

GAMCO Global Gold, Natural Resources & Income Trust

Shareholder Commentary – December 31, 2018

(Y)our Portfolio Management Team

Caesar M. P. Bryan Vincent Hugonnard-Roche

The GAMCO Global Gold, Natural Resources & Income Trust (the “Fund”) is an income fund. The Fund intends to generate current income from short term gains primarily through its strategy of writing (selling) covered call options on the equity securities in its portfolio. Because of its primary strategy, the Fund forgoes the opportunity to participate fully in the appreciation of the underlying equity security above the exercise price of the option. It also is subject to the risk of depreciation of the underlying equity security in excess of the premium received.

Investment Performance

For the quarter ended December 31, 2018, the net asset value (“NAV”) total return of the GAMCO Global Gold, Natural Resources & Income Trust (the “Fund”) was (6.6)%, compared with total returns of (10.8)% and 8.7% for the Chicago Board Options Exchange (“CBOE”) Standard & Poor’s (“S&P”) 500 Buy/Write Index and the Philadelphia Gold & Silver (“XAU”) Index, respectively. The total return for the Fund’s publicly traded shares was (18.3)%. The Fund’s NAV per share was \$4.17, while the price of the publicly traded shares closed at \$3.70 on the NYSE American.

Comparative Results

Average Annual Returns through December 31, 2018 (a)

	Quarter	1 Year	3 Year	5 Year	10 Year	Since Inception (03/31/05)
GAMCO Global Gold, Natural Resources & Income Trust						
NAV Total Return (b)	(6.59)%	(13.54)%	4.32%	(4.99)%	2.84%	(0.26)%
Investment Total Return (c)	(18.35)	(19.44)	4.54	(5.00)	(0.60)	(1.38)
CBOE S&P 500 Buy/Write Index	(10.81)	(4.77)	4.84	5.08	7.96	4.88
Bloomberg Barclays Government/Credit Bond Index	1.49	(0.45)	2.14	2.49	3.43	3.91
Energy Select Sector Index	(23.67)	(18.01)	1.36	(5.65)	4.30	4.40
XAU Index	8.69	(16.34)	16.69	(2.63)	(4.40)	(0.94)

(a) Returns represent past performance and do not guarantee future results. Investment returns and the principal value of an investment will fluctuate. The Fund’s use of leverage may magnify the volatility of net asset value changes versus Funds that do not employ leverage. When shares are sold, they may be worth more or less than their original cost. Current performance may be lower or higher than the performance data presented. Visit www.gabelli.com for performance information as of the most recent month end. Performance returns for periods of less than one year are not annualized. Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing.

The CBOE S&P 500 Buy/Write Index is an unmanaged benchmark index designed to reflect the return on a portfolio that consists of a long position in the stocks in the S&P 500 Index and a short position in a S&P 500 (SPX) call option. The Bloomberg Barclays Government/Credit Bond Index is a market value weighted index that tracks the performance of fixed rate, publicly placed, dollar denominated obligations. The XAU Index is an unmanaged indicator of stock market performance of large North American gold and silver companies. The Energy Select Sector Index is an unmanaged indicator of stock market performance of large U.S. companies involved in the development or production of energy products. Dividends and interest income are considered reinvested. You cannot invest directly in an index.

(b) Total returns and average annual returns reflect changes in the NAV per share and reinvestment of distributions at NAV on the ex-dividend date and are net of expenses. Since inception return is based on an initial NAV of \$19.06.

(c) Total returns and average annual returns reflect changes in closing market values on the NYSE American and reinvestment of distributions. Since inception return is based on an initial offering price of \$20.00.

To Our Shareholders

In the fourth quarter of 2018, gold finally rebounded as concerns of a U.S. economic slowdown emerged. The main worry concerns monetary risk- the possibility of overtightening by the Federal Reserve going into 2019, given the current subdued level of inflation. In addition, following the one time effect of the tax cuts, we could see a normalization of GDP growth back into the 2%-2.5% range in 2019. Added to those concerns are the possibilities of ongoing trade tensions and the asymmetric cost of tariffs on companies and consumers. As a consequence, the Standard & Poor 500 Index (S&P 500) entered into a correction and was down -13.5% during the quarter. Gold reacted normally as a safe haven and the metal was up 7.5% during the quarter, while Philadelphia Gold and Silver Index (XAU) was up 8.7% for the period, making the group valuation still cheap, given the level of the gold price.

On the energy side, oil prices entered into strong bear market territory, with the Brent reference down 34.7% and the WTI down 37.5% for the quarter. Two main factors have to be considered to understand that price movement. The first was the increased production of Saudi Arabia by almost a 1mm barrels per day to make up for the loss of Iranian crude due to the implementation of new sanctions. While perfectly in line with market dynamics, this move was countered by the issue of waivers to certain Asian countries, and Iranian production started to decline by mid-November. The second factor is the lagging effect of U.S. shale production. There are in excess of 8,000 drilled but uncompleted (DUC) wells that will realize production when the price of oil is adequate. It takes about two and one half months for production from these wells to be brought online. After the price of oil peaked at the end of September, we continued to see sustained U.S. oil production into the fourth quarter, despite the price correction. In fact, the U.S. production increased by 600m barrels per day during the period. The perception of a potential global economic slowdown in 2019, which would shrink demand, was the tipping point. Those parameters will readjust as U.S. production suffers from the lower price and OPEC and Russia commit to new production quotas. Saudi Arabia, in particular, needs Brent above \$80 to properly balance its budget. During the quarter, the energy stocks, as measured by the Energy Select Sector Index (IXE), performed in line with the price of crude, and were down by 23.7%.

It is difficult for our covered call strategy to perform well when one of the sectors is up sharply and the premium income collected over the period is not enough to make up for the loss of upside from the option writing, and the other sector is sharply down, increasing the participation to the downside. In that situation, the saving grace comes from the increase in implied volatility and the ability to capture more of it by writing longer term options for the same annualized premium. Volatility levels during the fourth quarter of 2018 jumped to 37% for the gold sector, 34.5% for the base metals sector, and 31.5% for energy equities. We maintained our exposure at a neutral stance to maximize premium option capture, but our exposures increased naturally in energy and contracted on the gold sector. The maturity of the option portfolio increased to an average of three months. At the end of the quarter, the Fund's participation (delta) across sectors was 38% for gold and mining and 80% for energy.

Performance

From its inception on March 31, 2005 through December 31, 2018, the Fund has provided cumulative cash distributions of \$18.57 per share to common shareholders. The annualized net asset value total return to those shareholders who invested in the Fund's initial public offering and continue to hold their shares is (0.3)%, and the return of the Fund's publicly traded common shares was (1.4)%. Shareholders paid \$20.00 per share for the Fund at the initial public offering. The table below reflects the NAV for the Fund's common shares at December 31, 2018, the cumulative distributions paid since inception, and the total combined value of the NAV and the distributions paid.

