsolete products or services. As a result, these factors may negatively affect the performance of the Global Content & Connectivity Fund.

These risks may be heightened for telecommunications, media, and technology companies in foreign markets.

- **Growth Stock Risk.** Securities of growth companies may be more volatile since such companies usually invest a high portion of earnings in their business, and they may lack the dividends of value stocks that can cushion stock prices in a falling market.
- **Issuer Risk.** The value of a security may decline for a number of reasons that directly relate to an issuer, such as management performance, financial leverage and reduced demand for the issuer's goods or services, as well as the historical and prospective earnings of the issuer and the value of its assets or factors unrelated to the issuer's value, such as investor perception.

- **Management Risk.** If the portfolio managers are incorrect in their assessment of the growth prospects of the securities the Global Content & Connectivity Fund holds, then the value of the Global Content & Connectivity Fund's shares may decline.
- **Non-Diversification Risk.** As a non-diversified mutual fund, more of the Global Content & Connectivity Fund's assets may be focused in the common stocks of a small number of issuers, which may make the value of the Global Content & Connectivity Fund's shares more sensitive to changes in the market value of a single issuer or industry and more susceptible to risks associated with a single economic, market, political or regulatory occurrence than shares of a diversified mutual fund.
- **Smaller Capitalization Risk.** Risk is greater for the securities of smaller capitalization companies (including small unseasoned companies that have been in operation for less than three years) because such companies generally are more vulnerable than larger companies to adverse business or economic developments and they may have more limited resources.

Portfolio Managers

Effective September 5, 2017, Brett Harriss, MBA, will become a portfolio manager of the Global Content & Connectivity Fund. Mario J. Gabelli, CFA, Chief Investment Officer – Value Portfolios of the Adviser, Sergey Dluzhevskiy, CPA, CFA, and Evan Miller, CFA, will remain portfolio managers of the Global Content & Connectivity Fund. Mr. Mario J. Gabelli, CFA, Chief Investment Officer — Value Portfolios of the Adviser, has served as portfolio manager of the Global Telecommunications Fund since 1993. Sergey Dluzhevskiy, CPA, CFA, has served as associate portfolio manager of the Global Telecommunications Fund since 2006. Evan Miller, CFA, has served as associate portfolio manager of the Global Telecommunications Fund since 2002.

Shareholders Should Retain This Supplement For Future Reference

The GAMCO Global Telecommunications Fund

A series of GAMCO Global Series Funds, Inc.

SUMMARY PROSPECTUS April 28, 2017

Class AAA (GABTX), A (GTCAX), C (GTCCX), I (GTTIX)

Before you invest, you may want to review the Fund's Prospectus and Statement of Additional Information ("SAI"), which contain more information about the Fund and its risks. You can find the Fund's Prospectus and SAI and other information about the Fund online at www.gabelli.com. You can also get this information at no cost by calling 800-422-3554 or by sending an email request to info@gabelli.com. The Fund's Prospectus and SAI, both dated April 28, 2017, are incorporated by reference into this Summary Prospectus.

Investment Objective

The GAMCO Global Telecommunications Fund (the "Global Telecommunications Fund" or the "Fund") primarily seeks to provide investors with appreciation of capital. Current income is a secondary objective of the Fund.

Fees and Expenses of the Global Telecommunications Fund:

This table describes the fees and expenses that you may pay if you buy and hold shares of the Global Telecommunications Fund. You may qualify for sales charge discounts on Class A shares if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A shares of the Gabelli family of mutual funds. More information about these and other discounts is available from your financial professional and in the section entitled, "Classes of Shares" on page 37 of the prospectus.

	<u>Class AAA Shares</u>	<u>Class A Shares</u>	<u>Class C Shares</u>	<u>Class I Shares</u>	<u>Class T Shares⁽¹⁾</u>
Shareholder Fees					
(fees paid directly from your investment):					
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	5.75%	None	None	2.50%
Maximum Deferred Sales Charge (Load) (as a percentage of redemption price)	None	None	1.00%	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends (as a percentage of amount invested)	None	None	None	None	None
Redemption Fee (as a percentage of amount redeemed for shares held 7 days or less)	2.00%	2.00%	2.00%	2.00%	2.00%
Exchange Fee	None	None	None	None	None
Annual Fund Operating Expenses					
(expenses that you pay each year as a percentage of the value of your investment):					
Management Fees	1.00%	1.00%	1.00%	1.00%	1.00%
Distribution and Service (Rule 12b-1) Fees	0.25%	0.25%	1.00%	None	0.25%
Other Expenses	0.40%	0.40%	0.40%	0.40%	0.40%
Total Annual Fund Operating Expenses ⁽²⁾	1.65%	1.65%	2.40%	1.40%	1.65%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	—	—	—	(0.40)%	—
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	<u>1.65%</u>	<u>1.65%</u>	<u>2.40%</u>	<u>1.00%</u>	<u>1.65%</u>

(1) Class T shares are not currently offered for sale.

