The source of the distribution is net investment income, capital gains, and a return of capital. Based on current earnings on a book basis, approximately \$0.007 per share is from net investment income, \$0.001 per share is from capital gains, and \$0.062 per share is a return of capital. The distribution of capital should not be considered the dividend yield or total return of the Fund.

The final determination of the proportion of capital gains, ordinary income, and non-taxable return of capital, if any, distributed in 2010 will be made after year end. All taxable shareholders will receive written notification regarding the components and tax treatment for all 2010 distributions in early 2011 via Form 1099-DIV.

The Gabelli Utilities Fund is managed by Gabelli Funds, LLC and distributed by Gabelli & Company, Inc., subsidiaries of GAMCO Investors, Inc. (NYSE: GBL).