All data shown on a Per Share Basis	
Public Offering Price (03/31/05):	\$20.00
Sales Load & Offering Expenses	<u>\$0.94</u>
Initial NAV (After Expenses)	<u>\$19.06</u>

Premium / Discount Discussion

As a refresher for our shareholders, the price of a closed-end fund is determined in the open market by willing buyers and sellers. Shares of the Fund trade on the NYSE MKT and may trade at a premium to (higher than) net asset value (the market value of the Fund's underlying portfolio and other assets less any liabilities) or a discount to (lower than) net asset value. Ideally, the Fund's market price will generally track the NAV. However, the Fund's premium or discount to NAV may vary over time. Over the Fund's thirteen year history, the range fluctuated from approximately a 56% premium in January 2009 to a 13% discount in October 2015.

Since its inception in March 2005, the market price of the Fund has both exceeded and trailed the NAV. On December 31, 2018, the market price of the Fund was at an 11.3% discount to its NAV.

Covered Call Strategy

It is the volatility and trading range of the Fund's holdings that enable us to deliver a return to our investors. However, this strategy of generating option premium income also means that individual stocks may be called away, limiting appreciation. The Fund is a vehicle for investors to participate in the natural volatility of these sectors to generate monthly income. It is not a Fund for investors who wish to participate directly in the returns from either the underlying commodities or the stocks of companies engaged in these sectors. The Fund also offers potential diversification for investors. In the past, gold, energy, and natural resources have offered some diversification against potential losses in traditional asset classes and have long been a hedge against the negative effects of inflation and a declining dollar.

The Fund's cash distributions are generated primarily through the execution of a covered call strategy on the majority of the portfolio's equity holdings. This strategy generally consists of writing "out of the money call options" for each of the names owned in the portfolio. The premiums that are collected contribute substantially to the periodic distributions made by the Fund. Because of the high level of implied volatility associated with these underlying equities, the manager generally chooses to write these options for terms of between two and six months, struck at price levels approximately 6% to 12% higher than the then-prevailing price. This allows the Fund to potentially capture some of the upside of the underlying portfolio while simultaneously generating option premium income for its distribution.

Fund Origin and Mandate

The Fund is designed to generate income by investing in more volatile sectors of the market; commodities, specifically gold and energy.

In this strategy, the investor gives up some of the upside of a security for the certainty of earning premium income from the sale of the call option. Managing the Fund is a dynamic process of balancing the certainty of the income available from writing options against the uncertainty of any potential upside move in the stock price.

Common Share Repurchase Plan

On February 14, 2005, the Board of Trustees of the Fund (the “Board”) voted to authorize the repurchase of the Fund’s common shares in the open market from time to time when such shares are trading at a discount of 7.5% or more from NAV. In total through December 31, 2018, the Fund has repurchased and retired 231,803 common shares in the open market under this share repurchase plan, at an average investment of \$7.28 per share and an average discount of approximately 10.6% from its NAV. The Fund did not repurchase any shares during the fourth quarter of 2018.

When the Fund is trading at a premium to NAV, it may issue shares pursuant to its shelf registration statement in “at the market” offerings. Through the period 2009 – December 2018, the Fund has issued 113,243,344 common shares, none of which were issued in the fourth quarter of 2018. While the Fund is trading at a discount to the net asset value, the Common Share Repurchase Plan would be in effect.

Monthly Distributions for Common Shareholders

The Fund paid \$0.05 per share cash distributions on October 24, 2018, November 23, 2018, and December 14, 2018 to common shareholders of record on October 17, 2018, November 15, 2018, and December 07, 2018,

The Fund currently intends to make monthly cash distributions of all or a portion of its investment company taxable income (which includes ordinary income and realized net short term capital gains) to common shareholders. The Fund also intends to make annual distributions of its realized net long term capital gains, if any. A portion of the distribution may include a return of capital. Premium income earned on options is considered short term capital gains and is not treated as qualified dividend income for individuals. Various factors will affect the level of the Fund’s income, such as its asset mix and use of covered call strategies. To permit the Fund to maintain more stable distributions, the Fund may from time to time distribute more or less than the entire amount of income earned in a particular period. Because the Fund’s current monthly distributions are subject to modification by the Board at any time and the Fund’s income will fluctuate, there can be no assurance that the Fund will pay distributions at a particular rate or frequency. The Fund intends to pay monthly distributions at no less than an amount sufficient to satisfy the minimum distribution requirements of the Internal Revenue Service.

Each quarter, the Board reviews the amount of any potential distribution from the income, capital gain, or capital available. The Board will continue to monitor the Fund’s distribution level, taking into consideration the Fund’s net asset value and the financial market environment. The distribution rate should not be considered the dividend yield or total return on an investment in the Fund.

If the Fund does not generate sufficient earnings (dividends and interest income and realized net capital gain) equal to or in excess of the aggregate distributions paid by the Fund in a given year, then the amount distributed in excess of the Fund's earnings would be deemed a return of capital. Since this would be considered a return of a portion of a shareholder's original investment, it is generally not taxable and is treated as a reduction in the shareholder's cost basis. It is expected that distributions to common shareholders in 2018 and 2019 will be mostly a return of capital for tax purposes as premium income (short term capital gains) will be offset by the Fund's capital loss carry forward from prior years.

Qualified dividend income, ordinary income, and paid-in capital, if any, will be allocated on a pro-rata basis to all distributions to common shareholders for the year. Long term capital gains are typically distributed in the later distributions within the year. Based on the distribution allocations of the Fund as of December 31, 2018, the total distributions paid to common shareholders in 2018 represent approximately 6% from net investment income and 94% from paid-in capital. The estimated components of each distribution are updated and provided to shareholders of record in a notice accompanying the distribution and are available on our website (www.gabelli.com). The components for tax purposes will reflect the offset of capital gains by the capital loss carry forward from prior years. All shareholders with taxable accounts will receive written notification regarding the components and tax treatment for all 2018 distributions in early 2019 via Form 1099-DIV.

5.00% Series B Cumulative Preferred Shares

The Fund's Series B Cumulative Preferred Shares paid a \$0.3125 per share cash distribution on December 26, 2018, to preferred shareholders of record on December 18, 2018. The Series B Preferred Shares, which trade on the NYSE American under the symbol "GGN Pr B", are rated A2 by Moody's Investors Service, Inc. and have an annual dividend rate of \$1.25 per share. The Series B Preferred Shares were issued on May 7, 2013, at \$25.00 per share and pay distributions quarterly. The Series B Preferred Shares will be callable at any time at the liquidation value of \$25.00 per share plus accrued dividends following the expiration of the five year call protection on May 7, 2018. The next distribution is scheduled for March 2019.

The Fund is authorized to purchase its Series B Preferred Shares in the open market from time to time when such shares are trading at a discount to the liquidation value of \$25.00 per share. The repurchase of the preferred shares is accretive to the holders of the common shares. In total through December 31, 2018, the Fund has repurchased and retired 483,643 Series B Preferred Shares in the open market under this share repurchase authorization. No shares were repurchased during the fourth quarter of 2018.

Qualified dividend income and ordinary income, if any, will be allocated on a pro-rata basis to all distributions to preferred shareholders for the year. Long term capital gains are typically distributed in the later distributions within the year. Based on the distribution allocations of the Fund as of December 31, 2018, the total distributions paid to preferred shareholders in 2018 represent 100% from net investment income. The estimated components of each distribution are updated and provided to shareholders of record in a notice

accompanying the distribution and are available on our website (www.gabelli.com). The components for tax purposes will reflect the offset of capital gains by the capital loss carry forward from prior years. All shareholders with taxable accounts will receive written notification regarding the components and tax treatment for all 2018 distributions in early 2019 via Form 1099-DIV.