(2) The Adviser has contractually agreed to waive its investment advisory fees and/or to reimburse expenses of the Global Telecommunications Fund to the extent necessary to maintain the Total Annual Fund Operating Expenses After Fee Waiver and Expense Reimbursement (excluding brokerage costs, acquired fund fees and expenses, interest, taxes, and extraordinary expenses) at no more than an annual rate of 1.00% for Class I shares. Under this same arrangement, the Global Telecommunications Fund has also agreed, during the two year period following the year of any such waiver or reimbursement by the Adviser, to repay such amount, but only to the extent the Global Telecommunications Fund's adjusted Total Annual Fund Operating Expenses would not exceed an annual rate of 1.00% for Class I shares, after giving effect to the repayments. This arrangement is in effect through April 30, 2018 for the Class I shares, and may be terminated only by the Board of Directors of the Corporation before such time. The Fund will carry forward, for a period not to exceed three years from the date that an amount is waived, any fees in excess of the expense limitation and repay the Adviser such amount provided the Fund is able to do so without exceeding the lesser of (1) the expense limit in effect at the time of the waiver or reimbursement, as applicable, or (2) the expense limit in effect at the time of recoupment.

Expense Example

This example is intended to help you compare the cost of investing in the Global Telecommunications Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Global Telecommunications Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Global Telecommunications Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class AAA Shares	\$168	\$ 520	\$ 897	\$1,955
Class A Shares	\$733	\$1,065	\$1,420	\$2,417
Class C Shares	\$343	\$ 748	\$1,280	\$2,736
Class I Shares	\$102	\$ 404	\$ 728	\$1,645
Class T Shares	\$414	\$ 757	\$1,125	\$2,156

You would pay the following expenses if you did not redeem your shares of the Global Telecommunications Fund:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class AAA Shares	\$168	\$ 520	\$ 897	\$1,955
Class A Shares	\$733	\$1,065	\$1,420	\$2,417
Class C Shares	\$243	\$ 748	\$1,280	\$2,736
Class I Shares	\$102	\$ 404	\$ 728	\$1,645
Class T Shares	\$414	\$ 757	\$1,125	\$2,156

Portfolio Turnover

The Global Telecommunications Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when the Global Telecommunications Fund's shares are held in a taxable account. These costs, which are not reflected in the annual fund operating expenses or in the example, affect the Global Telecommunications Fund's performance. During the most recent fiscal year, the Global Telecommunications Fund's portfolio turnover rate was 9% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Global Telecommunications Fund will invest at least 80% of its net assets in common stocks of companies in the telecommunications industry which Gabelli Funds, LLC, the Global Telecommunications Fund's investment adviser (the "Adviser"), believes are likely to have rapid growth in revenues and earnings and potential for above average capital appreciation or are undervalued. The Global Telecommunications Fund invests primarily in common stocks of foreign and domestic small-capitalization, mid-capitalization, and large-capitalization issuers. As a "global" fund, the Global Telecommunications Fund invests in securities of issuers, or related investments thereof, located in at least three countries, and at least 40% of the Fund's total net assets is invested in securities of non-U.S. issuers or related investments thereof. In selecting investments,

the Adviser also considers the market price of the issuer's securities, its balance sheet characteristics and the perceived strength of its management.

The telecommunications companies in which the Global Telecommunications Fund may invest are engaged in the following products or services: regular telephone service throughout the world; wireless communications services and equipment, including cellular telephone, microwave, and satellite communications, paging, and other emerging wireless technologies; equipment and services for both data and voice transmission, including computer hardware and software; electronic components and communications equipment; video conferencing; electronic mail; local and wide area networking, and linkage of data and word processing systems; publishing and information systems; video text and teletext; emerging technologies combining television, telephone, and computer systems; broadcasting, including television and radio via VHF, UHF, satellite, and microwave transmission, and cable television.