Tax Treatment of Distributions to Common Shareholders

When the distributions are treated as long term capital gain or qualified dividend income (or a combination of both) for individuals, they are subject up to the maximum federal income tax rate. In addition, certain U.S. shareholders who are individuals, estates, or trusts and whose income exceeds certain thresholds will be required to pay a 3.8% Medicare surcharge on their “net investment income,” which includes dividends received from the Fund and capital gains from the sale or other disposition of shares of the Fund. The premium income from options is generally treated as short term capital gains. Thus, the Fund expects that this income is predominately not qualified income.

For more information or to register for e-delivery, please visit our website at www.gabelli.com.

AUTOMATIC DIVIDEND REINVESTMENT AND VOLUNTARY CASH PURCHASE PLANS

Enrollment in the Plan

It is the policy of the GAMCO Global Gold, Natural Resources & Income Trust by Gabelli (the “Fund”) to automatically reinvest dividends payable to common shareholders. As a “registered” shareholder you automatically become a participant in the Fund’s Automatic Dividend Reinvestment Plan (the “Plan”). The Plan authorizes the Fund to credit common shares to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their share certificates to American Stock Transfer (“AST”) to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distributions in cash must submit this request in writing to:

GAMCO Global Gold, Natural Resources & Income Trust by Gabelli
c/o American Stock Transfer
6201 15th Avenue
Brooklyn, NY 11219

Shareholders requesting this cash election must include the shareholder’s name and address as they appear on the Fund’s records. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan, may contact AST at (888) 422-3262.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of “street name” and re-registered in your own name. Once registered in your own name your distributions will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in “street name” at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of common shares distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund’s common shares is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued common shares valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Fund’s common shares. The valuation date is the dividend or distribution payment date or, if that date is not a NYSE American trading day, the next trading day. If the net asset value of the common shares at the time of valuation exceeds the market price of the common shares, participants will receive common shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, AST will buy common shares in the open market, or on the NYSE American, or elsewhere, for the participants’ accounts, except that AST will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common shares exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

Voluntary Cash Purchase Plan

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to AST for investments in the Fund's common shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. AST will use these funds to purchase shares in the open market on or about the 1st and 15th of each month. AST will charge each shareholder who participates a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to American Stock Transfer, 6201 15th Avenue, Brooklyn, NY 11219 such that AST receives such payments approximately 10 days before the investment date. Funds not received at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by AST at least 48 hours before such payment is to be invested.

Shareholders wishing to liquidate shares held at AST must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. The cost to liquidate shares is \$1.00 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Automatic Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by AST on at least 90 days written notice to participants in the Plan.

GAMCO GLOBAL GOLD, NATURAL RESOURCES & INCOME TRUST AND YOUR PERSONAL PRIVACY

Who are we?

The GAMCO Global Gold, Natural Resources & Income Trust (the “Fund”) is a closed-end management investment company registered with the Securities and Exchange Commission under the Investment Company Act of 1940. We are managed by Gabelli Funds, LLC, which is affiliated with GAMCO Investors, Inc. GAMCO Investors, Inc. is a publicly held company that has subsidiaries that provide investment advisory services for a variety of clients.

What kind of non-public information do we collect about you if you become a fund shareholder?

When you purchase shares of the Fund on the NYSE American, you have the option of registering directly with our transfer agent in order, for example, to participate in our dividend reinvestment plan.

- *Information you give us on your application form.* This could include your name, address, telephone number, social security number, bank account number, and other information.
- *Information about your transactions with us.* This would include information about the shares that you buy or sell; it may also include information about whether you sell or exercise rights that we have issued from time to time. If we hire someone else to provide services—like a transfer agent—we will also have information about the transactions that you conduct through them.

What information do we disclose and to whom do we disclose it?

We do not disclose any non-public personal information about our customers or former customers to anyone other than our affiliates, our service providers who need to know such information, and as otherwise permitted by law. If you want to find out what the law permits, you can read the privacy rules adopted by the Securities and Exchange Commission. They are in volume 17 of the Code of Federal Regulations, Part 248. The Commission often posts information about its regulations on its website, www.sec.gov.

What do we do to protect your personal information?

We restrict access to non-public personal information about you to the people who need to know that information in order to provide services to you or the fund and to ensure that we are complying with the laws governing the securities business. We maintain physical, electronic, and procedural safeguards to keep your personal information confidential.

Portfolio Management Team Biographies

Caesar M. P. Bryan joined GAMCO Asset Management in 1994. He is a member of the global investment team of Gabelli Funds, LLC and portfolio manager of several funds within the Gabelli/GAMCO Funds Complex. Prior to joining Gabelli, Mr. Bryan was a portfolio manager at Lexington Management. He began his investment career in 1979 at Samuel Montagu Company, the London based merchant bank. Mr. Bryan graduated from the University of Southampton in England with a Bachelor of Law and is a member of the English Bar.

Vincent Hugonnard-Roche joined GAMCO Investors, Inc. in 2000. He is Director of Quantitative Strategies, head of the Gabelli Risk Management Group, and serves as a portfolio manager of Gabelli Funds, LLC and manages several funds within the Gabelli/GAMCO Funds Complex. He received a Master's degree in Mathematics of Decision Making from EISITI, France and an MS in Finance from ESSEC, France.

We have separated the portfolio managers' commentary from the financial statements and investment portfolio due to corporate governance regulations stipulated by the Sarbanes-Oxley Act of 2002. We have done this to ensure that the content of the portfolio managers' commentary is unrestricted. The financial statements and investment portfolio are mailed separately from the commentary. Both the commentary and the financial statements, including the portfolio of investments, will be available on our website at www.gabelli.com.

The Net Asset Value per share appears in the Publicly Traded Funds column, under the heading "Specialized Equity Funds," in Monday's The Wall Street Journal. It is also listed in Barron's Mutual Funds/Closed End Funds section under the heading "Specialized Equity Funds."

The Net Asset Value per share may be obtained each day by calling (914) 921-5070 or visiting www.gabelli.com.

The NASDAQ symbol for the Net Asset Value per share is "XGGNX."

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund may from time to time purchase its common shares in the open market when the Fund's shares are trading at a discount of 7.5% or more from the net asset value of the shares. The Fund may also from time to time purchase its preferred shares in the open market when the preferred shares are trading at a discount to the liquidation value.

This report is printed on recycled paper.

GAMCO Global Gold, Natural Resources & Income Trust

Annual Report — December 31, 2018

(Y)our Portfolio Management Team

Caesar M. P. Bryan Vincent Hugonnard-Roche

To Our Shareholders,

For the year ended December 31, 2018, the net asset value (NAV) total return of the GAMCO Global Gold, Natural Resources & Income Trust (the Fund) was (13.5)%, compared with total returns of (4.8)% and (16.3)% for the Chicago Board Options Exchange (CBOE) Standard & Poor's (S&P) 500 Buy/Write Index and the Philadelphia Gold & Silver (XAU) Index, respectively. The total return for the Fund's publicly traded shares was (19.4)%. The Fund's NAV per share was \$4.17, while the price of the publicly traded shares closed at \$3.70 on the NYSE American. See page 2 for additional performance information.

Enclosed are the financial statements, including the schedule of investments, as of December 31, 2018.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's annual and semiannual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund's website (www.gabelli.com), and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. To elect to receive all future reports in paper free of charge, please contact your financial intermediary, or, if you invest directly with the Fund, you may call 800-422-3554 or send an email request to info@gabelli.com.

Comparative Results

Average Annual Returns through December 31, 2018 (a) (Unaudited)

	1 Year	3 Year	5 Year	10 Year	Since Inception (03/31/05)
GAMCO Global Gold, Natural Resources & Income Trust					
NAV Total Return (b)	(13.54)%	4.32%	(4.99)%	2.84%	(0.26)%
Investment Total Return (c)	(19.44)	4.54	(5.00)	(0.60)	(1.38)
CBOE S&P 500 Buy/Write Index	(4.77)	4.84	5.08	7.96	4.88
Bloomberg Barclays Government/Credit Bond Index	(0.45)	2.14	2.49	3.43	3.91
Energy Select Sector Index	(18.01)	1.36	(5.65)	4.30	4.40
XAU Index	(16.34)	16.69	(2.63)	(4.40)	(0.94)

- (a) Returns represent past performance and do not guarantee future results. Investment returns and the principal value of an investment will fluctuate. The Fund's use of leverage may magnify the volatility of net asset value changes versus funds that do not employ leverage. When shares are sold, they may be worth more or less than their original cost. Current performance may be lower or higher than the performance data presented. Visit www.gabelli.com for performance information as of the most recent month end. Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing. The CBOE S&P 500 Buy/Write Index is an unmanaged benchmark index designed to reflect the return on a portfolio that consists of a long position in the stocks in the S&P 500 Index and a short position in a S&P 500 (SPX) call option. The Bloomberg Barclays Government/Credit Bond Index is a market value weighted index that tracks the performance of fixed rate, publicly placed, dollar denominated obligations. The XAU Index is an unmanaged indicator of stock market performance of large North American gold and silver companies. The Energy Select Sector Index is an unmanaged indicator of stock market performance of large U.S. companies involved in the development or production of energy products. Dividends and interest income are considered reinvested. You cannot invest directly in an index.
- (b) Total returns and average annual returns reflect changes in the NAV per share and reinvestment of distributions at NAV on the ex-dividend date and are net of expenses. Since inception return is based on an initial NAV of \$19.06.
- (c) Total returns and average annual returns reflect changes in closing market values on the NYSE American and reinvestment of distributions. Since inception return is based on an initial offering price of \$20.00.

Summary of Portfolio Holdings (Unaudited)

The following table presents portfolio holdings as a percent of total investments before options written as of December 31, 2018:

GAMCO Global Gold, Natural Resources & Income Trust

Long Positions		Short Positions	
Metals and Mining	50.1%	Call Options Written	(4.6)%
Energy and Energy Services	33.0%	Put Options Written	<u>(0.4)%</u>
U.S. Government Obligations.....	16.8%		<u>(5.0)%</u>
Exchange Traded Funds.....	<u>0.1%</u>		
	<u>100.0%</u>		

The Fund files a complete schedule of portfolio holdings with the Securities and Exchange Commission (the SEC) for the first and third quarters of each fiscal year on Form N-Q. Shareholders may obtain this information at www.gabelli.com or by calling the Fund at 800-GABELLI (800-422-3554). The Fund's Form N-Q is available on the SEC's website at www.sec.gov and may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

Proxy Voting

The Fund files Form N-PX with its complete proxy voting record for the twelve months ended June 30, no later than August 31 of each year. A description of the Fund's proxy voting policies, procedures, and how the Fund voted proxies relating to portfolio securities is available without charge, upon request, by (i) calling 800-GABELLI (800-422-3554); (ii) writing to The Gabelli Funds at One Corporate Center, Rye, NY 10580-1422; or (iii) visiting the SEC's website at www.sec.gov.

GAMCO Global Gold, Natural Resources & Income Trust

Financial Highlights (Continued)

Selected data for a common share of beneficial interest outstanding throughout each year.

	Year Ended December 31,				
	2018	2017	2016	2015	2014
Ratios to Average Net Assets and Supplemental Data:					
Net assets including liquidation value of preferred shares, end of year (in 000's)	\$655,478	\$828,655	\$853,079	\$691,468	\$920,538
Net assets attributable to common shares, end of year (in 000's)	\$568,366	\$740,746	\$764,312	\$601,745	\$828,027
Ratio of net investment income to average net assets attributable to common shares	1.38%	1.13%	0.44%	0.30%	0.21%
Ratio of operating expenses to average net assets attributable to common shares(c)	1.35%(d)(e)	1.31%(d)(e)	1.32%(d)(e)	1.29%(d)	1.24%
Portfolio turnover rate	145.7%	214.6%	198.4%	36.0%	87.4%
Cumulative Preferred Shares:					
5.000% Series B Preferred					
Liquidation value, end of year (in 000's)	\$ 87,112	\$ 87,909	\$ 88,767	\$ 89,724	\$ 92,512
Total shares outstanding (in 000's)	3,484	3,516	3,551	3,589	3,700
Liquidation preference per share	\$ 25.00	\$ 25.00	\$ 25.00	\$ 25.00	\$ 25.00
Average market value (f)	\$ 23.06	\$ 24.13	\$ 23.81	\$ 22.03	\$ 21.28
Asset coverage per share	\$ 188	\$ 236	\$ 240	\$ 193	\$ 249
Asset coverage	752%	943%	961%	771%	995%

† Based on net asset value per share, adjusted for reinvestment of distributions at the net asset value per share on the ex-dividend dates.

†† Based on market value per share, adjusted for reinvestment of distributions at prices obtained under the Fund's dividend reinvestment plan.

(a) Calculated based on average common shares outstanding on the record dates throughout the years.

(b) Amount represents less than \$0.005 per share.

(c) Ratio of operating expenses to average net assets including liquidation value of preferred shares for the years ended December 31, 2018, 2017, 2016, 2015, and 2014 would have been 1.19%, 1.17%, 1.18%, 1.15%, and 1.14%, respectively.

(d) The Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. For the years ended December 31, 2018, 2017, 2016, and 2015, there was no impact on the expense ratios.

(e) The Fund incurred dividends and service fees on securities sold short. If this expense had not been incurred, the expense ratios for the years ended December 31, 2018, 2017 and 2016 would have been 1.33, 1.30%, and 1.31% attributable to common shares, respectively, and 1.17, 1.16%, and 1.17% including liquidation value of preferred shares.

(f) Based on weekly prices.

See accompanying notes to financial statements.

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements

1. Organization. GAMCO Global Gold, Natural Resources & Income Trust (the Fund) is a non-diversified closed-end management investment company organized as a Delaware statutory trust on January 4, 2005 and registered under the Investment Company Act of 1940, as amended (the 1940 Act). Investment operations commenced on March 31, 2005.