Principal Risks

You may want to invest in the Global Telecommunications Fund if:

- you are a long term investor
- you seek growth of capital
- you seek to diversify your investments outside the U.S.

The Global Telecommunications Fund's share price will fluctuate with changes in the market value of the Global Telecommunications Fund's portfolio securities. Stocks are subject to market, economic, and business risks that may cause their prices to fluctuate. Your investment in the Global Telecommunications Fund is not guaranteed; you may lose money by investing in the Global Telecommunications Fund. When you sell Global Telecommunications Fund shares, they may be worth less than what you paid for them.

Investing in the Global Telecommunications Fund involves the following risks:

- **Concentration Risk.** The Global Telecommunications Fund may be subject to greater volatility with respect to its portfolio securities than a fund that is more broadly diversified.
- **Equity Risk.** Equity risk is the risk that the prices of the securities held by the Global Telecommunications Fund will change due to general market and economic conditions, perceptions regarding the industries in which the companies issuing the securities participate and the issuer companies particular circumstances.
- **Foreign Securities Risk.** Investments in foreign securities involve risks relating to political, social, and economic developments abroad, as well as risks resulting from the differences between the regulations to which U.S. and foreign issuers and markets are subject. These risks include expropriation, differing accounting and disclosure standards, currency exchange risks, settlement difficulties, market illiquidity, difficulties enforcing legal rights, and greater transaction costs. These risks are more pronounced in the securities of companies located in emerging markets.
- **Industry Risk.** The telecommunications industry is subject to governmental regulation and a greater price volatility than the overall market, and the products and services of such companies may be subject to rapid obsolescence resulting from changing consumer tastes, intense competition, and strong market reactions to technological developments throughout the industry.
- **Growth Stock Risk.** Securities of growth companies may be more volatile since such companies usually invest a high portion of earnings in their business, and they may lack the dividends of value stocks that can cushion stock prices in a falling market.
- **Issuer Risk.** The value of a security may decline for a number of reasons that directly relate to an issuer, such as management performance, financial leverage and reduced demand for the issuer's goods or services, as well as the historical and prospective earnings of the issuer and the value of its assets or factors unrelated to the issuer's value, such as investor perception.
- **Management Risk.** If the portfolio managers are incorrect in their assessment of the growth prospects of the securities the Global Telecommunications Fund holds, then the value of the Global Telecommunications Fund's shares may decline.
- **Non-Diversification Risk.** As a non-diversified mutual fund, more of the Global Telecommunications Fund's assets may be focused in the common stocks of a small number of issuers, which may make the

value of the Global Telecommunications Fund's shares more sensitive to changes in the market value of a single issuer or industry and more susceptible to risks associated with a single economic, market, political or regulatory occurrence than shares of a diversified mutual fund.

- **Smaller Capitalization Risk.** Risk is greater for the securities of smaller capitalization companies (including small unseasoned companies that have been in operation for less than three years) because such companies generally are more vulnerable than larger companies to adverse business or economic developments and they may have more limited resources.

Performance

The bar chart and table that follow provide an indication of the risks of investing in the Global Telecommunications Fund by showing changes in the Global Telecommunications Fund's performance from year to year and by showing how the Global Telecommunications Fund's average annual returns for one year, five years, and ten years compared with those of broad based securities market indices. As with all mutual funds, the Global Telecommunications Fund's past performance (before and after taxes) does not predict how the Global Telecommunications Fund will perform in the future. Updated information on the Global Telecommunications Fund's results can be obtained by visiting www.gabelli.com.

GLOBAL TELECOMMUNICATIONS FUND
(Total Returns for Class AAA Shares for the Years Ended December 31)

During the calendar years shown in the bar chart, the highest return for a quarter was 18.09% (quarter ended June 30, 2009), and the lowest return for a quarter was (17.46)% (quarter ended September 30, 2011).

Average Annual Total Returns
(for the years ended December 31, 2016
with maximum sales charge, if applicable)

	<u>Past One Year</u>	<u>Past Five Years</u>	<u>Past Ten Years</u>
Global Telecommunications Fund Class AAA Shares:			
Return Before Taxes	2.65%	6.42%	2.16%
Return After Taxes on Distributions	1.25%	5.56%	1.71%
Return After Taxes on Distributions and Sale of Fund Shares	2.98%	5.22%	1.90%
Class A Shares Return Before Taxes	(3.38)%	5.14%	1.55%
Class C Shares Return Before Taxes	0.87%	5.62%	1.39%
Class I Shares Return Before Taxes (first issued on 1/11/08)	2.95%	6.69%	2.40%
MSCI AC World Telecommunication Services Index (reflects no deduction for fees, expenses, or taxes) ...	6.11%	6.87%	4.30%
MSCI AC World Index (reflects no deduction for fees, expenses, or taxes)	9.86%	9.36%	3.56%

The returns shown for Class I shares prior to their first issuance dates are those of Class AAA shares of the Global Telecommunications Fund. No returns are shown for Class T shares since they are not currently offered for sale. All classes of the Global Telecommunications Fund would have substantially similar annual returns because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that the classes do not have the same expenses.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. In some instances, the “Return After Taxes on Distributions and Sale of Fund Shares” may be greater than the “Return After Taxes on Distributions” because the investor is assumed to be able to use the capital loss from the sale of Fund shares to offset other taxable gains. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax deferred arrangements, such as 401(k) plans or individual retirement accounts, including Roth IRAs and SEP IRAs (collectively, “IRAs”). After-tax returns are shown only for Class AAA shares. Actual after-tax returns for other classes will vary due to the differences in expenses.

Management

The Adviser. Gabelli Funds, LLC

The Portfolio Managers. Mr. Mario J. Gabelli, CFA, Chief Investment Officer — Value Portfolios of the Adviser, has served as portfolio manager of the Global Telecommunications Fund since 1993. Sergey Druzhevskiy, CPA, CFA, has served as associate portfolio manager of the Global Telecommunications Fund since 2006. Evan Miller, CFA, has served as associate portfolio manager of the Global Telecommunications Fund since 2002.

Purchase and Sale of Fund Shares

The minimum initial investment for Class AAA, Class A, Class C, and Class T (when offered) shares is \$1,000 (\$250 for IRAs or Coverdell Education Savings Plans). There is no minimum initial investment for Class AAA, Class A, Class C, and Class T shares in an automatic monthly investment plan. Class T shares are not currently offered for sale.

Class I shares are available to investors with a minimum investment of at least \$100,000 (\$500,000 on or after May 1, 2018), and purchasing shares directly through G.distributors, LLC, the Fund’s distributor (“G.distributors” or the “Distributor”), or investors purchasing Class I shares through brokers or financial intermediaries that have entered into selling agreements with the Distributor specifically with respect to Class I shares. The minimum initial investment for Class I shares is waived for employee benefit plans with assets of at least \$50 million. The Distributor reserves the right to waive or change minimum investment amounts. There is no minimum for subsequent investments.

You can purchase or redeem shares of the Global Telecommunications Fund on any day the New York Stock Exchange (“NYSE”) is open for trading (a “Business Day”). You may purchase or redeem Global Telecommunications Fund shares by written request via mail (The Gabelli Funds, P.O. Box 8308, Boston, MA 02266-8308), personal or overnight delivery (The Gabelli Funds, c/o BFDS, 30 Dan Road, Canton, MA 02021-2809), Internet, bank wire, or Automated Clearing House (“ACH”) system. You may also purchase Fund shares by telephone if you have an existing account with banking instructions on file at 800-GABELLI (800-422-3554).

Shares of the Global Telecommunications Fund can also be purchased or sold through registered broker-dealers or financial intermediaries that have entered into appropriate selling agreements with the Distributor. The broker-dealer or other financial intermediary will transmit these transaction orders to the Global Telecommunications Fund on your behalf and send you confirmation of your transactions and periodic account statements showing your investments in the Global Telecommunications Fund.

Tax Information

The Global Telecommunications Fund expects that distributions will generally be taxable as ordinary income or long term capital gains, unless you are investing through a tax deferred arrangement, such as a 401(k) plan or an IRA.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Global Telecommunications Fund through a broker-dealer or other financial intermediary (such as a bank), the Global Telecommunications Fund and its related companies may pay the intermediary for the sale of Global Telecommunications Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Global Telecommunications Fund over another investment. For more information, turn to “Third Party Arrangements” on page 45 of the prospectus. Ask your salesperson or visit your financial intermediary’s website for more information.