The Fund's primary investment objective is to provide a high level of current income. The Fund's secondary investment objective is to seek capital appreciation consistent with the Fund's strategy and its primary objective. The Fund will attempt to achieve its objectives, under normal market conditions, by investing 80% of its assets in equity securities of companies principally engaged in the gold and natural resources industries. As part of its investment strategy, the Fund intends to earn income through an option strategy of writing (selling) covered call options on equity securities in its portfolio. The Fund anticipates that it will invest at least 25% of its assets in the equity securities of companies principally engaged in the exploration, mining, fabrication, processing, distribution, or trading of gold, or the financing, managing and controlling, or operating of companies engaged in "gold related" activities (Gold Companies). In addition, the Fund anticipates that it will invest at least 25% of its assets in the equity securities of companies principally engaged in the exploration, production, or distribution of natural resources, such as gas and oil, paper, food and agriculture, forestry products, metals, and minerals as well as related transportation companies and equipment manufacturers (Natural Resources Companies). The Fund may invest in the securities of companies located anywhere in the world.

The Fund may invest a high percentage of its assets in specific sectors of the market in order to achieve a potentially greater investment return. As a result, the Fund may be more susceptible to economic, political, and regulatory developments in a particular sector of the market, positive or negative, and may experience increased volatility to the Fund's NAV and a magnified effect in its total return.

2. Significant Accounting Policies. As an investment company, the Fund follows the investment company accounting and reporting guidance, which is part of U.S. generally accepted accounting principles (GAAP) that may require the use of management estimates and assumptions in the preparation of its financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

New Accounting Pronouncements. The SEC recently adopted changes to Regulation S-X to simplify the reporting of information by registered investment companies in financial statements. The amendments require presentation of the total, rather than the components, of distributable earnings on the Statement of Assets and Liabilities and also require presentation of the total, rather than the components, of distributions to shareholders, except for tax return of capital distributions, if any, on the Statement of Changes in Net Assets Attributable to Common Shareholders. The amendments also removed the requirement for parenthetical disclosure of undistributed net investment income on the Statement of Changes in Net Assets Attributable to Common Shareholders. These Regulation S-X amendments are reflected in the Fund's financial statements for the year ended December 31, 2018. As a result of adopting these amendments, the distributions to shareholders in the December 31, 2017 Statement of Changes in Net Assets Attributable to Common Shareholders presented herein have been reclassified to conform to the current year presentation.

To improve the effectiveness of fair value disclosure requirements, the Financial Accounting Standards Board recently issued Accounting Standard Update (ASU) 2018-13, Fair Value Measurement Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement (ASU 2018-13), which adds, removes,

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

and modifies certain aspects relating to fair value disclosure. ASU 2018-13 is effective for interim and annual reporting periods beginning after December 15, 2019; early adoption of the additions relating to ASU 2018-13 is not required, even if early adoption is elected for the removals under ASU 2018-13. Management has early adopted the removals set forth in ASU 2018-13 in these financial statements and has not early adopted the additions set forth in ASU 2018-13.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the Adviser).

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt obligations for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded. OTC futures and options on futures for which market quotations are readily available will be valued by quotations received from a pricing service or, if no quotations are available from a pricing service, by quotations obtained from one or more dealers in the instrument in question by the Adviser.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 — quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Board's determinations as to the fair value of investments).

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments in securities and other financial instruments by inputs used to value the Fund's investments as of December 31, 2018 is as follows:

	Valuation Inputs		Total Market Value at 12/31/18
	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	
INVESTMENTS IN SECURITIES:

Put Options Written	(1,942,259)	(764,000)	(2,706,259)
TOTAL INVESTMENTS IN SECURITIES – LIABILITIES	\$ (16,460,550)	\$ (19,637,979)	\$ (36,098,529)

(a) Please refer to the Schedule of Investments for the industry classifications of these portfolio holdings.

The Fund held no level 3 investments at December 31, 2018 or 2017.

Additional Information to Evaluate Qualitative Information.

General. The Fund uses recognized industry pricing services – approved by the Board and unaffiliated with the Adviser – to value most of its securities, and uses broker quotes provided by market makers of securities not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed income securities. The data within these feeds are ultimately sourced from major stock exchanges and trading systems where these securities trade. The prices supplied by external sources are checked by obtaining quotations or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

Fair Valuation. Fair valued securities may be common or preferred equities, warrants, options, rights, or fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. When fair valuing a security, factors to consider include recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost, if the preceding factors do not

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

apply. A significant change in the unobservable inputs could result in a lower or higher value in Level 3 securities. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Board the results of the application of fair valuation policies and procedures. These may include backtesting the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

Derivative Financial Instruments. The Fund may engage in various portfolio investment strategies by investing in derivative financial instruments for the purposes of increasing the income of the Fund, hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase, or hedging against a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in the options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or, in the event of default, the Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative transactions involves investment risks, transaction costs, and potential losses to which the Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on the Fund's ability to pay distributions.

Collateral requirements differ by type of derivative. Collateral requirements are set by the broker or exchange clearing house for exchange traded derivatives, while collateral terms are contract specific for derivatives traded over-the-counter. Securities pledged to cover obligations of the Fund under derivative contracts are noted in the Schedule of Investments. Cash collateral, if any, pledged for the same purpose will be reported separately in the Statement of Assets and Liabilities.

The Fund's policy with respect to offsetting is that, absent an event of default by the counterparty or a termination of the agreement, the master agreement does not result in an offset of reported amounts of financial assets and financial liabilities in the Statement of Assets and Liabilities across transactions between the Fund and the applicable counterparty. The enforceability of the right to offset may vary by jurisdiction.

The Fund's derivative contracts held at December 31, 2018, if any, are not accounted for as hedging instruments under GAAP and are disclosed in the Schedule of Investments together with the related counterparty.

Options. The Fund may purchase or write call or put options on securities or indices for the purpose of increasing the income of the Fund. As a writer of put options, the Fund receives a premium at the outset and then bears the risk of unfavorable changes in the price of the financial instrument underlying the option. The Fund would incur a loss if the price of the underlying financial instrument decreases between the date the option is written and the date on which the option is terminated. The Fund would realize a gain, to the extent of the premium, if the price of the financial instrument increases between those dates.

As a purchaser of put options, the Fund pays a premium for the right to sell to the seller of the put option the underlying security at a specified price. The seller of the put has the obligation to purchase the underlying

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

security upon exercise at the exercise price. If the price of the underlying security declines, the Fund would realize a gain upon sale or exercise. If the price of the underlying security increases or stays the same, the Fund would realize a loss upon sale or at the expiration date, but only to the extent of the premium paid.

If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss. If a written put option is exercised, the premium reduces the cost basis of the security. In the case of call options, the exercise prices are referred to as “in-the-money,” “at-the-money,” and “out-of-the-money,” respectively. The Fund may write (a) in-the-money call options when the Adviser expects that the price of the underlying security will remain stable or decline during the option period, (b) at-the-money call options when the Adviser expects that the price of the underlying security will remain stable, decline, or advance moderately during the option period, and (c) out-of-the-money call options when the Adviser expects that the premiums received from writing the call option will be greater than the appreciation in the price of the underlying security above the exercise price. By writing a call option, the Fund limits its opportunity to profit from any increase in the market value of the underlying security above the exercise price of the option. Out-of-the-money, at-the-money, and in-the-money put options (the reverse of call options as to the relation of exercise price to market price) may be utilized in the same market environments that such call options are used in equivalent transactions. Option positions at December 31, 2018 are reflected within the Schedule of Investments.

The Fund’s volume of activity in equity options contracts during the year ended December 31, 2018 had an average monthly market value of approximately \$28,077,703.

At December 31, 2018, the Fund’s derivative liabilities (by type) are as follows:

	Gross Amounts of Recognized Liabilities Presented in the Statement of Assets and Liabilities	Gross Amounts Available for Offset in the Statement of Assets and Liabilities	Net Amounts of Liabilities Presented in the Statement of Assets and Liabilities
Liabilities			
OTC Equity Written Options	\$18,108,718	—	\$18,108,718

The following table presents the Fund’s derivative liabilities by counterparty net of the related collateral segregated by the Fund as of December 31, 2018:

Counterparty	Net Amounts of Liabilities Presented in the Statement of Assets and Liabilities	Net Amounts Not Offset in the Statement of Assets and Liabilities		Net Amount
		Securities Pledged as Collateral	Cash Collateral Pledged	
Pershing LLC	\$16,876,059	\$(16,876,059)	—	—
Morgan Stanley	767,216	(767,216)	—	—
The Goldman Sachs Group, Inc.	465,443	(465,443)	—	—
Total	<u>\$18,108,718</u>	<u>\$(18,108,718)</u>	—	—

As of December 31, 2018, the value of equity option positions can be found in the Statement of Assets and Liabilities, under Liabilities, Options written, at value. For the year ended December 31, 2018, the effect of

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

equity option positions can be found in the Statement of Operations under Net Realized and Unrealized Gain/(Loss) on Investments, Securities Sold Short, Written Options, and Foreign Currency, within Net realized gain on written options, and Net change in unrealized appreciation/depreciation on written options.

Limitations on the Purchase and Sale of Futures Contracts, Certain Options, and Swaps. Subject to the guidelines of the Board, the Fund may engage in “commodity interest” transactions (generally, transactions in futures, certain options, certain currency transactions, and certain types of swaps) only for bona fide hedging or other permissible transactions in accordance with the rules and regulations of the Commodity Futures Trading Commission (CFTC). Pursuant to amendments by the CFTC to Rule 4.5 under the Commodity Exchange Act (CEA), the Adviser has filed a notice of exemption from registration as a “commodity pool operator” with respect to the Fund. The Fund and the Adviser are therefore not subject to registration or regulation as a commodity pool operator under the CEA. In addition, certain trading restrictions are now applicable to the Fund which permit the Fund to engage in commodity interest transactions that include (i) “bona fide hedging” transactions, as that term is defined and interpreted by the CFTC and its staff, without regard to the percentage of the Fund’s assets committed to margin and options premiums and (ii) non-bona fide hedging transactions, provided that the Fund does not enter into such non-bona fide hedging transactions if, immediately thereafter, either (a) the sum of the amount of initial margin deposits on the Fund’s existing futures positions or swaps positions and option or swaption premiums would exceed 5% of the market value of the Fund’s liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions, or (b) the aggregate net notional value of the Fund’s commodity interest transactions would not exceed 100% of the market value of the Fund’s liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions. Therefore, in order to claim the Rule 4.5 exemption, the Fund is limited in its ability to invest in commodity futures, options, and certain types of swaps (including securities futures, broad based stock index futures, and financial futures contracts). As a result, in the future the Fund will be more limited in its ability to use these instruments than in the past, and these limitations may have a negative impact on the ability of the Adviser to manage the Fund, and on the Fund’s performance.

Securities Sold Short. The Fund may enter into short sale transactions. Short selling involves selling securities that may or may not be owned and, at times, borrowing the same securities for delivery to the purchaser, with an obligation to replace such borrowed securities at a later date. The proceeds received from short sales are recorded as liabilities and the Fund records an unrealized gain or loss to the extent of the difference between the proceeds received and the value of an open short position on the day of determination. The Fund records a realized gain or loss when the short position is closed out. By entering into a short sale, the Fund bears the market risk of an unfavorable change in the price of the security sold short. Dividends on short sales are recorded as an expense by the Fund on the ex-dividend date and interest expense is recorded on the accrual basis. The broker retains collateral for the value of the open positions, which is adjusted periodically as the value of the position fluctuates. For the year ended December 31, 2018, the Fund incurred \$1,559 in service fees related to its investment positions sold short and held by the broker. These amounts are included in the Statement of Operations under Expenses, Service fees for securities sold short.

Investments in Other Investment Companies. The Fund may invest, from time to time, in shares of other investment companies (or entities that would be considered investment companies but are excluded from the definition pursuant to certain exceptions under the 1940 Act) (the Acquired Funds) in accordance with the 1940 Act and related rules. Shareholders in the Fund would bear the pro rata portion of the periodic expenses of

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

the Acquired Funds in addition to the Fund's expenses. For the year ended December 31, 2018, the Fund's pro rata portion of the periodic expenses charged by the Acquired Funds was less than 1 basis points.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Restricted Securities. The Fund may invest up to 15% of its net assets in securities for which the markets are restricted. Restricted securities include securities whose disposition is subject to substantial legal or contractual restrictions. The sale of restricted securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Board. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and, accordingly, the Board will monitor their liquidity. For the restricted securities the Fund held as of December 31, 2018, refer to the Schedule of Investments.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain/(loss) on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on an accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends.

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

Custodian Fee Credits and Interest Expense. When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as “Custodian fee credits.” When cash balances are overdrawn, the Fund is charged an overdraft fee equal to 110% of the 90 day U.S. Treasury Bill rate on outstanding balances. This amount, if any, would be included in the Statement of Operations.

Distributions to Shareholders. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. Permanent differences were primarily due to tax treatment of currency gains and losses, sales of partnership interests, and disallowed expenses. These reclassifications have no impact on the NAV of the Fund. For the year ended December 31, 2018, reclassifications were made to decrease paid-in capital by \$100,787, with an offsetting adjustment to total distributable earnings.

The Fund declares and pays monthly distributions from net investment income, capital gains, and paid-in capital. The actual source of the distribution is determined after the end of the year. Distributions during the year may be made in excess of required distributions. Distributions sourced from paid-in capital should not be considered as dividend yield or the total return from an investment in the Fund. The Board will continue to monitor the Fund’s distribution level, taking into consideration the Fund’s NAV and the financial market environment. The Fund’s distribution policy is subject to modification by the Board at any time.

Distributions to shareholders of the Fund’s 5.000% Series B Cumulative Preferred Shares (Series B Preferred) are accrued on a daily basis and are determined as described in Note 5.

The tax character of distributions paid during the years ended December 31, 2018 and 2017 was as follows:

	Year Ended December 31, 2018		Year Ended December 31, 2017	
	Common	Preferred	Common	Preferred
Distributions paid from:				
Ordinary income	\$ 4,647,232	\$4,394,893	\$ 6,585,968	\$4,401,545
Return of capital	76,830,834	—	74,461,432	—
Total distributions paid	<u>\$81,478,066</u>	<u>\$4,394,893</u>	<u>\$81,047,400</u>	<u>\$4,401,545</u>

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

As of December 31, 2018, the components of accumulated earnings/losses on a tax basis were as follows:

Accumulated capital loss carryforwards	\$(405,520,780)
Net unrealized depreciation on investments, written options, and foreign currency translations	(325,866,055)
Qualified late year loss deferral*	(5,969,611)
Other temporary differences**	(60,495)
Total	<u>\$(737,416,941)</u>

* Under the current law, qualified late year losses realized after October 31 and prior to the Fund's year end may be elected as occurring on the first day of the following year. For the year ended December 31, 2018, the Fund elected to defer \$5,969,611 of late year long term capital losses.

** Other temporary differences are primarily due to adjustments on preferred share class distribution payables.

At December 31, 2018, the Fund had net long term capital loss carryforwards for federal income tax purposes of \$405,520,780 which are available for an unlimited period to reduce future required distributions of net capital gains to shareholders. Capital losses that are carried forward will retain their character as either short term or long term capital losses.

During the year ended December 31, 2018, the Fund utilized capital loss carryforwards of \$25,178,736.

At December 31, 2018, the temporary differences between book basis and tax basis unrealized appreciation/depreciation were primarily due to deferral of losses from wash sales for tax purposes and mark-to-market adjustments on passive foreign investment companies.

The following summarizes the tax cost of investments, written options, and the related net unrealized depreciation at December 31, 2018:

	<u>Cost/ (Proceeds)/ Premiums</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Depreciation</u>
Investments and derivative instruments	\$1,012,211,495	\$4,824,256	\$(330,677,118)	\$(325,852,862)

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. During the year ended December 31, 2018, the Fund did not incur any income tax, interest, or penalties. As of December 31, 2018, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. The Fund's federal and state tax returns for the prior three fiscal years remain open, subject to examination. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

3. Investment Advisory Agreement and Other Transactions. The Fund has entered into an investment advisory agreement (the Advisory Agreement) with the Adviser which provides that the Fund will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Fund's average weekly net assets including the liquidation value of preferred shares. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

During the year ended December 31, 2018, the Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. The amount of such expenses paid through this directed brokerage arrangement during this period was \$5,797.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement between the Fund and the Adviser. During the year ended December 31, 2018, the Fund accrued \$45,000 in accounting fees in the Statement of Operations.

As per the approval of the Board, the Fund compensates officers of the Fund, who are employed by the Fund and are not employed by the Adviser (although the officers may receive incentive based variable compensation from affiliates of the Adviser). For the year ended December 31, 2018, the Fund accrued \$211,956 in payroll expenses in the Statement of Operations.

The Fund pays each Trustee who is not considered an affiliated person an annual retainer of \$15,000 plus \$2,000 for each Board meeting attended. Each Trustee is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$1,000 per meeting attended, the Audit Committee Chairman receives an annual fee of \$3,000, the Nominating Committee Chairman and the Lead Trustee each receives an annual fee of \$2,000. A Trustee may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. Portfolio Securities. Purchases and sales of securities during the year ended December 31, 2018, other than short term securities and U.S. Government obligations, aggregated \$1,020,317,225 and \$993,882,329, respectively.

5. Capital. The Fund is authorized to issue an unlimited number of common shares of beneficial interest (par value \$0.001). Pursuant to a \$500 million shelf registration, during the year ended December 31, 2018, the Fund has sold its common shares in "at the market" offerings as summarized in the following table:

<u>Year Ended</u>	<u>Shares Issued</u>	<u>Net Proceeds</u>	<u>Sales Manager Commissions</u>	<u>Offering Expenses</u>	<u>Net Proceeds in Excess of Par</u>
2018	336,269	\$1,577,430	\$15,616	\$146,594	\$35,245
2017	727,934	4,108,377	39,781	129,409	89,012

The Board has authorized the repurchase of its common shares in the open market when the shares are trading at a discount of 7.5% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the years ended December 31, 2018 and 2017, the Fund did not repurchase any shares.

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

Transactions in common shares of beneficial interest for the years ended December 31, 2018 and 2017, were as follows:

	Year Ended December 31, 2018		Year Ended December 31, 2017	
	Shares	Amount	Shares	Amount
Shares issued pursuant to shelf offering	336,269	\$1,577,430	727,934	\$4,108,377
Increase from shares issued upon reinvestment of distributions	277,381	1,341,592	418,401	2,310,005
Total	<u>613,650</u>	<u>\$2,919,022</u>	<u>1,146,335</u>	<u>\$6,418,382</u>

The Fund has an effective shelf registration authorizing the offering of an additional \$500 million of common shares or preferred shares.

The Fund's Declaration of Trust, as amended, authorizes the issuance of an unlimited number of \$0.001 par value Preferred Shares. The Series B Preferred are callable at any time at the liquidation value of \$25 per share plus accrued and unpaid dividends. The Board has authorized the repurchase of the Series B Preferred in the open market at prices less than the \$25 liquidation value per share. During the year ended December 31, 2018, the Fund repurchased and retired 31,874 of the Series B Preferred in the open market at an investment of \$686,647 and an average discount of approximately 13.87% from its liquidation preference. During the year ended December 31, 2017, the Fund repurchased and retired 34,324 of the Series B Preferred in the open market at an investment of \$811,253 and an average discount of approximately 5.50% from its liquidation preference. At December 31, 2018, 3,484,483 Series B Preferred were outstanding and accrued dividends amounted to \$60,495.

The Series B Preferred is senior to the common shares and results in the financial leveraging of the common shares. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on the Series B Preferred are cumulative. The Fund is required by the 1940 Act and by the Statement of Preferences to meet certain asset coverage tests with respect to the Series B Preferred. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Series B Preferred at the redemption price of \$25 per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet the requirements. Additionally, failure to meet the foregoing asset coverage requirements could restrict the Fund's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Fund's assets may vary in a manner unrelated to the fixed rate, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

The holders of Preferred Shares generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of the Fund and will vote together with holders of common shares as a single class. The holders of Preferred Shares voting together as a single class also have the right currently to elect two Trustees and, under certain circumstances, are entitled to elect a majority of the Board of Trustees. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the Preferred Shares, voting as a single class, will be required to approve any plan of reorganization adversely affecting the Preferred Shares, and the approval of two-thirds of each class, voting separately, of the Fund's outstanding voting shares must approve the conversion of the Fund from a closed-end to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding Preferred Shares and a

GAMCO Global Gold, Natural Resources & Income Trust

Notes to Financial Statements (Continued)

majority (as defined in the 1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

6. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

7. Subsequent Events. Management has evaluated the impact on the Fund of all subsequent events occurring through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

GAMCO Global Gold, Natural Resources & Income Trust

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of
GAMCO Global Gold, Natural Resources & Income Trust:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of GAMCO Global Gold, Natural Resources & Income Trust (the “Fund”) as of December 31, 2018, the related statement of operations for the year ended December 31, 2018, the statement of changes in net assets attributable to common shareholders for each of the two years in the period ended December 31, 2018, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2018 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2018, the results of its operations for the year then ended, the changes in its net assets attributable to common shareholders for each of the two years in the period ended December 31, 2018 and the financial highlights for each of the five years in the period ended December 31, 2018 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2018 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers LLP
New York, New York
February 28, 2019

We have served as the auditor of one or more investment companies in Gabelli/GAMCO Fund Complex since 1986.

¹ Address: One Corporate Center, Rye, NY 10580-1422, unless otherwise noted.

² The Fund's Board of Trustees is divided into three classes, each class having a term of three years. Each year the term of office of one class expires and the successor or successors elected to such class serve for a three year term. The three year term for each class expires as follows:

* Term expires at the Fund's 2019 Annual Meeting of Shareholders or until their successors are duly elected and qualified.

** Term expires at the Fund's 2020 Annual Meeting of Shareholders or until their successors are duly elected and qualified.

*** Term expires at the Fund's 2021 Annual Meeting of Shareholders or until their successors are duly elected and qualified.

For officers, includes time served in prior office positions with the Fund. Each officer will hold office for an indefinite term until the date he or she resigns or retires or until his or her successor is elected and qualified.

³ This column includes only directorships of companies required to report to the SEC under the Securities Exchange Act of 1934, as amended, i.e., public companies, or other investment companies registered under the 1940 Act.

⁴ Trustees who are not interested persons are considered "Independent" Trustees.

⁵ This Trustee is elected solely by and represents the shareholders of the preferred shares issued by this Fund.

⁶ Mr. Fahrenkopf's daughter, Leslie F. Foley, serves as a director of other funds in the Fund Complex. Mr. van Ekris is an independent director of Gabelli International Ltd., Gabelli Fund LDC, Gama Capital Opportunities Master Ltd., and GAMCO International SICAV, all of which may be deemed to be controlled by Mario J. Gabelli and/or affiliates and, in the event, would be deemed to be under common control with the Fund's Adviser.

A Form 1099-DIV has been mailed to all shareholders of record which sets forth specific amounts to be included in your 2018 tax returns. Ordinary distributions may include net investment income, realized net short term capital gains, and foreign tax paid. Ordinary income is reported in box 1a of Form 1099-DIV. Capital gain distributions are reported in box 2a of Form 1099-DIV.

There were no long term capital gain distributions in the year ended December 31, 2018.

Corporate Dividends Received Deduction, Qualified Dividend Income, and U.S. Government Securities Income

In 2018, the Fund paid to common and Series B Cumulative Preferred shareholders ordinary income dividends of \$0.03840 and \$1.25 per share, respectively. For 2018, 68.03% of the ordinary dividend qualified for the dividend received deduction available to corporations, 100% of the ordinary income distribution was deemed qualified dividend income, and 14.04% of ordinary income distribution was qualified interest income. The percentage of ordinary income dividends paid by the Fund during 2018 derived from U.S. Government securities was 9.69%. Such income is exempt from state and local taxes in all states. However, many states, including New York and California, allow a tax exemption for a portion of the income earned only if a mutual fund has invested at least 50% of its assets at the end of each quarter of its fiscal year in U.S. Government securities. The Fund did not meet this strict requirement in 2018. The percentage of U.S. Government securities held as of December 31, 2018 was 16.82% of total investments.

(a) Non-taxable.

(b) Taxable as ordinary income for Federal tax purposes.

(c) Per share ordinary investment income and investment income are grossed up for the foreign tax credit.

(d) Total amounts may differ due to rounding.

(e) Decrease in cost basis.

All designations are based on financial information available as of the date of this annual report and, accordingly, are subject to change. For each item, it is the intention of the Fund to designate the maximum amount permitted under the Internal Revenue Code and the regulations thereunder.

The Fund intends to generate current income from short term gains primarily through its strategy of writing (selling) covered call options on the equity securities in its portfolio. Because of its primary strategy, the Fund forgoes the opportunity to participate fully in the appreciation of the underlying equity security above the exercise price of the option. It also is subject to the risk of depreciation of the underlying equity security in excess of the premium received.

AUTOMATIC DIVIDEND REINVESTMENT AND VOLUNTARY CASH PURCHASE PLANS

Enrollment in the Plan

It is the policy of GAMCO Global Gold, Natural Resources & Income Trust to automatically reinvest dividends payable to common shareholders. As a “registered” shareholder, you automatically become a participant in the Fund’s Automatic Dividend Reinvestment Plan (the Plan). The Plan authorizes the Fund to credit shares of common stock to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their stock certificates to American Stock Transfer (AST) to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distribution in cash must submit this request in writing to:

GAMCO Global Gold, Natural Resources & Income Trust
c/o American Stock Transfer
6201 15th Avenue
Brooklyn, NY 11219

Shareholders requesting this cash election must include the shareholder’s name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan may contact AST at (888) 422-3262.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of “street name” and re-registered in your own name. Once registered in your own name, your dividends will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in “street name” at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of shares of common shares distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund’s common shares is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued shares of common shares valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Fund’s common stock. The valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange (NYSE) trading day, the next trading day. If the net asset value of the common shares at the time of valuation exceeds the market price of the common shares, participants will receive shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, AST will buy common stock in the open market, or on the NYSE or elsewhere, for the participants’ accounts, except that AST will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common shares exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

Voluntary Cash Purchase Plan

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to AST for investments in the Fund’s shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. AST will use these funds to purchase shares in the open market on or about the 1st and 15th of each month. AST will charge each shareholder who participates a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to American Stock Transfer, 6201 15th Avenue, Brooklyn, NY 11219 such that AST receives such payments approximately 10 days before the 1st and 15th of the month. Funds not received at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by AST at least 48 hours before such payment is to be invested.

Shareholders wishing to liquidate shares held at AST must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. The cost to liquidate shares is \$1.00 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by AST on at least 90 days written notice to participants in the Plan.

Portfolio Management Team Biographies

Caesar M. P. Bryan joined GAMCO Asset Management in 1994. He is a member of the global investment team of Gabelli Funds, LLC and portfolio manager of several funds within the Gabelli/GAMCO Fund Complex. Prior to joining Gabelli, Mr. Bryan was a portfolio manager at Lexington Management. He began his investment career at Samuel Montagu Company, the London based merchant bank. Mr. Bryan graduated from the University of Southampton in England with a Bachelor of Law and is a member of the English Bar.

Vincent Hugonnard-Roche joined GAMCO Investors, Inc. in 2000. He is Director of Quantitative Strategies, head of the Gabelli Risk Management Group, serves as a portfolio manager of Gabelli Funds, LLC, and manages several funds within the Gabelli/GAMCO Fund Complex. He received a Master's degree in Mathematics of Decision Making from EISITI, France and an MS in Finance from ESSEC, France.

We have separated the portfolio managers' commentary from the financial statements and investment portfolio due to corporate governance regulations stipulated by the Sarbanes-Oxley Act of 2002. We have done this to ensure that the content of the portfolio managers' commentary is unrestricted. Both the commentary and the financial statements, including the portfolio of investments, will be available on our website at www.gabelli.com.

The Net Asset Value per share appears in the Publicly Traded Funds column, under the heading "Specialized Equity Funds," in Monday's The Wall Street Journal. It is also listed in Barron's Mutual Funds/Closed End Funds section under the heading "Specialized Equity Funds."

The Net Asset Value per share may be obtained each day by calling (914) 921-5070 or visiting www.gabelli.com.

The NASDAQ symbol for the Net Asset Value is "XGGNX."

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund may from time to time purchase its common shares in the open market when the Fund's shares are trading at a discount of 7.5% or more from the net asset value of the shares. The Fund may also from time to time purchase its preferred shares in the open market when the preferred shares are trading at a discount to the liquidation value.
